ANOTHER IUPUI FIRST: LIBERAL ARTS OFFERS CARTOGRAPHIC SERVICES

Top quality, custom-made maps and graphics in black and white or color, man-made or computer-generated, are now offered in the School of Liberal Arts. Liberal Arts graduate Kevin Mickey, a geography major and staff cartographer, saw the need for good maps and graphics for faculty and, with help from the school started and is operating the service. Schools and units on campus, including the School of Medicine, already are using the service, which has doubled output each month since it began five months ago. Also, a major map producing company has commissioned Mickey to prepare more than 40 graphics to be used to teach geography concepts to elementary students. Mickey does much of his own research and "I tailor my work to meet individual needs, and we can negotiate costs, especially for large projects," he said. Autocad and Synercom computer programs are available. Faculty and staff are welcome to stop by the offices of cartographic services in Cavanaugh Hall, room 207, weekdays 8 a.m.-5 p.m., or call 4-8889.--M. Hopper.

GOING ONCE/GOING TWICE All employees are welcome to a public auction Dec. 8 at 635 West New York Street, in which furniture, office equipment, household items and even an S10 pick-up truck cap, will be sold to the highest bidder. Doors open at 9 a.m. for you to browse and items go on the block promptly at 10 a.m. Among the many items are Sony TVs, 150 pallets, copiers, computer cabinets and, of course, the best part--miscellaneous stuff.

PHILANTHROPY HELPS BRIT FIND KINDRED SPIRITS

Veteran British civil servant Sandra Newton, first Harkness Fellow to be hosted by the IU Center on Philanthropy at IUPUI, is spending six months here and is traveling to other cities to learn the secrets of America's gift for giving. Her prestigious fellowship was awarded by the New York-based Commonwealth Fund. She is an industrial sociologist who has worked for 17 years with the Employment Department in England where she runs the special needs branch of the training agency. Newton praised the Center and "the strong philanthropic tradition" in the U.S. She said, "The extensive network of the Center on Philanthropy has provided contacts for me that I could not have discovered alone. The Center's connections have helped me find 'kindred spirits' in all the other cities I plan to visit." Her focus is to study and research job training in the nonprofit sector--primarily on church involvement in job training programs for the unemployed. She leaves for England Feb. 12 and she hopes the knowledge she gains here will be useful to government, churches and charities in Great Britain. (The dates of a seminar she plans to give here will be announced later.)

GERMAN PLAY OPENS AT ATHENAEUM Scenes from two plays by Botho Strauss, winner of the 1989 Buchner Prize, will be performed in German on Dec. 2 at 3 p.m. in the newly renovated Athenaeum, 401 East Michigan Street. Several scenes from "Sieben Turen" (Seven Doors) and one from "Die Ledertasche" (The Leather Purse) have been integrated for a play under the direction of Gabrielle Bersier, associate professor of German. The IUPUI Department of German Language and Literature, in association with the American Cabaret Theatre apprenticeship and internship program, is producing the play. Tickets are \$5 for adults, \$2.50 for students and are available at the door. For more, call 4-2330.

NURSING GETS NEW ADMINISTRATORS FROM ACROSS THE GLOBE

The School of Nursing has attracted several new administrators from IU campuses, the nation and the world. Taking their positions at the helm are: Constance J. Adams, associate dean for nursing practice and professor, who was research program director in the Center for Nursing, American Hospital Association, Chicago; Donna L. Boland, associate dean for undergraduate programs and assistant professor, who was associate dean for the baccalaureate program, Brigham Young University, College of Nursing, Provo; Bianca M. Chambers, chairman, Department of Community Health Nursing and associate professor, who had been assistant professor, community health nursing, Graduate School, College of Nursing, Northeastern University, Boston, and Jerry D. Durham, executive associate dean for academic programs and professor, who was director of the School of Nursing, Illinois Wesleyan University, Bloomington, Ill. Also, Angela Barron McBride, executive associate dean for research and professor, previously associate dean for research at the school; Duane F. Pennebaker, chairman, Department of Psychiatric Mental Health Nursing and associate professor, who had been a visiting associate professor in the school and before that, associate professor and director of graduate studies and research, Curtin University of Technology, School of Nursing, Perth, Western Australia; Sandra Neiman, assistant dean for administration, previously associate dean for administration, Graduate School of Management, Simmons College, Boston; Shirley Ross, acting associate dean for administration and associate professor, who had been acting chairman, Department of Community Health Nursing at the school, and Lillian Yeager, acting assistant dean and associate professor, and acting chairman of the Division of Nursing, IU Southeast (New Albany), where she was an associate professor.

