GINGOLD, WEBB AND BRILLIANT YOUNG MUSICIANS BEGIN MUSIC SERIES

An opera, big band music and a concert featuring the renowned violinist Josef Gingold and two young musicians are all part of a special series, "Music for Indianapolis," planned especially for city by IUPUI, the I.U. School of Music, the Indianapolis Opera and Cathedral Arts, Inc. "An Afternoon with Gingold"

begins the series in the Circle Theatre Nov. 3 at 3 p.m. The 75-year-old Russian-born violinist will be joined by the school's dean, Charles H. Webb, piano. Gingold has selected to play with him violinist Corey Cerovsek, 13, who at 12 years old was the youngest student ever accepted in the School of Music. Another talented pianist, 15-year-old Katja Cerovsek, also a full-time student in the school and Corey's sister, completes the trio. Austrian-born, their parents first moved to Canada, where Corey was born, and later to the U.S. The young people are both graduates of the Royal Academy of Music, Toronto. "The personalities and talents of the wise and affable Gingold and the astonishingly charming young Cerovseks will combine to provide the audience with a warm and wonderful afternoon," said Webb. Gingold, whose early gift for music and pre-teen age years parallel those of Corey, teaches master classes world-wide. With music for all, the series next offers the I.U. Opera Theater presenting a full production of Mozart's "Don Giovanni" in Clowes Hall on the Butler campus. In its 36th season, the opera is revisiting Indianapolis after 20 years. The series comes full "Circle" in April with the "Big Band Extravaganza." Bands directed by jazz professors David Baker and Dominic Spear will re-create the big-band sounds of the '40s and '50s. Tickets for the Gingold concert are on sale now at the Circle Theatre. Call 639-4300.

A computer problem prevented us from mailing this week's GREEN SHEET to the usual mailing list. Some of you may not get your copy, others who are not on the usual list may get one. We should return to normal next week—we hope. The News Bureau and Administrative Computing Services regret any inconvenience.

'SPENCER' AUTHOR FIRST IN LECTURE SERIES

Robert B. Parker, creator of the "Spenser" detective novels that have been adapted for the ABC fall series "Spenser for Hire," is the first in the IUPUI Lecture Series. Writer of 12 novels featuring a private eye, Parker speaks Oct. 24 at 7:30 p.m. in Lecture Hall 102. Writing in the "Sam Spade" tradition, Parker has a Ph.D. in English. His lecture is titled, "Novels and Films."

THE NEXT RARE FILM in the "Essential Cinema" series is the 1938 Depression film "Things to Come," adapted for the screen by H.G. Wells and directed by William Cameron Menzies. It will be shown at the Herron School of Art auditorium Oct. 23 at 9 p.m. and Oct. 24 at 8 p.m. Various short subject films will also be shown.

NEWS 'N' NOTES FROM HERE 'N' THERE

It's Our Week--Somebody did notice the contributions made to society by higher education and therefore set aside a week for us to celebrate ourselves. Happy National Higher Education Week! And, hold your breath, it's also National Clean Air Week.

Circle Mini-Series--"The Year 2000: What Can We Expect?" will be the subject of a lecture by Thomas S. Fedor, associate professor of geography, on Oct. 23 at noon in the City Center on the Circle. Part of ongoing "State of Being Human" series sponsored by the Center and the Institute for Humanities Research at IUPUI.

Honorable Meeting--The School of Business will have an honors information meeting on Nov. 1 from noon-1 p.m. in Business/SPEA, Room 3017. For more, call Ginny at Ext. 2466.

Genetics Seminar--Dawn DeLozier-Blanchet, graduate student, Geneva, Switzerland, speaks on "Human Testicular Tumors: Investigation of the Malignant Phenotype Using Surgical Specimens, Cultured Cells and Xenografted Material" on Oct. 21, noon, in the Riley Research Conference Room 138.

No Off to Valpo--Telecommunications wants you to know that there is no longer off-net calling to Valparaiso. Change your SUVON card.

Riley Grant--Applications are available for James Whitcomb Riley Memorial Association grants which are limited to those that deal with patients at Riley. Proposals are due Nov. 30. Applications are in the dean's office, Fesler Hall, Room 318, or call Ronald Hunt, Ext. 2346.

