MARK YOUR CALENDARS NOW FOR ANNUAL IUPUI ZOO NIGHT

Mark your calendars for the third annual IUPUI Night at the Zoo, June 20, 6-10 p.m. Faculty, staff, students and their immediate families may purchase tickets for \$3 each for the fun-filled evening. Zoo memberships cannot be used that night. An activities schedule, and ticket sales and dates will be announced soon.

DRIVE FOR BURNED KIDS A DIFFERENT KIND OF RACE

Joining the thousands of you on campus who have been putting your aluminum drink cans in containers is the Indy Car Drivers Recycling Program at the 500-Mile Race track. Containers, like the ones we use on campus, are set about the track to be collected by Alcoa Recycling and to be turned into money for Riley Hospital's burn unit. Your good stewardship has helped provide

treatment for more than 170 kids from all over Indiana who suffered burns in the past 3 1/2 years. The burn unit not only offers the latest in treatment, but offers a playroom that overlooks the beautiful atrium in Riley, an important visual link for children who must be isolated to prevent infection. While you're at the track and all year on campus, keep tossing your cans in the marked containers.

PLAY IT AGAIN, SOMEBODY The IUPUI Staff Choir needs a volunteer piano accompanist for rehearsals and performances. The choir performs a variety of vocal music including gospel, show tunes and contemporary pieces. For more information on rehearsals, engagements and repertoire, call Sylvia Hooks, 4-2323.

GREEN SHEET, CAMPUS CALENDAR SET SUMMER SCHEDULE

Your Green Sheet goes on summer schedule June 2. It will be published twice a month and still has a deadline of 5 p.m. Tuesday before publication date. As you can see below, there may be as many as three weeks between publications, so please give yourself plenty of lead time in submitting articles to Room 136 in the Administration Building. Phone items cannot be taken and Media Relations also asks that any address changes for the Green Sheet mailing list be submitted in writing with a complete campus address. Also, the Campus Calendar, published by Noel Duerden in Internal Communications will be inserted in the Green Sheet once a month, the first issue of the month. Items for the calendar must be submitted separately to the calendar office, Union Building, room 115.

GREEN SHEET SUMMER SCHEDULE:

June 2 with Campus Calendar
June 16
July 7 with Campus Calendar
July 21
Aug. 4 with Campus Calendar
Aug. 18
Sept. 1--resume weekly publications

SUMMERTIME "DUMP YOUR PLUMP" STARTS

It worked and it will work again. In just 10 weeks, more than 228 people on campus lost 1,285.3 pounds--somewhere. They were on teams in "Dump Your Plump" by Max*Well which ended recently with the Bulging Beauties from quality management winning first prize with the most weight lost, 96.3 pounds. Kluver Bucy's in neurosurgery lost 47.3 pounds for second. The Chancellor's Chubbies in the AO Building lost a little but won no prizes with 32nd place and were bested by the Assorted Ample Administrators whose team captain Evelyn Payne said, "the contest was good practice for new attitudes." Eddie and the Cupcakes did well at fifth place and the Dyna-Butts fared in the middle of competition. At final report the Chunk-a-Zoids had not been heard from and neither had the Blubber Busters.

Old teams and newcomers have a second chance in the summer "Dump Your Plump" program June 21-Aug. 2. Deadline to register your team of 5-10 members is June 7. You'll exercise, learn fit eating and lose weight. There are cash prizes for first and second, for the most creative team name and for everyone who makes their goal of 0-12 pounds in weight loss. Repeaters and team captains pay \$5; newcomers pay \$12 each. Call Vicki Anderson, 4-0610.

NEWS 'N' NOTES FROM HERE 'N' THERE

Holiday Closings--On Memorial Day (observation) May 27 there will be no classes and schools and "non-essential" offices and units will be closed around campus. University libraries will close the entire weekend, May 25-27. Police and medical personnel and others will be at their posts and will take the official campus holiday at another time.

Visiting Prof Needs a Home--An education professor from Massey University in New Zealand will be visiting campus June 3-22 and needs living accommodations. He can house sit or share your home, or can rent, but his budget is limited. For more, call Louis Holtzclaw, Extended Studies, 4-5906.

Metros Need Volunteers--The Gus Macker 3-on-3 charity basketball tournament is coming up June 12-16 and the IUPUI Athletic Dept. needs volunteers to help tape off courts and set up and take down baskets during the tourney. Every volunteer gets a free t-shirt and a good workout. Commandeer a friend and call 4-0622 to sign up.

Needs Ends June 1--People more than 65 years old who would like to participate in a project to study strength training on muscle function should call Dr. Robert Topp, 4-4385, before June 1. All blood work and exams are free.

Call for Art--Residents in Marion and contiguous counties can enter their art work in competition for the 1991 juried exhibition of the Arts Council of Indianapolis. Eight cash prizes will total \$7,550. For more, call 631-3301.

Youngsters Here--The IHSAA Boys and Girls Track Championships are here May 31-June 1. Call Bob Gardner, 846-6601, for more.

New--Next in the 1991 Indiana Business Seminars is a new offering, "Executive Presentation Skills: Managing Writing for the Communication Age," May 28-29. For details, call Larry Lad 4-7128.

