SEASON'S GREETINGS

The Inci-DENTS staff sends warm holiday greetings to one and all in the School of Dentistry ... and a seasonal pat on the back to the departmental reporters who so kindly pass along the information for this publication.

On our own Christmas list, we're asking for a steady flow of news from every department for future monthly issues. We need items like these: new employees, visitors to the departments, research programs started or completed, approval of research grants, new equipment, news of graduate students, faculty publications, and faculty travel and participation in meetings.
