## RESOURCEFULNESS IN TEACHING IS KEY LEARNING RESOURCE

If the record of the past two programs is any indication, the School of Nursing auditorium will be full of teachers on Friday who want to learn how to teach more effectively. The occasion is the annual Learning Resources Committee Symposium and this year's theme centers on "Communication: The Key to Better Learning."

Jack R. Frymier, professor of education at Ohio State University and co-director of the Center for the Study of Motivation and Human Abilities, will address the general session at 1:15 p.m. with the topic "Creating and Communicating a Climate for Learning."

Four workshops, starting at 2:25 p.m., will follow Frymier's address. Three of the workshops will be repeated at 3:30 p.m.; the first workshop will continue for two hours and not be repeated. Topics will be "Encouraging Communication through Classroom Discussion" (Workshop 1); "Communicating with the Mature Student" (Workshop 2); "Nonverbal Interactions in the Educational Process" (Workshop 3), and "Motivation and Communication" (Workshop 4).

Mailed registrations are essential. If you have not received a brochure with the registration form, call the Department of Learning Resources, Ext. 7442, or stop by that office in the Administration Building, Room 124.

## STUDENTS TO KEEP THEIR COOL -- IN THE ARCTIC

Rain storms, black flies and swarms of mosquitoes -- discomforts most often associated with the South American rain forest or the African jungle -- will await a group of honors students when they travel to the Arctic tundra this summer.

Ten students will live and study in Rankin Inlet on Hudson Bay in the Canadian Northwest Territories as part of a six-week summer field course sponsored by the IUPUI Honors Program in cooperation with the University of Saskatchewan.

Led by Kenneth Barger, assistant professor of anthropology, the students will study human ecology in the Arctic from a multidisciplinary view. "I would like to see students participate from the liberal arts, sciences, health fields and technical sciences because they will learn as much from each other as from the instructors," Barger said.

Besides instruction in physical geography, climate and seasons, geology, and plant and animal life, the students will study the interaction of these elements and the challenges they present to human adaptation. "The Arctic is a unique ecozone for studying principles of human ecology," said Barger, "because it has remained relatively undisturbed by significant human activity." The class also will study Inuit (Eskimo) prehistoric and traditional cultural adaptations and contemporary town life in the far north.

The course will begin July 14 with two weeks of orientation in Indianapolis. On July 28, they will fly to Winnipeg, Manitoba, and board a train for a three-day trip to Churchill, a frontier town on the southwestern coast of Hudson Bay. From Churchill, the class will fly to Rankin Inlet, a town of about 1,000 people -- 75 percent Inuit and 25 percent Eurocanadians. The students will live at the Arctic Research and Training Centre (ARTC), operated by the University of Saskatchewan. Instructors and students from ARTC, government scientists and planners, and local residents and hunters will participate in the program.

The course is open to interested, motivated undergraduates from area universities who have earned a minimum of 12 hours of college credit and who have maintained at least a B average. The cost is approximately \$1,164 and includes tuition, insurance, travel and food.

"Although there are many summer honors courses in universities across the country, this is the only course that emphasizes interdisciplinary perspective and practical experience in the Arctic," said Donnal Dial, professor of economics and director of the Honors Program.

Deadline for application is March 31. For information, write Kenneth Barger, Cavanaugh Hall, Room 303, Ext. 2660.

#### WHO, WHAT, WHEN, WHERE & SOMETIMES WHY

Display -- W. B. Saunders Co. will have a pharmacy display in University Hospital Monday from 8:30 a.m. to 3:30 p.m.

Biochemical -- "Steroid-Vinca Alkaloid Conjugates," Biochemistry Seminar by Dr. Robert T. Blickenstaff; Medical Science Building, Room 205, 2 p.m. Monday.

ICU Nursing -- "Death Anxiety in Newborn Intensive Care Nurses," School of Nursing Research Colloquium by Charlene Wolfe Stepro; Room 305 at the school, noon Tuesday.

Metros -- The Metros have only four remaining games on their schedule and three of them are this week: vs. Illinois-Chicago Circle at 7:30 p.m. Tuesday at Wood, vs. Franklin at 7:30 p.m. Saturday at Wood, and vs. Oakland City at 7 p.m. next Sunday at Market Square Arena (Pacers meet Chicago Bulls at 4 p.m.). For ticket information, call Ext. 3764.

