## Eye Bank Month

March is National Eye Bank Month, when members of Hoosier Lions Clubs call attention to the gift of sight that has been provided to untold numbers of afflicted persons throughout the nation through the network of eye banks. They also solicit signatures on cards of prospective donors. Individual Lions Clubs will be manning booths in the principal shopping centers in Marion County during the month for this purpose.

The Indiana Lions Eye Bank, Inc., was established in 1958 as a year-round project for Lions Club members who provide funds and manpower and coordinate the work of hospital personnel and the 79 collection centers through the state with the doctor who prepares the eyes, the family of the deceased and the transporting agent. Through research and teaching, new ways have been developed to help save and regain sight. Headquarters of the Eye Bank is in the Department of Ophthalmology of the I.U. School of Medicine.

## Collegial Presentations

Collegial Conversations (see Page 2) now has a sister series, Collegial Presentations, also sponsored by the Center for American Studies. Purpose of both is to stimulate a sense of intellectual community and to provide occasions for considering matters of broad cultural moment. Collegial Presentations will permit faculty members to present, in a more formal manner, the results of their research and give them an opportunity to benefit from the responses of their peers. Two presentations are scheduled for this spring. They are:

March 12, Professor Edmund Byrne, chairman of philosophy, "Can Government Regulate Technology?" A 'working copy' of the paper is available from Professor Byrne (or from Christian Kloesel, Peirce Edition Project, LY 006).

April 23, Professor Paul Nagy, associate dean of the faculties, "Contemporary Poland."

Both programs are at 8 p.m. in the Faculty Lounge, Cavanaugh Hall 507.

Congratulations to the IUPUI men's basketball team which finished the season with its best record ever, 14-12. The final game was a 79-62 victory over Marian College which defeated Butler University earlier in the season. Among Butler's opponents late in the season was #3 ranked DePaul.