PRELUDE TO PERTH For the first time, unified Germany is sending swimmers, and to add to the excitement everyone is sure to try and beat Janet Evans' world record during the U.S. Open Swimming Championships at the natatorium, Nov. 30-Dec. 2. This is the final warm-up for the VI FINA World Championships in Perth, Australia in January. For a brochure, or ticket information or reservations, call 4-3517.

NEWS 'N' NOTES FROM HERE 'N' THERE

Try It, Try Out--The IUPUI University Theatre will hold open auditions for the play, "Look Homeward, Angel," Dec. 3-4, 7:30 p.m., in the Mary Cable Building, room 002. Written by Ketti Frings from the novel by Thomas Wolfe, the play requires 10 male and 9 female roles for people ranging from young adult to middle age. Productions are Feb. 15-16 and Feb. 22-23. Scripts are available at the IUPUI University Library reserve desk. Staff, faculty and students are welcome. For more, call 4-0557.

AWIS Electing--Officers will be elected and information will be provided at the next meeting of the local chapter of the Association of Women in Science (AWIS), Nov. 27, 7-9 p.m., UH N436. Guests and new members welcome. For more, call Joan Lafuze, 4-2276.

OHRI Needs 1000 Subjects--The Oral Health Research Institute will be screening 1000 people, Nov. 29-Dec. 20, for a six-month study to identify people who have a specific microorganism in their saliva. The screening appointment will take 20 minutes and includes a medical history questionnaire and a saliva test. Subjects will be paid \$10. For more, or to volunteer, call 4-8822.

Dig It--David Long, Michigan State U., presents "Heavy Metal Cycles in the Great Lakes: Views from a Manned Submersible," in the next Geology Colloquium, Nov. 27, noon-1 p.m., CA 435. Bring lunch; all welcome.

LAW SCHOOL FIVE TO ENHANCE SERVICE TO STUDENTS

This year saw the addition of five new administrators at the School of Law - Indianapolis. They are, according to Dean Norm Lefstein, "first-rate people with first-rate abilities-all very well qualified for their new positions." Shown here in the photo, left to right, are: Angela Espada, director of admissions; Joni Thompson, assistant dean for development; Tom Allington, associate dean for academic affairs; Jonna Kane, assistant dean for administration, and Arlene Anderson, assistant dean for student affairs. Lefstein said that his new administrators are implementing an aggressive admissions program and are developing programs so that the school can fully serve the student body.

POSITIONS AVAILABLE

CHAIRMAN, Dept. of Radiology, tenure-track. Must be board-certified, experienced in medical education, research and administration. Candidates should send a CV and references to Joe C. Christian, M.D., Ph.D., chairman, Search and Screen Committee, IU School of Medicine, Fesler Hall 302, 1120 South Drive, Indianapolis 46202. (Please note that this is a correction of an earlier announcement.)

COMPUTER TECHNOLOGY, tenure-track, Dept. of Computer Technology, available Aug., 1991. Candidates must have a master's degree; prefer Ph.D. Applicants must have background in data communications software and hardware (prefer LAN experience). Business or industrial, and teaching experience required. Will teach undergraduate courses as well as demonstrate professional development, creativity and excellent communications skills. Rank and salary depend on qualifications. Send resume and three references by Jan. 31 to Robert G. Crozier, chairman, Dept. of Computer Technology, Purdue University School of Engineering and Technology at IUPUI, 1201 E. 38th Street, Indianapolis 46205.

(IUPUI is an EO/AA Employer)

MORE NEWS 'N' NOTES

Anatomy--Susan L. Stoddard, Fort Wayne Center for Medical Education, presents "Adrenal Medullary Function in Relation to Parkinson's Disease," Nov. 27, noon, MS 205.

