ENROLLMENT FORM 47

The need for a more educated workforce is essential in these difficult economic times. Whether you are employed or currently seeking a new career direction, continue to enhance your skills by completing a degree, obtaining a certificate, or just taking a course for personal or professional improvement. Indianapolis should be a city of lifelong learners.

As a recent instructor for the IUPUI Community Learning Network, I encountered many individuals who took my "Small Unit Leadership" seminar. They were there to develop and enhance their skills to be more effective on the job, seek advancement or start a new career. The Community Learning Network Continuing Education Program has a wide variety of courses and certificate programs to help you retool and they are offered in a relaxed environment. So it's easy for adults to return to school.

Indianapolis is rich in educational opportunities for all adults wanting to continue their education. I have taught at several institutions and you owe it to yourself to return to school, whether it is a course or program from this catalog or from another institution. It can make a difference in your future as well as the future of our city.

IUPUI COMMUNITY LEARNING NETWORK

The Community Learning Network (CLN) provides programs of study, raises educational achievement and embraces diversity in Central Indiana using multiple methods of delivery at convenient times and locations.

**Enhance your skills...
Change your career direction...
Add to your expertise**

Do you have the skills and education to remain competitive in today's workforce? According to the Hoosier Hot 50 Jobs listing on the Department of Workforce Development website, high demand jobs and entry level jobs all require ten important basic skills:

- Active Learning
- Critical Thinking
- Mathematics
- Reading Comprehension
- Writing
- Active Listening
- Learning Strategies
- Monitoring
- Science
- Speaking

The IUPUI Community Learning Network provides continuing education classes and certificates that can help you in your quest to strengthen your basic skills and become more competitive in the job market. Inside this catalog and on our website (www.cln.iupui.edu) you can find classes such as Active Listening and Critical Thinking to help with these basic skills. Or you may choose a concentration of classes such as the Business Communications Certificate Program to become more proficient in written and oral interactions. Certificates can help gain a core of knowledge or skills to take the first step in career development, to enhance skills in the changing workplace, or to gain skills for a career redirection. More than 15 certificate programs are available to meet your needs.

Perhaps you have decided it is time to complete your degree. IUPUI offers a wide array of degree programs that can help you get the career you want. Consider the IU General Studies degree program in the Community Learning Network. Often considered a degree completion program, General Studies was designed for adult students who want a broad-based degree program that combines high academic standards with convenience and flexibility. To learn more, take advantage of one of the free information sessions listed on the next page or call (317) 278-7600 to schedule an appointment.

RETURNING TO SCHOOL: EASIER THAN YOU THINK

As our world and economy change, many adults contemplate continuing their education. For all those who consider it, few follow through with it. This may be due to fear or doubt about success in higher education. It also can be difficult to decide where and what to study. Returning to school as an adult can be a challenge, but you can make the transition. Bring your questions, doubts and concerns, and let us help you begin a successful college career.

Online AutoCAD 2009 Certificate

AutoCAD is the leading program for computer-aided design, an essential tool in many industries, including mechanical and civil engineering, architecture, facilities planning and management. More employers use it -- and need workers skilled in it -- than any other CAD system. This course takes a step-by-step approach to learning AutoCAD, starting with a few basic tools to let students create and edit a simple drawing, then gradually introduces more advanced tools. Examples and practice exercises are taken from a variety of the fields where AutoCAD is used. This program begins by focusing on basic two dimensional drawing and editing tools, objects on layers, text and basic dimensions. Once students master the basic skills, they'll explore efficiency tools, complex objects, external reference/image files, advanced plotting and enhancing productivity with simple customization. The course requires approximately 150 hours to complete and can be started at any time. The AutoCAD 2009 program includes the textbook and a 13-month student license of the AutoCAD 2009 software. No discounts are available.

Database Management

BEGINNING DATABASES WITH SQL

This course is designed for beginners who want to take the first step toward full understanding of relational database management systems. Starting with SQL -- the universal language for adding, accessing and processing data in a database -- this hands-on class will lead you through your very first database query to the complex commands needed to solve real-world problems. The contents are delivered using MySQL, a free open-source RDBMS. Knowledge gained from this course is applicable to other RDBMS, such as Oracle, MS SQL Server and IBM DB2. A reference textbook is included in the course fee.

Course #: 101L19A18

Date & Time: 6 Wed., Feb. 3-Mar. 10, 6:00-8:45 p.m.

