CAMPUS CLOSINGS WILL AFFECT MONEY, MAIL, M DAYS

Holidays and energy conservation will close a dozen buildings on campus and will affect the activity in the natatorium, libraries, the credit union, bursar's office and the distribution of payrolls. Administrators have a complete list of the buildings that will close and in which thermostats will be set at 55 degrees. They include Administration, Bus/SPEA, Mary Cable, Community Services, Women's Center, Counseling Center, E/SW, E/T, Herron, Lecture Hall, Oral Health and Nursing. Mail will not be delivered, but those with access keys can pick up materials. The closings are from 5 p.m. on Dec. 24 through Jan. 1. Other buildings will have limited closings and reduced temperatures in specific areas. Hospitals and other buildings will remain open. Employees will use the time off during the closings as bonus (M) days, and/or accrued vacation days. Employees with questions about compensation during the closing can call Personnel, Ext. 8931.

The Offices of Financial Aid, Admissions and Registrar will be open Dec. 26, 27, 30, and 31 from 8 a.m.-5 p.m. There will be no teller service, but the Bursar's Office will be open the same dates from 8:30-4:30 p.m.

The Credit Union will close Christmas Eve and Day and New Year's Eve and Day, but will be open during the rest of the holidays from 8 a.m.-4 p.m., Monday-Thursday and from 8 a.m.-5 p.m. on Fridays.

The natatorium will be open for lap swimmers, weight lifter and runners on Christmas Eve from 6 a.m.-8 p.m.; closed Christmas. It will open 6 a.m.-2 p.m. New Year's Eve; closed New Year's Day. Regular hours are set for the rest of holiday season.

The Payroll Office will be closed Dec. 23-25. For non-monthly people, authorized early checks can be picked up Dec. 26, and the office will be open for check distribution from 8 a.m.-noon on Dec. 27. Arrangements for early check pickup must be made for employees by authorized persons. If prearrangements are not made, checks will be distributed Jan. 2. Monthly people will get paid Jan. 2, as usual. Call Brenda Hunter, Ext. 4009.

All libraries--University, Herron, Science and Engineering, Dentistry and Medical--will be affected with closings or changed hours. All will be closed Christmas Eve and Day, most will be closed New Year's Eve and Day, and most will have shortened hours. For details, check the library you use.

DAWG MAW For about a year now, the "campus dog" has been making a home for herself and lots of pups under the personnel building. She's been well-fed by workers constructing the new part of Riley. But, her "home" will be torn down soon, and the mostly black German Shepherd needs a couple of remaining pups adopted and a home for herself. She is okay according to a vet and is living, temporarily, in the Home for Friendless Animals. She needs lots of patient love to overcome her understandable insecurities.... Call Dr. Victoria Champion at home, 272-0647, or at Ext. 4187.

NEWS 'N' NOTES FROM HERE 'N' THERE

This Week Some Time Ago--Mudd Day (Dec. 20, 1883) to remember Sam Mudd, the doctor who got a life sentence for treating the disguised John Wilkes Booth; Under Dog Day (Dec. 20, all the time) to remember the little folks who made the big folks big--Dr. Watson, Friday, secretaries, wives, etc. (Editor's Note: Thanks to all the readers who called to say that John Lennon did not die last year, as we said, but five years ago. Time just flies when you're doing the Green Sheet.)

English Placement--People who want to take "English as a Second Language" courses can take placement tests Jan. 3 and Jan. 10 at 10 a.m., ES 2129. For more, call Ext. 2258.

Herron's New Gallery Open--The first show in Herron's new student gallery runs until Dec. 31. Take your lunch and see paintings and sculpture done by Janet Royce, Tony Coleman and Jennifer Dooley.

Biochemistry--Abraham Scaria, Ph.D. student, Dept. of Biochemistry, I.U., presents "Pre-Irradiation of Host Cell Mitigates the Effect of UV on SV40 Replication" on Dec. 16, 4 p.m., MS 321. Coffee/tea at 3:30 p.m.