Not Class of '70--There will be a class reunion at George Washington High School, but it's for the class of 1971, not '70 as was incorrectly printed in last week's Green Sheet. Call 635-7359 during the day; 241-7601 evenings.

Physics Seminar--Kris Dines, president, XDATA Corp., Indianapolis, speaks on "Computer Aided Imaging in Medicine and Geophysics" on Oct. 30, 3:30 p.m., KB 125. Refreshments at 3:10 p.m., KB 118. Call F.W. Kleinhans, 923-1321, Exts. 236 or 214.

Budding Peles--The Suburban Indiana Soccer League Tournament is at the Track Stadium, Oct. 26-27. For times and tickets call Ext. 3517.

Synthetic DNA--Pamel Jeffers, Morley, Applied Biosystems of California, will present non-technical discussions on uses of synthetic DNA in varied applications of research on Oct. 24, 9:30 a.m., MS 354. She will answer questions. Demonstration follows next week. For more, call Ext. 7727.

Noblesvillians--Maudine Williams from the Herron library wants to hear from you if you'd like to form a carpool between Noblesville and downtown Indy or campus. Call 923-3651 weekdays, and 773-1763 evenings.

Industrial Update--Robert W. West, School of Materials Engineering, speaks on "Materials Aspects of Hybrid Microelectronics" on Oct. 22, 1-2:20 p.m., KB 257.

"Shanghaied"--Dr. Yiming Li of Shanghai, People's Republic of China, submitted the winning name, "Exchange," for the new International Student Services newsletter at IUPUI.

IUPUI, ICU HOST GRADUATE ED CONFERENCE

A mini-conference focusing on "Graduate Education in a World of Change" will be next week at Indiana Central U. and IUPUI. Faculty members and graduate deans from the state are invited to the conference that opens Oct. 23 at ICU, with lunch at the Schwitzer Center. Then at 2:30 p.m. in the Krannert Library, Catherine G. Palmer, assistant dean for graduate studies and professor of medical genetics, School of Medicine will moderate a panel discussion on "Examining the Graduate Education Needs of the State of Indiana." The panel includes Struther Arnott, vice president for research and dean of the graduate school, Purdue U.; Robert E. Gordon, vice president for advanced studies, U. of Notre Dame, and John W. Ryan, president of IU. A reception and dinner follows at IUPUI with the evening session beginning at 8:15 p.m. in Lecture Hall 102. Herbert London, dean of the Gallatin Div., New York U. and senior fellow at the Hudson Institute speaks on "How the World Is Changing and the Effect of These Changes on Graduate Education". There is no charge.

On Oct. 24 the conferees meet at 9:30 a.m. in the Roof Lounge of the Union Building to hear William A. Blakey speak on "Federal Financing and the Future of Graduate Education: A Report from Washington." He is senior legislative assistant to Sen. Paul Simon (D-Ill.), Senate Committee on Labor and Human Resources. The conference will then go into discussion groups on "Making Graduate Education Accessible to All Who Need It," led by William C. Bonifield, vice president for education, Lilly Endowment, Inc.; "Graduate Education in an Urban Environment," led by George Weathersby, president of the Curtis Publishing Co. and former commissioner of the Indiana Commission on Higher Education, and "Interdisciplinary and Institutional Cooperation," led by Roger Clark, director of the Committee on Institutional Cooperation.

An after-lunch wrap-up session will be moderated by Jan Shipps, professor of history and director of the IUPUI Center for American Studies. Anyone interested in attending can call Judith Lovejoy, Office of Graduate Studies, Ext. 2066. Meal reservations should be made by the morning of Oct. 21.

MORE NEWS 'N' NOTES

Biochemistry--Ronald Bowsher, dept. of biochemistry, School of Medicine, presents "Cytosolic Rat Brain Tyrosine Transaminase: Purification, Characterization and Identification as Glutamine Transaminase-K" on Oct. 21, 4 p.m., MS 321. Coffee/tea at 3:30 p.m.

