

IUPUI, IVTC AGREE TO COORDINATE SERVICES

A pioneering "memorandum of agreement" to set in motion increased cooperation between the city's two largest postsecondary educational institutions was signed Feb. 21 by IUPUI Chancellor Gerald L. Bepko and Central Indiana IVTC Chancellor Meredith L. Carter. The agreement provides for coordination of student counseling about admissions, course and degree options, registration for each school's courses at either campus, convenience of course location and increased cooperation in offering study through the latest technology.

"IUPUI and IVTC have a long record of cooperation and information exchange through the Consortium on Urban Education and this agreement will enhance that longstanding arrangement," Bepko said. "As the two major public postsecondary institutions in the greater Indianapolis area, we both can promote the full potential of individuals and the community by developing ways for students to succeed regardless of what door they may enter to seek advanced education. We are distinct institutions, but we both are committed to advancing higher education for the citizens of this area."

A committee with representatives of both institutions will work to get correct information to students, counselors, advisers and others. Over the next few months, institutional representatives also will explore ways to expand this cooperative agreement, including review of common courses and programs and acceptable transfer of credits. A full evaluation is expected by Sept. 1, including recommendations for retroactive credit transfers.

CAMPUS ASSISTS EFFORTS TO REDUCE INFANT MORTALITY

With support from faculty in the IU School of Nursing, the MOM (Maternity Outreach Mobile) Project of Marion County on March 5 will begin bringing the MOM-mobile with ultrasound equipment and trained staff to all Indianapolis prenatal clinics in the project's efforts to reduce high rates of infant mortality here. The project idea originated with Charlene Lugar from a similar outreach program she discovered in Washington, D.C.

"Pregnant women will not seek care from a van parked on a street corner, but a mobile van can help bring care to pregnant women by augmenting existing services," says Joanne Martin, assistant professor of nursing. "The key is to integrate the project with agencies that have a constant presence in the community."

The IU School of Medicine will present a live, interactive teleconference, "Infant Mortality: The Medical Perspective," noon-1:30 p.m. March 8 on the statewide Medical Television Network. Designed especially for medical and health professionals, the MTN conference will air, free and open to the public, in University Place Conference Center, room 118. IU's Dr. Loren P. Petersen, maternal/child health consultant to the state board of health, will lead a panel of experts discussing ways to respond to this problem.

EXPERIENCE EXCELLENCE NOMINEES DUE MARCH 2

Nominees for the 1990 Glenn W. Irwin Jr., M.D., Experience Excellence Recognition Awards that honor our fellow full-time faculty and staff members for service "above and beyond the call of duty" are due March 2 in the Associate Dean of Faculties office, AO 126. Six staff members and six faculty will be honored for their university service at the Chancellor's Convocation April 20. Any IUPUI employee may nominate someone for this award, honoring former IU vice president and School of Medicine Dean Emeritus Dr. Glenn Irwin Jr. Call 4-8974 for more information.

NEWSWEEK'S INNOVATIVE EDUCATOR TO "TALK TECH"

Uri Treisman, named 1989 "innovative educator" by Newsweek magazine, is among scheduled speakers at the 1990 Edward C. Moore Faculty Development Symposium March 16. The Berkeley professor will discuss "There's More to Teaching Than Technology" with NeXT Computers Vice President Dan Lewin and Apple Computers Consulting Engineer John Patrick Russell and respond to faculty questions. This year's symposium will focus on specific applications of technology in teaching and will showcase the new electronic classroom in LE 101. For more information, call 4-8880.

NEWS 'N' NOTES FROM HERE 'N' THERE

Time Change--The pharmacology/toxicology seminar, "Post-Mortem Detection of Succinylcholine in a Suspected Case of Homicide," Feb. 26 will begin at 11 a.m. (instead of noon) in MS A506-518. Call 4-1573 for details.

Child Abuse Topic--The first of four, noon-1 p.m. brown bag lunch discussions sponsored by IU Hospitals Social Work Department in honor of March as national social work month will focus on "Child Abuse: Our Responsibilities as Individuals and Health Care Providers" March 6 in RI 3088. Call 4-3746 for more information.