All About Us--The final orientation of the year for new employees is Dec. 16, 2-4:30 p.m., Fesler Hall, Hurty C.

Biophysics--Richard Haak presents "Membrane Fluidity and Lipid Composition of Chlamydia Trachomatis" on Dec. 20, noon-1 p.m., MS 205.

Kick Into the Kettle--Our bell ringers for the Salvation Army are still at it on the Circle in front of AFNB. If you can't get downtown Wed.-Fri. in the afternoons, send or bring your donation to Bob Martin, AO 112.

Med Genetics--Paul W. Mamula, graduate student, presents "Molecular and Cytogenetic Investigation of the Human Salivary Protein Complex (SPC) on Dec. 17, 4 p.m., Riley Research, Room 138.

Hello Mudder--The gorgeous 26-foot poinsettia tree that has for eight years been put up in the Hyatt Regency atrium is dedicated this year to our Camp Riley for Youth With Physical Disabilities. Mayor Hudnut was there and so was Bob Baxter, special assistant to the vice president on our campus and a director of the Riley Memorial Association which oversees the camp.

Budding Builders--Blueprints of some unique buildings and houses are among the display items in the case across from the pool entrance in the Union Building. The display done by students in Construction Technology in Engineering and Technology runs 'til the end of the month.

For Ann--Everyone is welcome to the retirement party of Ann (Lane) Okey on Jan. 3 from 2-4 p.m. in the Medical Diagnostic Associates Office, Ball Annex 100, from which she is retiring after 22 years service on campus.

Lap It Up--There is a New Year's Day Hangover 10K run on Jan. 1, naturally, 10 a.m. Sign up on arriving; cost is \$1. Call Mark, Ext. 3517.

Bowling Buffs--Organizers of an IUPUI bowling league are still waiting to hear from anyone interested in leagues beginning in January. Call Charlotte Kerkhoff, Ext. 4989.

Graphically Illustrated--Medical Illustrations invites all full-time School of Medicine faculty to use computer graphic slides now available for lectures and professional meetings. No charge. Call Ext. 4423.

Holiday Cheer--Among the great things the Cheer Guild does is throw Christmas parties for a lot of people. Volunteers had theirs Dec. 11; University Hospital's is Dec. 17 and the Riley Hospital Ruth Lyons party is Dec. 19.

TRUSTEES OK HOUSING INCREASES, KOKOMO CENTER

In a meeting here last week the IU trustees gave the nod for rate increases that will hike some room and board rates here and at IUB. They also gave the nod for a \$3.5 million university center at the Kokomo campus. Higher operating costs and plans for improved services account for a 3.95 % average annual fee increase here that will affect 496 student units on or near campus. Rates will increase at Ball Residence, Warthin Apartments, and for 194 units in the 20-acre Park Lafayette adult student housing complex at Tibbs Avenue and 21st Street. David Paul, director of housing, recommended there be no increases at the Graduate Student Townhouses on campus or the Shoreland Towers apartments on North Meridian Street. Approximately 14,017 IUB single and married students living in IUB units will have a rate increase of about 4.9%. The trustees okayed plans for a new two-story, 24,000-square-foot center at Kokomo that will house a cafeteria, meeting rooms, student game room, study lounges, offices, child care center, a bookstore and other areas.

BFS SETS YULE PARTY Lots of fun is being planned for the annual Black Faculty and Staff Council's Christmas party on Dec. 20 at 8 p.m. at Marie Wright's, 328 N. East St. Spouses and guests welcome. Cost is \$5 and reservations are due by Dec. 17. Call Alonza Perry, Ext. 3978, or Marie Wright, Ext. 8278.

POSITION AVAILABLE

RESEARCH ASSOCIATE, Intercultural Studies Program. Anticipate filling one position beginning soon as possible, pending final authorization. Seek candidate with a master's degree or equivalent teaching and experience in intercultural instruction. Women and minorities encouraged to apply. Send resume, evidence of intercultural instruction, and three references to: Dr. Richard Hope, chairman, Search Committee, Intercultural Studies Program, CA 510. Call Ext. 7756.