Web Design

Basic Web Design Certificate Program

The Basic Web Design Certificate is intended for those who want to begin to design and maintain a professional-looking personal or company Web site. It provides the framework and basic knowledge needed to get started, and it prepares beginners to start using many of the commonly used tools in Web design and maintenance.

Required courses include Introduction to Web Design, Introduction to HTML, Introduction to Dreamweaver and two electives chosen from the selection of Web Design classes, or you may take Introduction to Photoshop or Intermediate Photoshop as an elective. Our staff can assist you and your organization in planning a program of study. To view a brochure go to www.cln.iupui.edu and click on Continuing Education and then Certificate Brochures. For more information, call (317) 278-7600.

CERT99T02: You must pay a one-time nonrefundable registration fee of \$35 to enroll in this certificate program. Discounts do not apply. You may enroll in individual courses without enrolling in the certificate program.

INTRODUCTION TO WEB DESIGN

Learn some of the design principles that produce professional polish to make a Web site stand out. If you plan to maintain company or personal Web sites, if you are overwhelmed with choices and decisions or if it's difficult to spare the time to research all the alternatives, this course will save you time and money. It will help you evaluate and choose HTML editors and find comparative information. This class entails detailed discussion and in-class exploration of sites, but you won't design sites in class. A reference textbook is included in the course fee.

Clinical Research

Clinical Research Certificate Program

If you have a background in health care, science or nursing, you may be considering entering the challenging and rewarding field of clinical research. The demand for skilled, knowledgeable clinical research coordinators and associates continues to grow as researchers strive for cures and aids. This certificate program offers a curriculum that teaches you the terminology and overall procedure for getting a new drug tested and ready for market. You'll learn the vocabulary and gain a general understanding that may assist you with making the move to a new career area. Note: The certificate requires completion of five core courses in the following order: Introduction to Clinical Research, Roles and Goals in Clinical Research, the Clinical Trial Process, Budgeting for Clinical Trials and Ethics of Clinical Research. Additionally, two elective courses must be taken from the Business and/or Medical areas of the catalog. We recommend that you take the Intro to Project Management course and the Medical Terminology class if you have no medical background. To view a brochure go to www.cln.iupui.edu and click on Continuing Education and then Certificate Brochures. For more information, call (317) 278-7600.

FOSTERING A CIVIL WORK ENVIRONMENT

Today's work culture calls upon managers to fully engage employees and treat them as partners. Yet, many management practices remain largely focused on "carrot and stick" strategies that reinforce old-fashioned notions of employees as subordinates who must be controlled and manipulated. This class will explore possibilities for creating civil work environments through trust in and respect for people. HR managers and professionals will leave with some specific actions they can take to develop a more civil and positive workplace.

ACCOUNTABILITY & COMMITMENT: THE MISSING LINKS IN EFFECTIVE LEADERSHIP

Leaders at all levels agree that lack of accountability is rampant in many organizations today. Employee excuses, as well as a leader's fear of conflict and uncertainty about how to hold others accountable, result in paralyzed workforces and frustrated leaders. As a leader, what can you do to instill commitment and accountability in your employees as well as your co-workers? What techniques are most effective, and what techniques will sabotage accountability? Learn the answers to these questions in this interactive "hands-on" session.

ASSESSING YOUR MANAGEMENT STRENGTHS WITH THE DISC

Managers have a lot of influence over people, and their strengths can be a terrific benefit for the people who work for them. But their limitations can trickle down to create frustration, confusion or even paralysis for the people they manage. Because of this responsibility, managers have to know themselves. This course provides a safe way for you to understand and organize the strengths and challenges you bring to the table. You'll gain an appreciation for the impact your behavior has on others and understand how your personal style is read and filtered by others. Learn how to maximize your strengths to make yourself and the people you manage more effective. Using the DISC assessment, you'll discover the four behavior styles, learn your strengths, learn about your behavior when in conflict with others and understand how others interpret your behavior.

DEALING WITH CONFLICT IN PROJECT TEAMS

As much as you would like to close your eyes to it, sweep it under the rug or just pretend it isn't even there, you can't. When you're a project manager, it - that is, conflict - always will be part of your work life. You could choose not to deal with it, but you and your project team eventually would pay a big price in the form of broken relationships, lost productivity and general mistrust in the workplace. So why not take some time to learn about the ins and outs of conflict as well as strategies for resolving the everyday disagreements that creep into project teams? In addition to developing knowledge, you'll have an opportunity to practice key skills you'll use to work through and resolve issues. Come prepared with an ongoing conflict you're currently working on or a previous conflict that didn't turn out the way you'd hoped. This hands-on interactive session will allow time for you to work through your real-world issues.

