## IUPUI THEATER PRESENTS THRILLERS

**T**ested classics, revised versions of old thrillers and a new play are among the five productions in the 1983-84 season of the IUPUI Theater.

The season opens Aug. 25 with a dinner theater production of Alexandre Dumas' swashbuckling tale, "The Three Musketeers," in the Union Building cafeteria. In time for Halloween is a revised version of "The Passion of Dracula," based on the 1897 novel by Bram Stoker. Set for November is "The Runner Stumbles", a powerful and comparatively new work (published 1976) by Milan Stitt dealing with priests charged in the murder of a young nun. "Liberty Taken," a brand new play by IUPUI student Ron Dye, centers around a fictional commune in southern Illinois where residents are unwittingly involved in a scam. It opens in February.

To coincide with the anniversary of the death of the playwright, the theater will present Tennessee Williams' "Cat on a Hot Tin Roof" in April.

All performances except the dinner theater will be in the Mary Cable Building at the corner of Blackford and West Michigan streets. Performances will begin at 8 p.m. Season tickets are \$20 plus dinner until Aug. 15; \$22.50 after that date. (For faculty and staff members, \$15 till Aug. 19, \$17.50 after that date.) Senior citizen and student season tickets are \$10 each. Buffet dinner tickets are \$7.50.

For tickets or more information, call the theater at ext. 2094.

Play dates are:

"The Three Musketeers"--Aug. 25-27, Sept. 1-3. (No dinner Aug. 25 or Sept. 1.)  
"The Passion of Dracula"--Oct. 14-15, 21-22  
"The Runner Stumbles"--Nov. 11-12, 18-19  
"Liberty Taken"--Feb. 24-25, March 2-3  
"Cat on a Hot Tin Roof"--April 6-7, 13-14

## DR. CUNNEA DIES

Members of the University family were saddened to learn of the death July 22 of Patricia Edgeworth Cunnea, professor in the School of Public and Environmental Affairs and former associate dean of the school. Services were held Monday, July 25, at St. Thomas More Church in Chicago. She died in Hendricks County Hospital in Danville.

Last spring Mrs. Cunnea received an Outstanding Teacher Award.

Mrs. Cunnea, who received her bachelor's, master's and Ph.D. degrees in political science from the University of Chicago, began her teaching career in 1959 at Mills College in Oakland, Calif. After holding several posts, she came to IUPUI in 1976 from Hood College, where she was dean of academic affairs.

### NEW APPOINTMENTS ANNOUNCED

Dr. August M. Watanabe, professor of medicine and pharmacology, was given the additional appointment as acting chairman of the Department of Medicine of the School of Medicine at a meeting of the Indiana University Board of Trustees Aug. 2. At the same time, Magdalene Fuller, professor of nursing and associate dean of the School of Nursing, received the additional title of acting associate dean of the Baccalaureate Program of the School of Nursing. Both have assumed their new duties.

Business Professor John D. Long was appointed acting dean of the I.U. School of Business beginning Sept. 1. Chairman of the school's insurance department, he succeeds Jack R. Wentworth, who has been acting dean since January. Wentworth requested to be relieved as acting dean because of the press of other duties.

New acting dean of the I.U. School of Social Work at IUPUI is Gerald T. Powers, professor of social work. He replaces Beulah Roberts Compton, acting dean since June, 1982, who will become director of doctoral programs at the University of Alabama at Tuscaloosa on Sept. 1.

New professors appointed include Dr. John E. Pless, professor of Pathology, School of Medicine, with tenure, beginning Aug. 15, and Andre de Korvin, professor of Computer and Information Science with tenure, School of Science, beginning in August.

### INFORMATION SOLICITED FOR CALENDAR OF EVENTS

Compilation of campus events and development of a calendar for IUPUI that is inserted in the Green Sheet once a month is a function of the IUPUI Publications/Information Services Office.

It is vital that information on all events be submitted early and accurately so sufficient notice can be given both inside and outside the campus.

The annual events calendar for IUPUI will not be published this academic year due to a lack of funds. Call the Publications/Information Services Office, ext. 2101, for further details.

### TO MARKET, TO MARKET

There will be wining, dining and dancing at the old City Market from 7 p.m. to 1 a.m. Saturday (Aug. 13) at the all-new "To Market, To Market, A Nightclub Under the Stars," presented by Cathedral Arts. Big band sounds and contemporary music will complement elegant dining to set a tone of nostalgia for the night club goers. Plazas on either side of the old City Market building provide natural amphitheaters.