(IUPUI is a AA/EO employer)

MAYO MAN TO HEAD ORTHOPEDIC SURGERY

Dr. Robert H. Fitzgerald Jr., nationally known physician-researcher at the Mayo Medical School and Mayo Clinic, has been named chairman and professor of the Dept. of Orthopedic Surgery at the School of Medicine. The IU trustees approved the appointment that begins May 1. An extensive writer for professional journals, Dr. Fitzgerald last year was named the Svenson Scholar at Mayo. The 43-year-old surgeon serves on three national committees of the American Academy of Orthopedic Surgeons and he is chairman of the program committee for the Hip Society from which he received the Frank Stinchfield Award for Research. He replaces Dr. Donald B. Kettelkamp who left last spring for a position as associate dean at the Texas Tech University Health Center.

Editor's Reminder: Deadline for the last issue of the Green Sheet for the year is Tuesday, Dec. 17 at 5 p.m. There will not be another issue until Jan. 12, 1986--the deadline for which is Jan. 7 at 5 p.m. Any items you want printed whose dates are between now and Jan. 18 should be sent or brought to the News Bureau, AO 139.

ELDERLY WILL BENEFIT FROM \$3.5 MILLION GRANT

A team of Medical Center researchers have received a \$3.5 million program project grant to study osteoporosis, a condition seen mostly in the elderly that causes pain, deformity and loss of stature because of brittle bones that are susceptible to fractures. The National Institute on Aging, one of the National Institutes of Health (NIH), made the award which is one of the largest of its kind in the nation. The research group will be coordinated by Dr. C. Conrad Johnston Jr., professor of medicine, who begins the project as a continuation of a study already in its fifth year. It deals with women ages 40-55 years old who are approaching or in menopause. Other projects in the study will include the role of genetics in bone loss in which female twins ages 40-60 will be studied, and the study of the relationship of bone mass to obesity and the adult onset of Type II diabetes. Many volunteers will be needed for study. Needed are Caucasian women ages 40-55, female twins ages 40-70, as well as Type II diabetics. For information, call Ext. 4035.-TW

UFC HEARS ORGANIZATION REPORT, TAX REDUCTION PLAN

During a well attended University Faculty Council meeting on our campus last week, members heard a preliminary report from the task force on IU Organization. Reading from a single-spaced, seven-page report, Prof. Robert B. Bareikis began lightheartedly by saying, "...there is no truth whatsoever to the rumor that we are recommending the elimination of any campuses in order to replace them with the IU Martinsville complex, (to be) administered by the IUB vice president and connected to the rest of the system with a bullet train now under design by a Japanese-French consortium," thus dispelling any rumors to the contrary. The lengthy report will be made available for reading and comment before it is given to the president. Contact faculty council members for information. Also, a preliminary report from university treasurer John Mulholland informed members that a plan is under way to adopt a pre-tax payroll deduction of insurance premiums and other IRS-allowed deductions for the purpose of lowering gross income and reducing taxes.

PROF. JEGEN'S TAX TIPS: HOW TO PAY IF YOU'VE FAILED TO PAY

If for some reason, you have accrued the maximum penalties (which are non-deductible) for failing to pay your prior year's taxes, then it would probably be wise for you to pay your current estimated taxes--before you pay your prior taxes so that you can avoid new (non-deductible) penalties caused by failure to pay such current estimated taxes on time. In general, in order to avoid penalties for failure to pay estimated income taxes, you must pay estimated taxes (on the 15th day of April, June, September and January) in the amount of 25% of the lesser of: 100% of the tax stated in your prior year's income tax return (for example, your 1984 income tax return); and, 80% of the tax stated on your current income tax return (for example, your 1985 income tax return).

(Lawrence A. Jegen, III, is the Thomas F. Sheehan Professor of Tax Law and Policy.)