Employee Information Sessions Continue--Human Resources Administration will offer non-hospital new employee orientation 2-4 p.m. March 12 and 26, and full-time employee health plan information sessions 2-3 p.m. March 5 and 19, all in Union Building Roof Lounge. Call 4-4596 for details.

Food Services Change Name--Frank Dolk of campus food services reports the office has changed its name to Food Service Contract Administration, located in UN M-101, phone 4-8138.

Unified Germany Conference Coming--Unified Germany consequences for Europe, the Soviet Union and elsewhere will be discussed March 3 at 10 a.m. in LE 103. The conference for high school and college teachers will feature IU Russian and East European Institute Director Henry Cooper, West European Studies Center Director Norman Furniss, Hungarian Chair Mihaly Szegedy-Maszak, RIAS-TV Washington, D.C. Bureau Chief Rudy Lentz, American Institute for Contemporary German Studies' Joyce Mushaben and Charles University in Prague official Jan Havranek. Call 5-0391 for details.

More Souper Snacks--Restaurant and Hotel Society students offer Souper Snacks 11:30 a.m.-12:30 p.m. Feb. 27 in ET 1201. Enjoy a \$1 cup-of-soup.

ET GETS \$70,000 ENDOWMENT FROM CAP

Students and faculty in the Department of Construction Technology will benefit for years to come with a \$70,000 endowment from the Construction Advancement Program (CAP) of Indianapolis, says Purdue School of Engineering and Technology Dean R. Bruce Renda. Expected to generate \$5,000-\$10,000 annually, the endowment will fund student scholarships, faculty development and updating of laboratory equipment. Awarded since 1980, ET funding from CAP has amounted to \$100,000, representing CAP efforts to improve the construction industry by supporting education.

MORE NEWS 'N' NOTES

Admissions Director Retires--For the past 25 years, John C. Krivacs has been director of admissions, first at the city's Purdue Extension. Feb. 28 he plans to end his long-time role for retirement. He recently was honored for years of service by Admissions staff, Student Affairs directors and University Academic Procedures Committee members. He will be missed.

Business Conference Set--Enhancing competitiveness, focus of this year's annual IU School of Business conference April 18 in the Indiana Convention Center, will feature Aluminum Co. of America Chairman/CEO Paul H. O'Neill, Strategies 2000: Creating a Positive Business Culture author Carolyn Corbin, NBC-TV sportscaster Dick Enberg and Kohlberg Kravis Roberts & Co. partner Henry R. Kravis. Registration fee is \$70. Call 5-3696 for details.

Bone Study Volunteers Needed--Female volunteers (age 45-60, postmenopausal and not on estrogen therapy) are needed for a two-month research study testing the effects of estrogen on bone. Required to make eight visits to the Bone Studies Department, volunteers will be paid. Call 4-0945.

Insulin Study Volunteers Needed--IU Hospital seeks volunteers with diabetes to participate in an insulin study. Diabetic individuals using beef, pork (or both mixed) insulin may qualify. Participants will get free physical exam, EKG, blood chemistry/cholesterol screening, blood pressure monitoring and a blood glucose monitoring device. Call 630-6987.

Wellness Thanks--MAX*WELL Coordinator Vicki Anderson wishes to thank all participants in the Feb. 16 Wellness Month Walk-a-thon. About 50 walkers (and some runners) brought in more than 170 lbs. of food that was donated to Gleaners Food Bank. Individuals interested in organized walking programs may call Anderson at 4-0610. Her office is in PE 260.

ROTC Notice--George Clausen of Military Science would like faculty to remind students of the Feb. 28 application deadline for two-year Army ROTC Scholarships. The scholarship pays an annual \$7,000 for tuition, books and fees as well as \$100 per month for other expenses. Call 4-0072 or 4-2691.

Physics Seminar--University of Illinois Physics Professor Peter G. Wolynes will discuss "Protein Folding: A Problem in Condensed Matter Physics" in a 4 p.m. March 8 physics department seminar in KB 131. All are invited.