During the early hours guests will have a choice of dining at one of a dozen or more of the city's finest restaurants. Lighter fare will be served after 10 p.m. Hosts and hostesses will serve wine and lighter refreshments at the tables, while mixed drinks will be provided by the restaurateurs. Admission is restricted to persons 21 and over and party attire is recommended.

A Limited number of advance tickets are only \$4, available at all AFNB locations. Tickets remaining after pre-sale will be \$5. For more information call Cathedral Arts offices at 637-4574.

STATE FAIR SALUTES COLLEGES

Indiana University and Purdue University alumni, students, and faculty and staff members are eligible for certain discounts during Collegiate Day at the Indiana State Fair, Aug. 18. They should visit the I.U. or Purdue Booths at the Fair on that date to receive information on special midway discounts and free shuttlebus rides for the day.

Indiana University Day in the Universities Building, Aug. 23, will feature performances by the Kappa Pickers of Kappa Kappa Gamma Sorority at noon, 2 and 4 p.m.

University Relations at IUPUI is responsible for the I.U. exhibit at the Fair.

NEWS "N" NOTES FROM HERE "N" THERE

Ride Needed--Noblesville to IUPUI 8-5. Call ext. 4501 and ask for Pam or Larry.  
Check Cashing Fees Increased--Union Building check cashing fees now are 35¢ per check with a \$50 limit.

Phone Update--Carol Nathan, assistant dean of the faculties, has new telephone numbers--8974 and 8975. Her address remains Room 109C, AO Bldg.

Office Moves--The Graduate Studies Office has moved to Room 4106 of the Education/Social Work Building, 902 West New York Street. Telephone number remains ext. 2066.

Sale! Sale!--The Cheer Guild is sponsoring two sales in the next two months. A Mum and Flower Bulb Sale will be held from 10 a.m. to 4 p.m. Sept. 22 and 23 in the lobbies of University and Riley Hospitals.

Souvenirs Available--Synchronized Swimming Junior National Championships souvenirs are available to IUPUI employees at special savings. Red officials' shirts, \$4 (\$6 reg.) and commemorative enamel meet pins, \$1.50 (\$3 reg.). Available at the Natatorium offices, deck level, during business hours.

Rummage Needed--Good, clean, usable items (new or used) will be accepted starting Sept. 26 at the Mayflower Van on the lawn east of the Union Building for the Cheer Guild's Rummage Sale to be held from 7 a.m. to 7 p.m. Oct. 7.  
Save your items for this sale!

Hospitals' Picnic Coming--Annual I.U. Hospitals' picnic will be held Aug. 21 at IUPUI's Track and Field Complex. Food tickets are on sale at Riley and University Hospitals information desks for \$1. No tickets will be sold after 4 p.m. Friday, Aug. 12 Those who will volunteer to work on the day of the Picnic should call Rudy Choich, Employees Activity committee chairman, ext. 3549.

On Stage--"Deathtrap," Ira Levin's mystery-thriller, is on at the Brown County Playhouse, with performances scheduled at 8 p.m. Aug. 4-7, 10-14, and 24-27, at Nashville theater. Tickets (\$6 adults, \$3 children 12 and under) available at the I.U. Auditorium box office, (phone (812) 335-1103, or the Playhouse (812) 988-2123.

Notice--The Publications Office, AO 136, is in need of all sizes of campus envelopes. Any contributions are welcome and appreciated.

Networking to Achieve Career Goals--A workshop presented by the School of Nursing Affirmative Action Committee designed to assist faculty members to improve their ability to meet their professional goals. The seminar will help the participants to identify their assets and develop strategies to present themselves to others. The course content also is designed to introduce the participant to the concept and techniques of networking, a proven method for getting ahead professionally. It will be presented from 8:30 a.m. to 12 noon on Aug. 17 in Room 110 of the Nursing Building. Fee is \$4. It is open to all faculty members. For further information call Rose M. Mays, chairperson, Affirmative Action Committee, NU 312A, phone ext. 4664.

Pet Department--Must find a good home for a gentle, female, nine-year old Irish Setter. Moving to a new job and must find her a good home with someone who lives in country or has a large fenced yard. Call 637-7871 or 264-7711

#### HONORS & ACCOLADES

Gerald Bepko, dean of the I.U. School of Law-Indianapolis, and a former FBI agent, is co-chairman of a task force to study the needs of crime victims in Marion County appointed by Prosecutor Stephen Goldsmith. Other faculty members of the law school on the task force are Professor Ken Stroud, and Cleon Foust, retired law school dean and now director of the Indiana Lawyers Commission.

