UNITED WAY CAMPAIGN KICKS OFF ALOFT WITH BALLOON RIDES

The chance to win free balloon rides is offered to everyone as this year's United Way campaign opens on campus with an outdoor celebration Sept. 12 at 9 a.m. on the Library Courtyard. Chancellor Jerry Bepko will soar aloft in the first "tethered" flight over campus, then two more rides will be given to two people selected from among faculty, staff and students who attend the kick-off and stay for the drawing. Sign-up for the drawing is as you arrive at the United Way area. Later, a "free flight" balloon ride for two will be awarded from among those who enter the drawing using the coupon below or one like it in the Sept. 4 issue of the Sagamore student newspaper. At next week's kickoff, Chancellor Bepko will challenge us to pledge \$250,000 to assist our neighbors in need for the coming year. The amount is only \$20,000 more than was given last year.

More than 125 people on campus are already giving to the campaign as volunteer solicitors who will take training and then talk to you about giving. This year's campaign is jointly chaired by Karen Black, student information services; Kathleen Warfel, School of Medicine; John Short, University Place Conference Center, and Tom DeCoster, School of Public and Environmental Affairs.

NEW REGISTRAR ARRIVES IN TIME FOR RECORD ENROLLMENT

Mark Grove, newly appointed IUPUI registrar, considers himself a hybrid—"well-suited to IUPUI—a hybrid university and with a hybrid student body." No stranger to registration challenges, the 36-year-old Notre Dame graduate was registrar at Central Connecticut State University and also at IU South Bend. Only arriving in Indianapolis Aug. 13, but familiar with the IU registration computer system, Grove weathered with a smile the record-breaking fall enrollment of approximately 27,500 students, a 3.8 percent increase over 1989. "Life gets just a little murky as we count student populations this close to drop-add, but we know we have a

record enrollment and that many students enrolling for the last time through the Access Center have been deferred until next term. (The functions of the Access Center are now included in the operations of the Undergraduate Education Center in the Union Building.) Regarding the future of registration at IUPUI, Grove looks forward to helping implement IU CARE, the Course Analysis/Record Evaluation computer program that matches transcripts with school catalogs for a more accurate and more easily designed registration. "Other Big Ten schools are using CARE successfully and I expect it to make things at IUPUI easier for students, faculty, counselors—and me," he said.
