Notes:

Click on the ? (top right) for a description of this report.

Notes: Headcount for IUPUI (Indianapolis and Columbus) is unduplicated. Headcount for a school is based on duplicated heads. See “definitions” tab for further explanation.

Headcount figures for students enrolled in programs under the IU Graduate School are reported in Graduate School figures and in program school figures. For instance graduate programs in Liberal Arts are reported in Liberal Arts figures and in Graduate School figures. Graduate School figures include only those programs administered through the Graduate Office at IUPUI.

Headcount figures reflect student enrollment in programs/plans that have any enrollment in any of the past 5 fall terms.
