IUPUI'S 22ND COMMENCEMENT TO CONFER 3,896 DEGREES

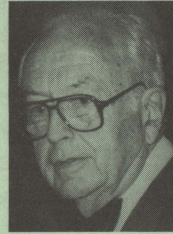

LUGAR

HARRIS

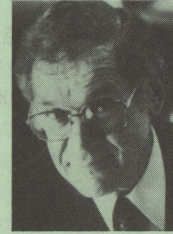

BROWN

COGAN

HOLMQUIST

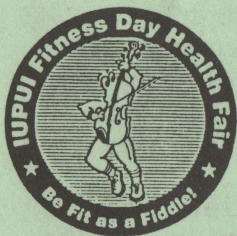

SIMON

BERCAW

IUPUI Chancellor Gerald L. Bepko will preside and U.S. Senator Richard Lugar will give brief remarks and accept one of seven honorary degrees to be awarded during IUPUI's 22nd commencement May 12 at 3 p.m. in the Hoosier Dome. Lugar also will speak at the School of Law ceremonies later in the day. I.U. President Thomas Ehrlich will confer 3,176 I.U. degrees and Purdue University President Steven C. Beering will confer 720 Purdue degrees. Aurand Harris, internationally acclaimed playwright for youth theatre and former artist-in-residence on this campus, will receive an honorary degree. Others to receive honorary degrees from I.U. are Donald J. Brown, expert economist and professor at Stanford University; David G. Cogan, pioneering ophthalmologist and senior medical officer in the clinical branch of the National Eye Institute; Emily Holmquist, innovator in nursing science and education and first dean of the I.U. School of Nursing, the largest in the nation, and Melvin Simon, real estate developer credited with much of the economic growth in Indianapolis. A Purdue University honorary degree will be bestowed on James Bercaw, extraordinary engineer/researcher who was instrumental in helping set up the CAD/CAM Center on campus. IUPUI students from 18 schools and divisions will be awarded 2,695 undergraduate degrees, 640 graduate school and 561 graduate professional school degrees from dentistry, law and medicine. Deans, trustees, and alumni association leaders from IU and Purdue will join the platform party and help confer degrees. Commencement is open to the public, all are welcome and no tickets are necessary. The Alumni Association handles commencement.

A "CHAT WITH THE CHANCELLOR," sponsored by the University Faculty Club is May 17, 4:30-5:30 p.m. in the club, room 200, University Place Conference Center. Faculty members are welcome to discuss issues or just to chat with the chancellor.

SAIUD! 30 EXHIBITORS, PRIZES, FOOD AND FUN IN '91 FITNESS FAIR

In the interest of your good health, the IUPUI Staff Council invites you to the 8th annual Fitness Fair on Lockerbie Green, May 15, 9:30 a.m.-3:30 p.m. The Indianapolis Dept. of Parks and Recreation, the Lions Club, the Martin Center, Diabetes Education and the MAX*WELL group are among the 30 booth exhibitors who will be set up in tents on the green, off University Boulevard, just north of University Place. You can buy snacks and meals from Marriott's menu of healthy food choices, including turkey or grilled chicken sandwiches, fresh fruit and veggies, and a variety of fruit juices. Prizes will be given throughout day and include gift certificates from area restaurants, office items, hotel stays, free campus parking, passes to Starlight Musicals and Deer Creek, as well as duffle bags, coffee mugs and more. Also, the MAX*WELL Program and Wellness Education Committee will kick off its walking scavenger hunt in which you'll be given 24 riddles to crack as you tour campus with a map. For more, call Cheryl Gilmore, 4-8338.

NATION SALUTES NURSES

This is National Nurses Week (May 6-12). You can celebrate by honoring all the men and women who help get us here, get us well and who care a lot for us when we're down. This year's theme is "Nurses Care for America." The nation's largest school of nursing is here and it will celebrate by honoring its own during ceremonies before commencement 10 a.m., May 12, in the Convention Center. Student nurse Sandra L. Hogan will get the "Spirit of Nursing Award" given by the Army Nurse Corps and the National Student Nurse Association. On May 6 at 1 p.m. in room 127 of the Nursing Building Angela Barron McBride, interim dean of nursing, will confer the school's first profile of courage awards on special students who, despite overwhelming odds, have pursued their goal to become nurses. While they may not get the award, some of those "special" students include a mother/daughter duo graduating next week. Joyce Williams and her daughter Melissa Williams have studied together and worked at the same hospital. Janie Shirhall knew when she was 7 years old that she would be a nurse. She also graduates and is the mother of five children.--S. Matthys Roob