Chemistry--John Oliver from Wayne State U. presents "Synthesis, Structure and Bonding in 4 & 5 Coordinate Organoaluminum Compounds" Nov. 28, 4:15 p.m., KB 231. "Tea" at 4 p.m.

Medical/Molecular Genetics--Jennifer Krieger, graduate student, presents "Retinitis Pigmentosa" Dec. 4, 4 p.m., IB 233. All welcome.

Physiology & Biophysics Trio--Virginia M. Miller, assistant professor of physiology, Mayo Foundation, presents "Modulation of the Vascular Endothelium by Chemical and Physical Factors in the Local Environment" Nov. 26, noon, MS 205. David T. Wong, research adviser, CN & Endocrinology Research, Eli Lilly, presents "Pharmacology of Serotonin Neurons in the Control of Food Intake" Nov. 28, 4 p.m., MS 205. Gerald Alter, associate professor of biochemistry, Wright State U. School of Medicine, presents "What are the Properties of Enzymes in vivo? Malate Dehydrogenase in Concentrated and Dilute Solutions" Nov. 30, 4:30 p.m., MS 326.

LIVE TELECONFERENCE FOCUSES ON BLACK GREEK MISSION

New rules on hazing and pledging, the outreach to black high schoolers, and new roles in a changing society are among the topics to be addressed in a teleconference, "Black Fraternities & Sororities: A Glorious Past, The Road Ahead," Nov. 28, beginning at 12:30 p.m. in the Nursing Building, room 103. The two-hour interactive videoconference will explore the future of black Greek letter organizations. Produced by Black Issues in Higher Education, it will originate from Washington, D.C. Representatives from the nation's Greek organizations will participate. Alvin S. Bynum, special assistant to the chancellor, invites everyone. To reserve your place or for more, call 4-5962.

SO THAT WE REMEMBER OUR MEN AND WOMEN IN THE MIDDLE EAST DURING THE HOLIDAYS

the Campus Post Office is providing free holiday greeting cards and envelopes--you just add 25 cents for postage. Also, while some deadlines have passed, you still have time to mail holiday packages to such places as Alaska, Europe, Greenland, Africa, Australia and the Far East, to name some. For more, call 4-7742.

UNIVERSITY THEATRE BELIEVES AND MAKES A NEW LIST Last year, Heather Waggoner, costumer for University Theatre, made up a Christmas Wish List. Hangers--that was the list. She got so many she will never have to ask for them again. However, other things are running short. So, dear IUPUI Santas, this year her WISH LIST grew: Hammer, pliers, hand stapler, scissors/shears, pinking shears, screwdriver, hot glue gun with a trigger, hairbrush and comb, bobby pins, hairpins, hair spray, electric knife or foam cutter, tacks of all kinds, T-pins, and wooden spring clothespins. Donations can be taken to the theatre office, first floor, Mary Cable Building.

SCIENCE LEADS HIGH SCHOOLERS INTO THE HEAVENS

The exciting computer-generated works of area high school students in Project Outreach will finally be displayed in the "heavens" in a public show in the planetarium at the Indianapolis Children's Museum, Dec. 13 at 7:30 p.m. The students are participating in an advanced computer lab offered through a partnership between the physics department in the School of Science and the museum. Forrest T. Meiere, professor of physics, is directing the project. Students and teachers have been meeting in workshops on Saturdays since November and are making their "heavenly" graphics shows following their introduction to a powerful software package "Mathematica" on the Macintosh IIci. Gregor M. Novak, associate professor of physics, introduced the package and is assisting with the students' projects. Mathematica Journal, a national publication by Addison-Wesley, has assigned a reporter and photographer to prepare an article about the project. "As far as they know, it is the first of its kind in the country," said Meiere.--M. Hopper

FINALLY...

...a reminder. The Honorable Richard J. FitzGerald, advocate for children's causes, will be the keynote speaker at a colloquium on the psychosocial and legal aspects of child abuse and neglect, Nov. 28, 2:30-4 p.m., in the Krannert Science Building, room 031.