Chemistry--Rudolph Abramovitch speaks Oct. 23 on "Applications of Arylnitrenium Ion to the Synthesis of Heterocycles", and Calvin Giddings, U. of Utah, speaks Oct. 30 on "Field Flow Fractionation." Both at 4:30 p.m., KB 231. Refreshments at 4 p.m..

Pathology--Michael Kelly, professor of pathology, U. of British Columbia, speaks on "Vibrio Species of Medical Importance in Patients and the Environment" on Oct. 24, noon, UH N-436.

Microbiology/Immunology--Robert Bray, dept. of microbiology/immunology, School of Medicine, presents "Lipoxygenation and Human Natural Killer Cell Activation: Progress and Prospects" on Oct. 24, 4 p.m., MS 205.

Physiology/Biophysics--Thomas C. Lloyd Jr., professor of medicine and physiology/biophysics, speaks on "Effect of Pulmonary Arterial Distension on Pulmonary Vascular Resistance" on Oct. 23, 4 p.m., MS 205.

SEMINAR SET ON CAUSES/CONSEQUENCES OF CITY GROWTH

The Economics Club is sponsoring a seminar series to discuss the causes and consequences of downtown growth in Indianapolis, Oct. 22-24 in B/S 1000. On Oct. 22 at 10 a.m., the director of the Center for Urban Economics and professor of economics at Washington U. in St. Louis, Charles Leven, will speak. He will describe reasons for urban growth in the Midwest and Indianapolis' place in the region. On Oct. 23 at 9 a.m., Robert Borns of Borns Management Co. and Larry Conrad of Mel Simon and Assoc. will discuss their roles in downtown development. Among other projects, Borns has the Union Station, and Simons has built the Claypool Shops, Embassy Suites Hotel and other shopping mall projects. On Oct. 24 at 10 a.m., Carl Moldthan, head of the Indianapolis Taxpayers Association, will talk about the city's "biased" policies toward city growth that he says favors some groups and areas at the expense of others. The seminars will last about one hour and there is no charge. Support for the seminars is from the Student Activities Fund and the Center for Economic Education, both at IUPUI.

Auditions for 32 roles in seven one-act plays to be directed by students in Directing I class (C-339) is Oct. 23 from 2-4:15 p.m. in the Mary Cable Bldg., Room 002. Among the 18 roles for men directors need someone who can be 16 years old and someone with an English accent. Among the 14 roles for women, one needs to have a Texas drawl, one needs to be underweight and another overweight. The plays are set for Dec. 12-14. For scripts or more information, leave a message at 852-5427, or leave a message on the board outside Room 002.

NOTED ART CRITIC/PSYCHOLOGIST VISITING

Rudolf Arnheim, who has been named the first visiting fellow by the Institute for the Humanities at IUPUI, will be here Oct. 21-Nov. 1. He is professor emeritus of the psychology of art at Harvard U., and his career includes magazine editor in Berlin, editor of education films in Rome, translator in London and lecturer in Tokyo. While in the city he will participate in a series of faculty forum seminars and discussions with faculty, students and the public. For a schedule of appearances, call Frances Dodson Rhome, director of the Institute for the Humanities, Ext. 2447.

CHANGING HORSES... Some people who have made mid-life career changes because of personal or external causes will talk about their experiences Oct. 23 at 6 p.m. in the Adult Development and Aging Class in E/S 2104. All welcome.

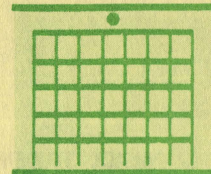

HALLER URGES MORE PREVENTIVE MEDICINE FOR CHILDREN

During a recent fall symposium here on "Care of the Seriously Ill Child" pediatricians were urged to become more aggressive in their practice of preventive medicine. Dr. J. Alex Haller, professor and chief of pediatric surgery at Johns Hopkins University School of Medicine and president-elect of the American Pediatric Surgical Association said, "Seventy-five percent of the pediatric trauma injuries we see are the result of motor accidents. The greatest impact on softening the extent of these injuries has been the safety car seat and the use of car seat belts. We must consider our role in the care of trauma injured children. They need an advocate. The pediatrician should assume that role."-PP