NEWS 'N' NOTES FROM HERE 'N' THERE

Mum's the Word--Among the 1,200 different Mother's Day cards sold by Hallmark, three quarters of them do not have the words "mom" or "mother" in them. (Harper's Index, May)

Bike Racers Want You--The IUPUI and IU Medical Center bike racing team is a "pretty good team" already, but is looking for a few good racers to join the team for the June 8 race at the Major Taylor Velodrome. Men and women who are affiliated with IUPUI and who are not USCF-licensed are needed. The race is a 333-meter sprint with two on the track at a time. If you'd like to race, or just want a new jersey, call Chuck Fearnow, 4-5185.

Health Appraisals Waiting--MAX*WELL asks that if you had your health risk appraised in January or February and have not claimed your results, call 4-0610. You must have your claim number for the results to be mailed or picked up. If you've misplaced the number, call anyway and attempts will be made to match you with the correct results.

Peace Poems Please--The "World's Longest Poem for Peace" is being compiled by the International Society of Poets. You are invited to join President Bush and nearly every state governor who already have contributed to the worldwide effort. The peace poem will be longer than several football fields and will be presented to the United Nations during the Society's national poetry symposium in Washington, D.C., Aug. 16-18. What's more, for every person who sends in a poem, the Society will donate a dime to UNICEF. Send your original poem to World's Largest Poem for Peace, P.O. Box 627, Owings Mills, MD 21117.

A Ride Please--Marthana J. Smith of Mooresville needs a ride back and forth to the med center weekdays 8 a.m.-5 p.m. Call 4-8583 or at home, 831-1874.

Brown Leaves a Winner--IUPUI's winning volleyball coach Tim Brown is leaving to coach a team at Alaska-Fairbanks in the NCAA Div. 2. Last season his team finished 27-13 and won the district and bi-district championships to advance to the nationals in Hawaii. His new team has never had a winning season. Good luck, Coach Brown.

Guest Speakers--In a May 8 physiology and biophysics seminar, Robert Wurtz, chief, Laboratory of Sensorimotor Research, National Eye Institute, NIH, presents "Moving in 3-D Space: Neuronal Processing in Primate Cerebral Cortex." In a May 10 molecular/cellular biophysics seminar Fredric Fay, Program in Molecular Medicine, U. of Massachusetts Medical Center, presents "Cellular & Molecular Physiology of Calcium Signalling in Smooth Muscle." Both are at 4:30 p.m. in MS 326. All welcome.

FOUR STUDIES: FOR THE TOUCHY TOOTHED, OLDER ADULTS, AND HYPERTENSION

The Oral Health Research Institute, School of Dentistry is recruiting people 18 years old or older for a three-month study to test the possible benefit of a toothpaste to reduce dentinal sensitivity, the discomfort commonly associated with drinking cold beverages. For more, call 4-8822, weekdays, 8 a.m.-5 p.m.

The School of Nursing and the National Institute for Fitness and Sport are starting a project to study the effects of strength training on muscle functioning of older adults. The purpose is to determine if 12 weeks of strengthening exercises can improve muscle function. All physical exams, blood work, testing and training are free. If you are more than 65 years old or know someone who is, or to learn more about the project, call Robert Topp, 4-4385. The study begins June 1.

Hypertension Research, IU Medical Center needs people with high blood pressure for two studies. The first is for six months and you must be diabetic and controlled without insulin. Payment is \$350 upon completion. The second is a 3-4 month study and you must have a diastolic blood pressure of 100 or greater. Payment is \$100 upon completion. Call 4-0796, weekdays, 8 a.m.-5 p.m.

POSITION AVAILABLE

LECTURER, Dept. of Pathology, educational resource coordinator to develop gross and microscopic anatomic materials for teaching demonstrations; will participate in small group discussions and develop lab exercises, and more. Requires thorough knowledge of medical terminology and completed courses in general pathology for medical or dental students and M.S. degree; prefer Ph.D. Should have experience as physician's assistant. Send CV to: Carleton D. Nordschow, M.D., Ph.D., chairman, Dept. of Pathology, University Hospital N-440.

IU/IUPUI is an AA/EO Employer

MORE NEWS 'N' NOTES

Correction--In the story about the Chancellor's Honors Convocation in last week's Green Sheet, it was not mentioned that Dr. Catherine G. Palmer, School of Medicine, also was a grand marshal, along with W. David Bostwick. Your editor regrets the omission.