Grand Rounds -- Dr. James Meadows will discuss "Scleroderma Bowel Disease" and Dr. Philip Snodgrass will present "What Good Is Cimetidine?" during Department of Medicine grand rounds Wednesday at 8:15 a.m. in Myers Auditorium at Wishard Memorial Hospital.

Interview -- "Workshop in Beginning Interviewing Skills," School of Social Work continuing education program; Krannert Science Building, Room B68, 8:30 a.m. Wednesday. For information, call Ext. 7221.

Oncological -- Grand rounds in oncology are held each Wednesday at 11 a.m. in Room R-104 of the Radiation Therapy Building. This tumor conference is open to all residents and medical, dental and nursing students. Please call Ext. 8809 if you plan to attend. This Wednesday, Dr. Frank Pairitz of South Bend Memorial Hospital will speak on "Endometrial Carcinoma."

Adoption -- "Group Practice in Adoption Services" will be the focus of a two-day School of Social Work continuing education program this week. The workshop will be held Thursday and Friday in Room 68 of the Krannert Science Building. For information, call Ext. 7221.

Anatomical -- "Current Problems in the Organization and Function of Autonomic Ganglia with Special Emphasis on the Influence of Catecholamines on Autonomic Ganglion Cells," Department of Anatomy Seminar by Dr. William G. Dail, associate professor of anatomy from the University of New Mexico School of Medicine; Medical Science Building, Room 205, noon Thursday.

Retardation -- Two staff members from the Noble Developmental Centers will speak during the Child Development Seminar this week. Linda Carroll, director of developmental services, and Libby Moneyhun, director of employment services, will lead the discussion on "Experiences with Retarded Adult Citizens in the Community." The session will be Thursday at 3:30 p.m. in the Meiks Conference Room at Riley Hospital (Room A564). All Medical Center faculty, staff and students are invited.

Coming Up -- "Influence of Oxygen on Intestinal Absorptive Hyperemia," Physiology Seminar by Dr. H. Glenn Bohlen; Medical Science Building, Room 205, 4 p.m. Monday, February 18.

#### NEWS 'N' NOTES FROM HERE 'N' THERE

Hosts -- The School of Social Work is still looking for host families to participate in the school's spring-summer international program, during which social workers from all over the world come to Indianapolis for three months of continuing education and work experience. The visitors stay with Indianapolis families for five-week segments: May 5-June 7, June 7-July 12 and July 12-August 16. For information, please call Elsa Iverson at Ext. 2961, Dave Metzger at Ext. 8787 or Paula Schneiderman at Ext. 7442.

Award -- Nominations for the E. Ross Bartley Award will be accepted until March 10 in the office of Dean K. Gene Faris, Bryan 215G, Bloomington. The award is given annually to an I.U. administrator or staff member in recognition of meritorious service. The award goes to a person active in university service and is usually earned after the midpoint of a university career. Nominations may be made by any university person or alumni and should include a statement of the nominee's achievements and other qualifications.

Staff -- The IUPUI Staff Council has scheduled its monthly meeting for February 20 at 1:30 p.m. in University Hospital, Room C424. On the agenda are reports from the communications, election, membership, bylaws and fringe benefits committees -- plus a brainstorming session.

Directory -- Please check the departmental and alphabetical listings in the 1979-80 Campus Telephone Directory. If you have any corrections or additions, send a memo before February 29 to Telephone Services, Riley Hospital, Room 1121.

Plan Ahead -- The Department of Medical Illustrations will not be doing any rush slides, personnel photos or patient photos March 13-14 because they will be taking medical student photos from 7 a.m. to 11 p.m. both days.

For Students -- There's something new on campus, a Peer Counseling Center, begun in connection with the "Introduction to College Life" course. Upperclass students are staffing the center in Room 112 at 419 North Blackford Street. A peer counselor is available to talk with students in person or by phone from 9 a.m. to 5 p.m. on Mondays and Wednesdays, and from 10 a.m. to 4 p.m. on Tuesdays, Thursdays and Fridays. Students who have questions about the university system and procedures or who want to discuss problems with another student should call Ext. 2540.

Homecoming -- The annual IUPUI homecoming is slated for February 20, the last Metros basketball game of the season when they meet I.U. Southeast on the court at Market Square Arena. The Metros game starts at 5 p.m. and everyone is invited to a cash bar in the Aisle 25 Restaurant at MSA before the Pacers vs. New York Knicks game. The get-together is sponsored by the Metro Athletic Club. The IUPUI homecoming queen will be crowned at the halftime of the Pacers game.
