## PROJECT STAR PROVES VALUABLE CAMPUS/HIGH SCHOOL LINK

An unusual advanced scientific research program for high school students and teachers will be offered for the second time this summer on the IUPUI campus. The program, Project STAR (for Student-Teacher Associated Research) is one of 105 Student Science Training Projects in the nation and is supported by a \$34,330 grant from the National Science Foundation (NSF). Ten teams of one student and one teacher each will be selected from 10 different school systems in Marion and surrounding counties to spend the summer in research and study in the laboratories of 10 different research scientists at IUPUI.

If the experience of some of the 1974-75 teams is typical, Central Indiana will be flooded with scientists soon. An outstanding example is the team from Shortridge High School. They worked in the laboratory of Dr. Erwin Boschmann, professor of chemistry, who is conducting research in new co-ordination compounds of sparteine, a natural alkaloid. The team pushed the work ahead by several months and also discovered three new compounds related to sparteine. Later they recruited a second research team, continued their experiments, and proposed a new course in science technology for the Shortridge curriculum. Their suggestion goes into the schedule with the fall semester.

Dr. Fred L. Ficklin, assistant dean of the IUPUI School of Science and director of Project STAR, said the success of the Shortridge team outstandingly fulfills the objectives of the program. Dean Ficklin said he expects Project STAR to aid the students, teachers and their schools in a number of ways -- by providing an opportunity to develop science communication skills, learn about scientific instrumentation, become familiar with statistical analysis and the use of computers in research, by illustrating how basic science relates to the solution of contemporary problems, and by bringing innovations to the high school science curriculum.

The first 10 weeks of Project STAR, which begins June 7, will earn both teacher and student three hours of university credit at levels appropriate for each. A second, ongoing phase will continue until the end of the next school year as the teams continue their summer experiments and work with school administrators to modify classroom and extracurricular programs. Two hours of university credit will be awarded upon successful completion of the second phase.

#### UPDATE ON PROMOTIONS

Due to an almost unheard-of case of academic underlapping, promotions in the School of Science, Engineering and Technology and the library system were omitted from last week's Green Sheet. With all due apologies to those concerned, here are the additions:

##### Assistant Professor to Associate Professor

School of Engineering and Technology: Paul L. Douglass, Jack B. Hart, Richard E. Moll, Robert E. Tharp, Thomas K. Willison

School of Science: Gordon H. Fricke, Gregor M. Novak, James W. Seubert, Joseph R. Ware

Assistant Librarian to Associate Librarian: Virginia Humnicky, Jeannette Matthew

##### Associate Professor to Professor

Engineering and Technology: Amir K. Naghdi, Paul K. Sharp

Science: Joseph E. Kuczkowski

#### NEWS 'N' NOTES FROM HERE 'N' THERE

Cited -- Two School of Medicine faculty members were promoted to the rank of distinguished or name professorship rank, announced last week at Founder's Day ceremonies at Bloomington. Dr. Charles Fisch, distinguished professor of medicine, and Dr. David Mark Gibson, Showalter professor of medicine, were cited for ability, leadership and outstanding achievement in their fields.

Hats Off -- If you notice a lot of green feathers around campus this week it's because it's National Volunteer Week. Mrs. Maxine Mingle, director of volunteer services at the Medical Center, reports that last year volunteers in the hospitals gave more than 26,000 hours of service. At an awards program last month, 21 volunteers were recognized for 100 to 500 hours of service, eight volunteers for 500 to 1,000 hours, seven volunteers for 1,000 to 2,000 hours, three volunteers for 2,000 to 3,000 hours, one volunteer for 3,000 to 4,000 hours, two volunteers for 5,000 to 6,000 hours, and one volunteer for 6,000 to 7,000 hours.

Announce -- School of Medicine Dean Steven C. Beering has announced that Dr. A David McKinley, assistant dean, has accepted the responsibility of providing supervision and management of house staff affairs on behalf of the dean's office. He will co-ordinate the planning and execution of the complex educational and training programs of the medical school and the hospitals relative to house staff functions. His office is Room C160 in University Hospital; new phone number is Ext. 8281.