Foreign Language

FUNCTIONAL ARABIC

Functional Arabic focuses on what is useful and frequently encountered in the real world. It emphasizes communication basic to human interaction, such as greetings, making introductions, initiating small talk, sharing information, expressing likes and dislikes, asking directions and ordering a meal. Functional Arabic is built on the premise that making mistakes is part of the learning process, functionality is the goal and lack of perfection is forgivable. This course targets the most essential, below which one can't communicate and above which one can experience the joy of speaking the language. The course fee includes materials and an audio CD for listening comprehension.

VOCABULARY LEARNING STRATEGIES FOR ESL STUDENTS

This course is for adult English learners who want to improve their English vocabulary. Vocabulary building is important for improving a student's ability to listen, read, speak and write in many daily situations. Many students want to build their knowledge of English words and use a dictionary, thesaurus or phrase book more effectively. We will study word-recognition and word-learning strategies, practice combining basic word roots with prefixes and suffixes, use common phrases and idioms, and learn groups of words about everyday topics. This course helps students gain confidence and expand their vocabulary in English. Since different aspects of vocabulary learning can be covered each time this course is offered, students may repeat this course.

MINDFUL EATING, MINDFUL WEIGHT LOSS

Recent research indicates that mindfulness - awareness of our habitual behaviors, thoughts, desires, emotions and bodily sensations - may be the missing foundation for healthy change in eating habits. You'll learn how to eat mindfully, and discover how mindfulness can help you regain touch with the sensations of true hunger and satiety. You'll also learn to mindfully reduce stress and explore the deeper potentials of mindfulness to release addictive tendencies. Finally, you'll learn a powerful method for releasing thoughts that may have led you to repetitive, harmful behaviors. Participants should attend all classes and the retreat. The fifth day of this course (Sat., Feb. 27) is an optional mindfulness retreat at a different location for which you may attend a morning or afternoon session, or both. Brief telephone interviews with the teacher prior to registration are available for those with questions. This class is not a substitute for dietary and exercise habits that may be necessary for improved personal health and weight management. A \$35 materials fee will be payable to the instructor at the first class.

MINDFULNESS MEDITATION

Do you have eight minutes each day for a practice that could transform your health, and perhaps your life? Mindfulness meditation calms the mind and teaches us to live more deeply in the present moment, helping us rediscover a balance between being and doing. Mindfulness is an ancient practice that is increasing in popularity in the modern world. Mindfulness has numerous scientifically-validated physical and psychological benefits, and CEOs and managers at corporations such as AOL Time Warner and Ford Motors, athletic teams such as the Chicago Bulls, and professionals such as physicians and nurses, psychologists, teachers and attorneys, are also discovering that mindfulness is directly beneficial in the conduct of their profession. This course will include instruction, guided meditations and question and answer. Topics covered will include why it's impossible to fail at meditation, how to cultivate tranquility and presence, correct posture, overcoming common challenges and distractions, and being mindful in daily life. The fifth day of this course (Sat., Feb. 27) is an optional mindfulness retreat at a different location for which you may attend a morning or afternoon session, or both. Participants will sit on chairs (though you may bring a cushion). A \$12 materials fee will be payable to the instructor at the first class.

AWAKENING TO YOUR TRUE NATURE

Oprah Winfrey has helped popularize the teachings of Eckhart Tolle, the enlightened master. This class is for those who are familiar with Tolle's *The Power of Now* or *A New Earth* (or similar teachings) and are ready for the next level. This class will be highly experiential, involving guided meditations, self-inquiry, dialogues and more. You will have the opportunity to explore and possibly awaken to the timeless, boundless, unconditional wakefulness of what Zen calls your true nature, and to investigate the blocks that appear to obscure it. This class is for

newcomers but will include new material and thus be worthwhile for those who have taken the instructor's previous classes on the topic. The fifth day of this course (Sat., Feb. 27) is an optional meditation retreat at a different location for which you may attend a morning or afternoon session, or both. Brief telephone interviews with the instructor prior to registration are available for those with questions. A \$20 materials fee for a book will be payable to the instructor at the first class.

BELLY DANCING: AN ELEGANT EXERCISE

Exercise can be exciting and elegant, especially when you are belly dancing. Come explore the fundamental elements of the Egyptian belly dance. Relax with the mesmerizing quality of slow movements, energize with powerful shimmies and then integrate these into exhilarating dance combinations. This class is appropriate for experienced dancers and beginners and emphasizes proper breathing, posture, correct alignment and core strength. During each 90-minute session, students will learn a different choreography and discover their creative movement potential. Wear comfortable clothing suitable for movement. Participants may take class in soft-soled dance shoes or bare feet (socks are too slippery). Do not wear baggy clothing that inhibits movement and prevents the instructor from recognizing proper alignment.