How Are You Doing?--Supervisors and biweekly staff members can attend a workshop, "Biweekly Job Evaluation," which will focus on the history, purpose and practice of job evaluation as it relates to clerical, technical and service-maintenance jobs. The classification component and completing the job questionnaire also will be discussed. The workshop is May 30, 1-3 p.m. in the Human Resources Administration conference room, UN 372. To register, call 4-8931 before May 24.

Try It, Try Out--Auditions for parts for eight females and five males, ages five to adult, for The Ovation Players production of "The Ransom of Red Chief" are May 8-10. Techies of all ages also are needed. For details, call 839-2771.

Saving and Savoring the Past--Dust off family albums, visit historic places, and rediscover our roots during "A Blast from the Past," the theme of National Historic Preservation Week, May 12-18. There is a lot going on all week in Indy. Ross Holland, who directed the restoration of Ellis Island (and it is a wonder), speaks at a free lecture. There are tours, an event in nearby Haughville, a African-American photo exhibit and an installation on housekeeping in the good old days. Call 638-5264 for a schedule.

GUILD SETS SALE FOR MOTHER'S DAY

Hanging baskets, hand-crafted items and more will be available in the Mother's Day Flower and Gift Sale May 8-9, 9 a.m.-4 p.m. in the main lobbies of University and Riley Hospitals. The Cheer Guild is sponsor.

DRUNKOMETER INVENTOR SUBJECT OF FORNEY TALK

The invention and patent of the drunkometer and other life achievements of Rolla Neil Harger, former chairman of the Dept. of Pharmacology and Biochemistry, will be the subject of a talk by Robert B. Forney during a public meeting of the John Shaw Billings History of Medicine Society on May 17 at 4 p.m. in the Emerson Hall auditorium. Forney, distinguished professor emeritus of toxicology, was hired by Harger in 1939 and has been at IU ever since. Harger pioneered legislation to control the use of beverage alcohol by motorists by using the breath test to measure ethanol concentration and "drunkenness." The drunkometer was patented in 1936, nine years after he proposed the test for blood alcohol levels. Harger was born in 1890 in Kansas, retired from the medical center in 1962 and died at the age of 93. For more, call Jans Muller, M.D., 4-8577.

VOLUNTEERS GET LAURELS FOR FOCUS

The more than 200 volunteers involved helped make FOCUS, the first Indiana National College Fair, a "spectacular success," reports Sandy Merritt, coordinator. More than 5,000 students and parents and reps from 150 colleges attended. The office of Carol Nathan, associate dean of the faculties, was very involved in FOCUS, as were others on campus. Merritt, who works in Nathan's office, also coordinates the IUPUI Person-to-Person Academic Fair which in prior years was held on campus in spring, but will be moved to fall--Oct. 8-9--to make way for the state collegiate fair, which is expected to become an annual event.

FINALLY...

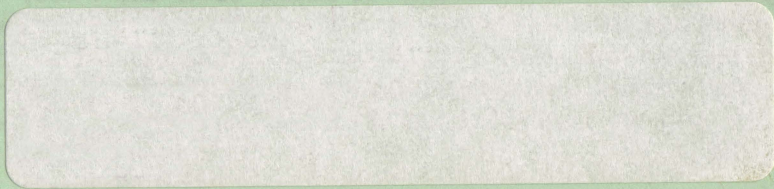

...all the facts about IUPUI are now on the mainframe. If your office or school is publishing a brochure, writing letters to constituents, or if you just want to know more about IUPUI, the full and official statistical (not personal) data about the campus, about alumni and students, faculty and staff, academic units and programs, enrollment info, fiscal and facilities info--all this and more is available. The IUPUI Institutional Data Coordinating Committee (IDCC), in cooperation with the Offices of Internal Communications and IUPUI Computing Services, has expanded the Online Public Information System by adding this new item, "IUPUI and Indiana Facts." It provides immediate access by network users to current statistics and data regarding a variety of institutional topics. For access directions, call Computing Services, 4-0754. Questions or comments about IUPUI Facts Online should be directed to the office of Carol Nathan, associate dean of the faculties, AO 126 or call 4-8974.

...as of May 13 the School of Dentistry library is open 8 a.m.-8 p.m., Mon.-Thurs.; 8 a.m.-5 p.m., Fri.; 9 a.m.-4:30 p.m., Sat., and closed Sundays.