Genetics Seminar--Dr. William B. Dobyns, professor of neurology and medical genetics, will discuss "Clinical and Molecular Genetics of 17p" at 4 p.m. Feb. 27 in IB 233.

MORE NEWS 'N' NOTES

Earth to IUPUI--The 20th anniversary of Earth Day is April 22 and volunteers are needed for campus events April 17-19. Interested participants as speakers, panelists, exhibitors or support may call David McSwane at 4-2918. He's especially looking for 1970 participants.

Math Talk--University of Illinois Professor J. Jerry Uhl will discuss calculus and mathematics 4-5 p.m. March 2 in KB 059, sponsored by the Department of Mathematical Sciences. All welcome.

Chemistry Chat--Chris Goralski of Dow Chemical Co.-Midland will speak Feb. 28 at 4:15 p.m. in KB 231. His talk, sponsored by the Department of Chemistry, is free and open to the public.

Disabled Subject of Series Talk--Joe Marrone of the Massachusetts Rehabilitation Commission will discuss "Truths and Truisms about Supported Employment for Persons with Psychiatric Disabilities" 1-3 p.m. March 1 in KB 031. His talk, sponsored by the Purdue School of Science Department of Psychology, is free and open to the public. For details, call 4-6752.

POSITION OPENINGS

IUPUI-Columbus seeks an assistant professor of biology in its Purdue School of Science. Requirements include an earned Ph.D., record of scholarly activity and active research and three years of university teaching. Special consideration given to candidates whose research would benefit from access to new two-dimensional protein electrophoretic facilities. Salary commensurate with experience. Review begins March 16. Send resume and names/addresses of three references to: Dr. Paul Bippen, IUPUI-Columbus, 4601 Central Avenue, Columbus, Ind. 47203

The IU School of Medicine seeks applicants for superintendent of Wishard Memorial Hospital. The position reports to dean of the medical school and is responsible for professional management of the hospital. Applicants should be experienced in administration and local/national leadership roles. M.D. degree and board eligibility/certification required. Forward CV/resume to: Dr. Joseph J. Mamlin, IU School of Medicine Dean's Office, Fesler Hall 302, 1120 South Drive, Indianapolis, Ind. 46202 by Feb. 28.

IUPUI is an Affirmative Action/Equal Opportunity Employer

AND FINALLY. . .

Campus Facility Services have tentatively scheduled a public auction for March 10. Items will include furniture from the Krannert floor of University Hospital--desks, dressers, armoires--and other office equipment. More information coming in a future issue of the Green Sheet.

IUPUI spring break is only days away (March 5-11) and graduation this year is scheduled for Sunday, May 13. Time does seem to fly by...

Calendar summary sponsored by MAX*WELL Program (40610).

MARCH -- NATIONAL NUTRITION MONTH

Nutrition refers to the processes of being nourished. The human body needs more than 50 nutrients from a wide variety of foods for optimal health. Therefore, it is important for an individual to eat a balanced diet, choosing items to promote good nourishment.

There are some simple steps that can be taken to begin or maintain healthy eating habits:

- *Choose less fat -- look for low-fat dairy products, lean meats, foods without saturated fats.
- *Avoid too much sodium and salt -- often found in processed meats, canned foods, frozen dinners.
- *Eat more foods with fiber -- try whole grains, fresh fruits and vegetables, dried beans.
- *Try to eat a variety of foods -- carbohydrates, fats, proteins.
- *Choose appropriate servings from the four basic food groups -- milk, meat, fruit-vegetable, grain.

Win a Free Meal!

One day during each week in March the Department of Nutrition and Dietetics will be awarding a free meal to healthy eaters! Individuals going through the cafeteria lines of Riley and University Hospitals who display a nutritionally-sound meal on their trays will win a free meal. Dietitians will assess if the meals include items from the four basic food groups. Choose healthy selections throughout the month of March as the days will not be announced in advance! Procedures to be determined and governed by the Department of Nutrition and Dietetics.