Floral Design Certificate Program

Have you always loved flowers? Do you have an “eye” for shape, color and texture? Would you like to do just certain kinds of floral design or learn a variety? Would you like to work at a job you really enjoy? Do you need someone to show you the basics of arranging flowers? These courses give you the competitive edge needed to find your niche in this growing field. The program provides a well-rounded base for personal satisfaction or a career. In order to receive the certificate you must take three floral design classes and one elective from the Life Skills area of the current catalog. In as little as one semester, you can gain the self-assurance to confidently move into the world of floral design. To view a brochure go to www.cln.iupui.edu and click on Continuing Education and then Certificate Brochures. For more information, call (317) 278-7600.

CERT99S03: There is a \$35 one-time, nonrefundable registration fee to enroll in the certificate program. Discounts do not apply. You may enroll in individual courses without enrolling in the certificate program.

Interior Decorating

Interior Decorating Certificate Program

The Interior Decorating Certificate Program provides insight that will enhance your understanding of design. A well-designed home provides a successful background for comfortable living. To earn the certificate, you must complete three required courses: Introduction to Decorating, Drawing Skills for Interior Decorating and Concepts and Techniques in Interior Decorating. You must also complete one additional elective from the Life Skills area of the catalog. For more information, call (317) 278-7600.

CERT99S02: You must pay a one-time, nonrefundable registration fee of \$35 to enroll in this certificate program. Discounts do not apply. You may enroll in individual courses without enrolling in the certificate program. The Interior Decorating Certificate is for completion of the listed courses, not a professional certification.

INTRODUCTION TO DECORATING

Thousands of decorating themes are in use around the world -- but only a handful have found their way to the mainstream in our part of the world. Here are some you'll want to know about: Mediterranean, Italian, Moroccan and Japanese. Decorating interior living spaces is one of the most popular pastimes. This fixation has led to a global transfer of concepts, ideas, culture and materials that broaden the possibilities and expands the mind to dramatically impact the way we think about our homes. Come inside and learn the basics of using colors, lines, moods and textures to create the décor of your dreams.

DRAWING SKILLS FOR INTERIOR DECORATING

Learn the basics of drawing to scale. This course provides information, resources and drawing exercises useful to anyone wanting to design or rework home living spaces. The skills you learn in the course can help you communicate more knowledgeably and accurately with professional designers and contractors so you can participate more effectively in the decorating of your home. Bring an architectural scale, a triangle, an eraser, drafting pencils and graph paper to the first class. You will receive an additional supply list the first night of class.

COLOR THEORY

Color may be the most relative medium in art. Each color has a specific property, whether it's the particular wavelength in optical perception, the molecular construction of pigments or an RGB value for a monitor. Though each of those properties may be fixed, the expression and perception of a color may change within different contexts. Understanding color requires that you understand its systems, interaction and even a bit of physics. This course deals with the abstract language of color. We'll discuss basic color principles, terminology and applications, with an emphasis on manipulating color.

DECORATING KITCHENS AND BATHS

This might be the time to take a look at your kitchen and bath and add some affordable decorating ideas to both. Interior designer, Lise Simms knows kitchens are all about the people who use them. "Our homes are our jumping off point for everything we do in life, and when you walk in the door you should be inspired, comforted and renewed," she says. We know that the kitchen is the gathering place. If you want to make some changes in your kitchen decor, come to this class. Remodeling or redecorating a bathroom can pay off right from the start. Your home will be more comfortable and you'll add value to the property. If you're thinking about freshening up your bathroom come to this class and get some workable ideas from the expert, an interior designer.

Photography

Photography Certificate Program

Photographs can be art, history and news; photography can be a hobby or a career. Whether you take pictures for business or pleasure, you will enjoy these classes and hone your photographic techniques and use of technology. Sharpen your skills with the aid of professional photographers in our Photography Certificate Program. To earn the certificate, take the three required courses -- Photography Fundamentals, Advanced Photography Techniques and Black and White Darkroom -- and take two electives from among the other photography classes listed in our catalog. After taking the classes, arrange with us to submit a portfolio of your photographs for review. To view a brochure go to www.cln.iupui.edu and click on Continuing Education and then Certificate Brochures. For more information, call (317) 278-7600.

