IUPUI FUTURE DISCUSSED AT PUBLIC HEARING

Dr. Maynard K. Hine, chancellor of IUPUI; Dr. Wilmer K. Fife, chairman and professor of chemistry, and Jack Dustman, chairman of the education committee of the Indianapolis Chamber of Commerce, spoke up for IUPUI at the public hearing of the Commission for Higher Education held here last Tuesday.

The chancellor made these points:

- That IUPUI faculty and staff be consulted before any firm recommendations are made by the commission (due January 1);
- That a split of the medical units from the other units not be made since the units need each other and can support the programs of each other;
- That no restrictions be made on the progress of the Statewide Medical Program or programs of the School of Medicine;
- That IUPUI needs to be reclassified in the commission's system as it does not fit any of the categories listed in the report;
- That research of all kinds should be continued at IUPUI and not limited under an arbitrary system;
- That there is a continued need for open access to undergraduate programs at IUPUI.

Dr. Fife pointed out that the commission should consider a redistribution of educational resources in the state in an effort to direct them where the people are rather than keep resources where they traditionally have grown up.

Dustman made a plea for allowing IUPUI to become as broad as any other university in the state with governance equal to the other public institutions. He suggested that by January 1, 1979, this governance be in effect and, until that time, a governing body subordinate to the I.U. trustees be formed as a way to express local needs and desires into IUPUI operations. "Radical and unplanned severance from I.U. is not good," he said.

State Senator Larry Borst, chairman of the Senate finance committee, also spoke and renewed his plea for a separate state university in Indianapolis. He called for a division between the medical and nonmedical units and said he didn't feel "we are getting results in IUPUI for what the citizens have put into it." -- nhd

CLINICAL RESEARCH CENTER TO RE-OPEN

A \$383,531 Federal grant has been awarded to the I.U. School of Medicine to re-open a major clinical research center which was closed in 1970 during a cutback in Federal funds for medical research.

The United States Public Health Service has agreed to support the center for the next four years for intensive studies of hypertension, endocrine diseases, metabolic bone diseases, hyperglycemia, alcohol metabolism, certain genetic diseases and other diseases in I.U. Hospital patients.

(continued)

Nearly half the grant, \$167,502, is budgeted to pay the costs of special care and tests for carefully-screened patients who will be admitted to the eight-bed Clinical Research Center.

Before the center was closed in 1970, during the Federal cutback, it played a primary role in clinical research programs at the Medical Center.

Research programs completed in the center had contributed to major advances in the understanding of several diseases and to progress in developing more effective means for diagnosing and treating those diseases.

The director of the center is Dr. C. Conrad Johnston Jr., professor of medicine at the state medical school.

CALENDAR CHECK-OFF

Pharmacy displays this week in University Hospital will be Ives Laboratories Inc. on Wednesday and Wyeth Laboratories on Friday. Exhibits in Riley Hospital will be Abbott Laboratories on Wednesday and Ames Co. on Friday. Displays run from 8:30 a.m. to 3:30 p.m.

Herron Open House -- Annual open house at Herron School of Art for prospective students and their parents, high school art teachers and guidance counselors will be held in two sessions, 9 a.m. and 12:30 p.m., Monday. Student work will be on display and students and faculty will be on hand to answer any questions.

Monday -- "Computer Performance--Where Does It Come From, Where Does It Go?", seminar sponsored by the Department of Medical Biophysics, conducted by Dr. John Pinkerton, performance evaluation manager of International Computers Limited; Student Union Building, 10 a.m.

Monday -- "Studies on the Regulation of Pyruvate Metabolism in Rat Liver Mitochondria," Biochemistry Faculty Seminar by Dr. Robert A. Harris, associate professor; Medical Science Building, Room 326, 4 p.m. (3:45 coffee)

Tuesday -- "Methionine Metabolism in Cystic Fibrosis," Medical Genetics Seminar by Dr. Owen M. Rennert, professor of pediatrics and biochemistry at the University of Florida School of Medicine; Riley Research, Room 139, 4 p.m.

Premed Program -- Dr. George T. Lukemeyer, executive associate dean of the School of Medicine, will talk on "The Premedical Curriculum Admission to Medical School" at 4 p.m. Tuesday in Lecture Hall 102. The program is sponsored by the Department of Chemistry.

Wednesday -- "Mechanisms of Axoplasmic Transport in Nerve," Physiology Seminar by Dr. Sidney Ochs, professor of physiology; Medical Science Building, Room 321, 4 p.m.

Fashion Parade -- Fall and winter fashions will be featured in a style show sponsored by the Indianapolis Law School Law Wives at 7:30 p.m. Wednesday in the Sky Room of the Indianapolis Athletic Club. Admission is 75¢.

ISO -- The Metropolitan Opera's leading baritone, William Walker, will make his debut with the Indianapolis Symphony Orchestra at Clowes Memorial Hall on Thursday at 8 p.m. and Friday at 8:30 p.m. Walker will appear with the Indianapolis Symphonic Choir in the Indianapolis premiere of Samuel Barber's "The Lovers."

