## ATHLETIC FACILITIES, RONALD McDONALD HOUSE APPROVED

Indiana University planners have been given the green light to proceed with the planning and construction of outdoor athletic areas and a track and field stadium at IUPUI. Approval came at a meeting of the I.U. Trustees at I.U. Southeast. The project will be funded by state legislative appropriations and a gift of \$1.5 million from Lilly Endowment.

The university received a \$1,915,000 appropriation from the 1981 Indiana General Assembly for construction of the activities area which will include space for sports such as softball, soccer, volleyball, and track and field. The 23-acre area will be used for instruction of physical education students and for intramural, recreational and intercollegiate purposes. The contribution by Lilly Endowment will permit construction of a track and field stadium for the university, as well as for amateur sports events of national and international stature.

The natatorium, now under construction and also supported by Lilly Endowment, and the track and field stadium will be two of the sites for the pre-Olympic National Sports Festival in 1982.

The Trustees also approved a lease for the Ronald McDonald House which will be built on approximately 40,000 square feet at the southwest corner of Michigan and Lansing streets. The 25-year lease will be with Our House, Inc., a not-for-profit corporation that will construct and operate the facility. It will be a low-cost "home away from home" for children receiving out-patient treatment at Riley Hospital and for families of children hospitalized there.

The 24-bedroom house will cost \$1.6 million. McDonald's Restaurant operators in Indiana will contribute \$600,000 and volunteers have pledged to raise the remainder. Our House, Inc., will be responsible for the construction and all costs associated with its operation except steam and electricity.

Construction on both projects is expected to begin this summer subject to appropriate state approvals.

## PARKING MEMORANDUM

Faculty and staff parking permits will be available after June 19 in the Parking Services office or by campus mail. The address is 420 North Agnes Street, just west of Cavanaugh Hall, Ext. 7974.

Rates for permits for 1981-82 are: Blue, \$8.30 per month, \$99.60 per year; Green, \$3.85 per month, \$46.20 per year; garage parking, \$13.75 per month, \$165 per year; evening permit, \$1.25 per month, \$15 per year. The Parking Services office will send application forms to faculty and staff members when requested.

Parking fees may be paid by payroll deduction, cash, or check payable to Indiana University.

A number of parking lots will be redone this summer to recover space lost due to construction and beautification projects along Michigan and New York streets. The number of spaces north of Michigan street also will be increased. When parking lots are scheduled for construction work, notices will be placed on windshields indicating dates of construction, and alternative parking sites. Some work will be done on weekends to reduce inconvenience to parkers.

In the lots designated for small car parking, small cars may park in large car parking spaces, however, cars exceeding 15 feet in overall length are restricted from parking in small car spaces. These spaces are being developed to take advantage of the increasing numbers of small cars parking on campus.
