The Office of the Vice Chancellor for Research invites you to the first annual IUPUI Research Day. This is IUPUI's Open House celebration of its cutting-edge and multifaceted research and scholarly activities.

The Research Day events begin in the morning with undergraduate, graduate and professional student poster presentations, followed by afternoon sessions including the Research Frontiers Distinguished Lecture presented by Nobel Laureate Dr. Leon Lederman, and research presentations highlighting the groundbreaking research conducted on the IUPUI campus.

Nobel Laureate
Dr. Leon Lederman

The Research Day provides an opportunity for the IUPUI faculty, staff, and students, and their academic, industrial, governmental partners, and the community at large, to come together and find out more about the research enterprise at IUPUI, explore new collaborations, and lay the foundation for new partnerships.

For more information contact the Office of the Vice Chancellor for Research at 274-1020 or email ovcr@iupui.edu.

This event sponsored in part by a grant from the IUPUI 40th Anniversary committee.