Dr. Nancy C. A. Roeske, professor of psychiatry at the I.U. School of Medicine, received two honors in June. She is the 1983 recipient of the Dr. Virginia Tarlow Award presented annually to an outstanding woman in the United States by the Northwestern University Department of Psychiatry. She also was the keynote speaker at the annual meeting of the Auxiliary of the American Medical Association held in Chicago.

Beverly E. Hill, Ed.D., director of the Medical Educational Resources Program, School of Medicine, has been elected president of the three-year-old Indianapolis Shakespeare Festival. She served on the Festival's board of directors last year. She also has been appointed to the Education Committee of the new Indiana Film Commission, a Department of Commerce project.

Four aspects of the problem of student discipline, and the essential difficulties it presents to teachers, is examined in four parts in the book, "Student Discipline: Legal, Empirical and Educational Perspectives," written by 11 contributors, six of whom are connected to Indiana University. Main authors are J. John Harris III, professor of educational administration in the Department of Educational Leadership and Policy Studies, director of the Center for Urban and Multicultural Education, and associate director of the Office of School Programs at the I.U. School of Education, IUPUI, and Christine Bennett, associate professor of curriculum and instruction at I.U.

# CAMPUS REPORT ON ENERGY USE

## I Suggest...

June energy usage, when adjusted for hotter temperatures, showed a surprising 17 percent decrease from June, 1982. Even though actual electrical energy use was up 8 percent campuswide, the temperature adjustment figure shows that good energy conservation efforts are being applied.

Ralph Bennett, the University's electrical engineer, issued the first report of monthly energy use for June, with a caution: It is not possible to compare the months accurately; and some necessary activities in certain buildings change causing a change in energy use. But he was pleased with the first month's figures.

He computed minutes of sunshine in each month as a constant, along with the actual electrical usage. He said there was about 3,200 more minutes of sun this June than last year.

There were 19 buildings using less electricity than June a year ago, but only seven buildings used more power when the factors were included.

On the honor roll for using less actual power were:

Psychiatric Research, -30%	Nursing Building, -6%
Medical Research, -17%	Law School, -2%
Medical Science, -11%	Lecture Hall, -2%
Krannert & "A" Bldgs., -17%	Purchasing and Stores, -2%
Business/SPEA Bldg., -7%	Engineering and Technology, -1%
Eight other small users were also down.	

When adjustments were made for temperature increases in the comparison months, the following buildings had decreased usages:

Psychiatric Research, -46%	Nursing Building, -28%
Krannert and "A" Bldgs., -36%	Purchasing and Stores, -25%
Medical Research, -36%	Law School, -25%
Medical Science, -31%	Lecture Hall, -25%
Business/SPEA Bldg., -29%	Columbus Campus, -22%
1350 Stadium Drive, -22%	

A few buildings had increased electrical use even after factoring:

Ball Residence, up 19%  
Cottages, up 18%  
Berkey Building, up 18%  
1219 W. Michigan St., up 10%

The summer heat has brought in 78 suggestions for energy saving at IUPUI. The respondents all want to win one of the prizes for the best energy suggestions from faculty, staff and students. And they all show a keen desire to help the university conserve energy.

Remember, there will be \$1,000 awarded for the best and most practical ones.

Here are some of the suggestions made so far:

A professor noted that one of his classrooms was 63-degrees one day and averaged 65-70 degrees during a hot spell. He suggested that a weekly thermostat setting be made to raise the temperature.

One person used a lot of energy in studying energy waste problems, submitting 38 suggestions. Among them: Plan activities for patients and students on the south side of buildings, storage on the north side; lock and isolate unused sections of buildings; put rugs on all floors; convince room occupants to close doors if they have window air conditioning units so that halls are not cooled also.

A professor noticed that some Lecture Hall doors seem to be ajar, letting cooled air escape because of higher pressure in the building. He suggested putting better or stronger closers on doors as well as lowering air pressure in the building.

"Put an exhaust fan over the Rotary south entrance to pull air from the first floor," said Chris Elliott.

Indiana University-Purdue University at Indianapolis

# IUPUI

## Conservation CONVERSATION

August, 1983

### We're Very Wise...

People at IUPUI have a good history of being energy conscious--and doing something about it.

In 1979, the campus conducted a Watt Watcher campaign and significant savings were realized. In addition, a campus-wide suggestion program resulted in more than 85 persons giving about 120 suggestions for energy-savings.