HERRON WELCOMES 12 AFRICANS IN THE ARTS

Herron School of Art was set to play host last week to 12 African artists, art educators and writers on the arts, who were scheduled to visit the city, the Broad Ripple art fair, the IMA. The "Arts and American Society" group also was to participate in seminars with Herron Dean William Voos and others. Their visit coincided with the opening May 17 of the African-American exhibit at Herron by artists Carol White and "Bing" Davis. Cities on the group's U.S. tour included Washington, D.C., Phoenix, San Francisco, Minneapolis, Columbus (Ohio) and New York City.

HONORS AND ACCOLADES (AT LAST)

As things wind down a bit from a hectic academic year, there is finally a little space here to acknowledge the contributions and awards made by some of the people we hear about on campus. Some off-campus awards include:

The Tony and Mary Hulman Health Achievement Award for contributions to preventive medicine and public health went to Karen Bruner Stroup, research associate and coordinator of the Automotive Safety for Children Program and the education coordinator for Kiwanis Trauma Life Center Injury Prevention and Control Program, both at Riley Hospital.

The Indiana Humanities Council awarded \$2,500 project support grants to each of four 1991 Public Humanities Fellowships recipients who include, from this campus, Professor Dorothy B. Webb, director of youth theater, IUPUI University Theatre, and to Sharon J. Hamilton-Wieler, assistant professor of English.

IUPUI itself gleaned an honorable mention in the annual National Collegiate Alcohol Awareness Week contest for our alcohol abuse prevention program coordinated by the IUPUI Wellness Education Committee.

The Div. of Continuing Studies won a bronze award in the 1991 National University Continuing Education Association Marketing and Promotion Div. The award recognized a radio ad on WKLR that was produced to let people know that the division's new catalog would be an insert in the Indianapolis Sunday Star.

For their efforts to increase contract opportunities with minority businesses, Ann Miller and Robert Halter, IUPUI Purchasing Services buyers, received awards from the Indiana Regional Minority Supplier Development Council.

The Association for the Education of Teachers in Science awarded Charles R. Barman, School of Education, a first-place award of \$500 and a plaque for his paper entitled "An Expanded View of the Learning Cycle: New Ideas About an Effective Teaching Strategy."

For her extensive philanthropic and organizational leadership, Associate Dean of the Faculties Carol D. Nathan was named the 1991 Outstanding Professional Woman of the Year by the Altrusa Club.

And, finally, from off campus, the Indiana Medical History Museum is one of seven Hoosier museums to receive a grant in the amount of 10 percent of its operating budget from the Institute of Museum Services, the only federal source of general operating support for U.S. museums. The museum is on the grounds of the Central State Hospital and is a good lunch hour tour. Call 635-7329.

INTERNATIONAL HOUSE HAS APPLICATIONS

The new IUPUI International House on the second floor in the Warthin Apartments is still taking residency applications from foreign and domestic students for 1991-92. The campus' newest housing option, the International House also is a learning center which offers newly renovated apartments and a shared commons area to students and researchers. Students of many nations will live together and will develop programs for the entire campus and the community. For more, call International Affairs, 4-5024, or Campus Housing, 4-5157.

OPEN SEMINARS SET In medical and molecular genetics, Roger Yu, Upjohn Company, presents "Mosaic Cytogenetic Population Dynamics and Cytogenetic Toxicology" May 21, 4 p.m., IB 233. In physiology and biophysics, Lee Phebus, senior scientist, Lilly Research Laboratories, presents "Why Are Some Brain Neurons So Sensitive to Ischemic Insult," May 22, 4 p.m., MS 205. And, in microbiology and immunology, Keith R. Yamamoto, U. of California, San Francisco, presents "Enhancement and Repression of Transcription by the Glucocorticoid Receptor" May 22, 4 p.m., MS 326. All welcome.

MORE (BUT NOT ALL) HONORS AND ACCOLADES

In the time-honored tradition of honoring our own, the Dept. of Biochemistry and Molecular Biology awarded the Bowman Prize, the annual postdoctoral fellow for excellence in basic research, to Torsten Ehrig, first place, and to Elizabeth Ecklund, second place.

In recent ceremonies, the School of Engineering and Technology awarded Richard Beck, associate professor of civil engineering technology, its Frank E. Burley Distinguished Professorship Award for exceptional dedication. Cliff Goodwin, assistant professor of supervision, and Nancy Lamm, lecturer in electrical engineering and coordinator of freshman engineering, won the school's Wisner-Stoelk Outstanding Faculty Awards. For her dedication to faculty, staff and students, Lucy Payton, administrative assistant to the dean, received the school's first Outstanding Service Award.

FINALLY...

...IU Chancellor Herman B Wells will receive the 1991 B'nai B'rith Great American Traditions Award at a dinner in his honor May 29 in Indy. For tickets, call 844-3993.

...take a minute and take a look at the drawing exhibition in the Union Building, ground level entrance showcase. It includes the works of students in the Continuing Studies basic art class taught by Diane Steele.

...Nancy Strosnider would like to ride to campus from Bloomington and back again, weekdays. Call 4-1907 before 5 p.m.; 812/824-9815 after 6:30 p.m.
