[cheering fans]

[Jon Avery] We got to play against them and they beat Syracuse the other night. We knew that meant nothing. We were trying to defend our name across our chest, let everybody know who IUPUI was. We just wanted to play to the best of our ability. We came out here and we had a first half that was ok. We came out in the second half and we played hard and that's what made a difference.

It was fun out there. George came out and played hard the second half. I came out and played hard the second half. But the team worked hard. Drew Conner made a lot of big moves, a lot of big plays, and Billy Pettiford, Austin, GP, everybody just played hard and that was a big win for us.

It means something big for IUPUI. Butler's not the only team in the city. It means a big win for us, but we know it's nothing because we still have to continue and win every night.