Many of these were implemented

and thousands of dollars in annual savings was realized--some still effective today.

One of the best ways to make such a campaign successful is for people to become involved personally. There is a great deal of pride in the campus by our people and while energy savings is not something you can hold in your hand, it is part of our quality of life.

### It Works...

The competition program for energy conservation is really working, says Karita M. Hummer of the Department of Social Services in the Hospitals.

"I think conservation at work a lot more, for example, feeling warm, I take off my lab coat instead of raising air conditioning.

"I'm taking this seriously."

## Your Building Contact...

Every building at IUPUI has an Energy Coordinator who has been assigned to monitor and promote energy conservation.

You should discuss the program with the coordinator in your building and point out anything you think would help your building conserve.

The coordinators are:

AO..Willard Hanshew  
AD (38th St.)..Robert Crozier  
BR..Maggie Dorsett  
HD (Berkey)..Sharon Taylor  
BO..John Mulvey  
BS..Georgia B. Miller  
CA..Don Schultheis  
CF..Lori Tobin  
Columbus..Ronald E. Hunt  
CG..Robert Welty  
BX..Donald Wakefield  
DS..Michael Curtis  
ES..David Smith  
EM..Robert Welty  
ET..David Bostwick  
FE..Robert Welty  
Garages..Robert Tirmenstein  
Grad Townhouses..Maggie Dorsett  
Herron..Linda Hunt  
KB (38th St.)..Frank Nordby  
LS..Jo McIntyre  
LE..Don Schultheis  
LO..Robert Welty  
MS..Fred Ficklin  
NU..Dorothy Medcalf  
OR..George Stookey  
PE..Nick Kellum/Dale Neuburger/  
J. Lentz

1350 Stadium..B. Humphrey  
1410 Stadium..Lew Johnson

## This Report...

This newsletter is a report to the campus about Energy Conservation at IUPUI. It will be issued periodically during the year to remind, advise, and report on our conservation efforts.

If you have contributions, send to the Energy Coordinator, AO Building. Your energy conservation suggestions are sent to that office also.

# 12 WAYS TO SAVE MOST...

1. Turn out all lights when rooms are not in use. Most housekeeping staff now work during the day and buildings are in a holding pattern during the evenings. This means that faculty and staff and students will normally be the last ones out of a building and lights left on may burn all night.
2. Anything that can be turned off between 10 a.m. and 5 p.m. Monday through Friday saves IUPUI the most in electrical cost.
3. Encourage students to use libraries, not vacant classrooms for study.
4. Dress for building room temperatures of 78-degrees in summer. If the thermostat is set at 78 and it seems hotter than that, call Physical Plant, phone 264-7609.
5. Use daylight in offices and classrooms as much as possible. Many people agree that the entire United States is overlighted.
6. Keep all drapes pulled on the east side of buildings in the mornings and on the west side in the afternoons.
7. Keep all windows closed in buildings with central air conditioning. If the temperature in rooms is too high, call Physical Plant rather than lower thermostats yourself.
8. Report any doors or windows that don't operate properly, and keep all outside doors closed as much as possible. This applies especially to loading dock doors which should be open only when being used.
9. Operate exhaust fans only when necessary. Do not keep them running during the working day. This is especially critical in laboratories.
10. Turn off all faucets, especially hot water. If they continue to drip, call Physical Plant.
11. When you see areas where significant amounts of energy are not being used efficiently, or areas where there is waste, report your ideas and observations in writing to the Energy Coordinator, AO Building.
12. Think energy efficiency in all that you do at work and at home. IUPUI is doing all it can without expenditure of great amounts of money. Your habits at home extend to your work, and your saving habits at work will carry over to your home. Every bit helps.

## What's Been Done...

Several steps have been made by IUPUI to do some general energy saving.

A walk-through of every building has been completed with a member of the Physical Plant and the building coordinator to spot energy losses and agree on some solutions.

Reminders have been put up on almost all of the light switches on campus to remind people to turn off lights when leaving a room.

A poster has been created and will be posted to remind workers and students to do all they can to conserve energy and to enter the suggestion contest.

## IUPUI Energy Costs...

Energy is a hefty cost for IUPUI. So any savings percentage amounts to a lot of dollars.

The total estimated energy bill for 1983-84 will be about \$9.5-million. Of this amount, almost \$4-million is for steam and more than \$5-million for electricity.

According to Ralph Bennett, IUPUI's electrical engineer, a five percent savings in total energy this year will amount to a savings of \$475,000. So saving energy is just good business.