LoSasso
Friday -- "Management of Trauma: Current Practices and Prospects," postgraduate course sponsored by the School of Medicine and directed by Dr. Frederick Winegarner, assistant professor of surgery; opens with 8:15 a.m. registration in Fesler Hall. Other IUMC participants will be Drs. John Jesseph, Henry Feuer, Walter Jolly, James Madura, Alvin LoSasso and Peter Yaw. Guest speakers for the one-day course will be Dr. Thomas J. Whelan Jr., brigadier general, Office of the Surgeon General, and Dr. Marvin Pomerantz, associate professor of surgery at the University of Colorado Medical School.

Friday -- "Biological Membrane Ultrastructure," Biochemistry Student Seminar by Han Lee; Medical Science Building, Room 326, 4 p.m. (3:45 coffee)

History Club Flick -- "The Red and the White" (Hungary, 1968) will be shown Friday at 8:15 p.m. in Lecture Hall 100. Considered by many to be Miklos Jancso's masterpiece, this is a "haunting film about the absurdity and evil of war." Sponsored by the IUPUI History Club, the film is free for IUPUI faculty, staff and students.

NEWS 'N' NOTES FROM HERE 'N' THERE

Envelope Development - The old pink Campus Mail Only envelope has given way to a new campus mail no. 10 envelope version. The new envelope is white with a red border, very similar to the style used for many years at Bloomington. This "new look" envelope, which now is in Central Stores, may be ordered on a Stores Requisition as item M6088200. There is no change in either issue of price.

Nursing Movie Scheduled -- "Somebody Waiting," an award-winning film produced by the School of Nursing at the University of California at San Francisco, will be shown this month on Channel 20, WFYI. The film about children with cerebral dysfunction will be shown at 8:30 p.m. October 31. The documentary, filmed at a California children's hospital, won the 1972 National Educational Film Festival Award.

Library Hours -- At the request of the Student Council, the present School of Medicine Library schedule will remain the same for the rest of the academic year: Monday through Friday, 8 a.m. to 11:45 p.m.; Saturday, 8 a.m. to 9 p.m., and Sunday, 1 p.m. to 11:45 p.m.

New Committee -- An All-University Radio and Television and IHETS Committee has been appointed by Acting Vice-President J. Gus Liebenow. K. Gene Faris, associate dean of academic affairs, IUB, chairs the committee. IUPUI members are J. Marvin Ebbert, educational resources; Frank Burley, 38th Street, Continuing Education; Leonard G. Koerber, Dentistry, and Charles D. Kelso, Law. The committee will study and make recommendations on desirable interface between System Radio-Television Programs and the developing programs at IUPUI and the regional campuses.

Want Newsletter? -- Medical Center staff members and students who aren't getting the InU-M Newsletter but want to, can call Miss Jo Chapple, Ext. 7182, or send a note with name, status, department and campus address (building and room number) to the School of Medicine Library, Medical Science Building, Room 122.

There's Still Time. . .to be an official IUPUI Metros Booster. The intercollegiate basketball team needs your support--physical and financial. For the former, you can attend the opening game November 25 against IU-Northwest in the gym at Chatard High School. For the latter, you can contribute \$25 (minimum) and get membership in the IUPUI Metros Booster Club, two season tickets and some other goodies which Nick Kestner in the IUPUI Alumni Office will explain. Send money to that office, 1300 West Michigan Street, Union Building, or call Ext. 8828 for more information.

HONORS & ACCOLADES

Professor Edward McWhinney of the Indianapolis Law School has been invited to be a member of the faculty of the Academy of International Law at The Hague during its 50th anniversary session next summer. The prestigious Academy, whose sessions are held in the Peace Palace, the seat of the World Court, is administered by a distinguished international curatorium in which judges of the World Court and other leading jurists are represented. Professor McWhinney is a Canadian and it is the first time that a jurist from Canada has been asked to lecture at the Academy in Public International Law, and one of the rare occasions that a North American jurist has been invited.

Miss Mary Ann Lacy, director of the medical records program at the School of Medicine, was named president-elect of the American Medical Records Association at the organization's 44th annual meeting last week in New Orleans. Miss Lacy, who has been head of the medical school's degree programs in medical records since 1967, will serve as president of the 10,000-member association for the 1973-74 term. She has been director on the group's executive board since 1969 and served in key role's in the association's committees on education and registration, nominations, arrangements and correspondence. (Also attending the New Orleans meeting were Mrs. Janatha Ashton and Mrs. Marcea Hefner, faculty, of the Medical Record Administration Program, and Miss Barbara Miller, director of the Medical Record Department of the University Hospitals.)

The American Psychiatric Association has named Dr. Nancy A. Roeske, director, Riley Child Guidance Clinic, as chairman of a new task force on Women in Psychiatry which will conduct a two-year study on the subject. Earlier this month, Dr. Roeske was a guest of the Emory University School of Medicine in Atlanta where she presented Grand Rounds papers for the departments of pediatrics and psychiatry.

Dr. Theodore F. Schlaegel Jr., professor of ophthalmology, was elected second vice-president of the American Academy of Ophthalmology and Otolaryngology at the organization's national convention last month at Dallas.

Raymond A. Dault, associate professor of food service and lodging supervision, has been awarded a plaque from the Indianapolis branch of the Food Service Executives Association for his service as president of the group for the past two years. During that period, students received more than \$4,000 in scholarship funds. Dault was manager of the Union Building for 19 years before he started the IUPUI food service academic program.
