Sherry F. Queener, Ph.D.
Director of the Graduate Office, IUPUI
Associate Dean of the Indiana University Graduate School

SCHOOL OF MEDICINE

Dear Dr. Queener:

I am submitting a revised proposal for the Education Tract Anatomy PhD. I have attempted to address the reviewer's concerns with the addition of three new sections to the proposal.

Specifically, I have subsumed my response to reviewer questions #1 and #5 under the section entitled, "*Why is the Education Track need to produce qualified anatomy teachers?*"

My response to reviewer questions #2-4 is covered in the sections entitled, "*What constitutes medical education research?*" and "*Will the Education Track be a unique PhD program?*"

I want to take this opportunity to thank the reviewer for his or her thoughtful comments. Please let me know if you need any clarifications or additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "James J. Brokaw".

James J. Brokaw, Ph.D., M.P.H.
Associate Professor of Anatomy and Cell Biology
Assistant Dean for Medical Student Affairs