CERT99E00: You must pay a one-time nonrefundable registration fee of \$35 to enroll in this certificate program. Discounts do not apply. You may enroll in individual courses without enrolling in the certificate program.

PHOTOGRAPHY FUNDAMENTALS

Like any new language, the lingo of photography can be intimidating - F-stops, lenses, depth-of-field control, shutter speed, film speeds and more. All are covered in this introductory class. You'll have some outside shooting assignments to help give you a feel for your camera and to learn how to set up the best shots. Soon you'll be taking those great pictures of family and friends like you always knew you could. Bring your camera (film or digital), if you have one, to the first class. Note: This course doesn't cover autofocus point-and-shoot cameras. It's the first class to take if you're working toward our Photography Certificate.

HOW TO TAKE BETTER IMAGES WITH YOUR SLR CAMERA

An SLR, or single-lens reflex, camera allows you to look through the lens at your subject rather than through a viewfinder. A 35mm or digital still camera with removable lenses is typically an SLR. Whether you own a new digital SLR camera or a classic 35mm camera, you'll learn how to take better photos in just a few weeks. Topics covered include basic controls and settings, exposure, depth of field, flash photography and composition.

BEYOND THE ORDINARY

There is ordinary photography, common pictures we see daily; there is good photography, that crosses our paths a few times every day; and there is photography beyond the ordinary, that stops us in our tracks. This course will help you produce the latter in your photography through the use of light, composition, texture, emotion and subject. There will be self-assignments, personal projects and an exciting outing where we will photograph a subject new to all. To be sure this is unique, we will determine this during our first class and compare images in the last class. Stan, your instructor, will work with you adding his 40 years of photography experience to your creativity.

Course #: 101E71A00

UPCOMING CLASSES

For a listing of our upcoming classes go to our website at <http://www.cln.iupui.edu/> and find on the lower center "Calendar".

CLASSROOM INFORMATION

Locations: The room number assignments, when known, will be indicated on your receipt and signs will be posted at the entrances to the classroom buildings.

Adaptive Educational Services:

In order for Continuing Education to try to arrange access or accommodations, individuals who need auxiliary aids for communication or who need assistance for access or accommodations should contact the Call Center at (317) 278-7600 two weeks prior to the start of class.

Course Changes and Cancellations:

On occasion, it may be necessary for Continuing Education to cancel, postpone or combine classes, in which case you will be notified. Please provide telephone numbers and email address on your enrollment form so we may contact you should it become necessary. You may want to verify the scheduling and location of your class by calling our office at (317) 278-7600 before your first class meeting.

Refunds Due to Cancellations: If your class has been canceled, you may choose to apply your payment toward another course or your payment will be refunded to you.

Inclement Weather: When bad weather prevails, listen to your local channels for school closures. If high schools are closed because of inclement weather and your class is held at that location, the class is canceled.

Low Enrollment: Continuing Education reserves the right to cancel a course if low enrollment or other contingencies prevail.

Full Classes: If space is not available in a class, we will contact you to offer another section of the course or return your payment.

PARKING - CLASSES HELD AT IUPUI

Please check your receipt for parking information for classes held on the IUPUI campus.

Parking for the Disabled: If you have a disability and would like a disabled parking permit, please call Parking Services at (317) 274-4232 before the first class meeting for instructions.

DISCOUNT POLICY

Only one discount per course.
Discounts can not be combined.

REFUND POLICY

For a course refund, call our office at (317) 278-7600. Please allow six weeks to process a check refund. Credit card refunds may be done within 10 business days.

Course Refund: If you notify Continuing Education of your withdrawal at least three business days before the first class meeting, 100 percent of the course fee will be refunded. At that time, you will be given the option of transferring to another course/section. You may transfer to another course/section one time only. If you withdraw from a course the day of or the day after the first class meeting, a 75 percent refund will be issued. After that, no refund will be issued. Please allow six weeks for a check refund from the date you withdraw from a class.

One-Day Classes: If you notify Continuing Education of your withdrawal at least two business days before the date of the class/seminar/workshop, 100 percent of the course fee will be refunded. If you notify Continuing Education of your withdrawal by noon of the day of the class/seminar/workshop, a 50 percent refund will be issued. No refund will be given after noon.

Book Refunds: Please return new books within five days following the first day of a course for a refund. You will need your receipt. For questions, contact the bookstore:

**Barnes & Noble @ IUPUI Bookstore -
(317) 278-BOOK**

**Indy College Bookstore -
(317) 631-2665**

NONNEGOTIABLE CHECKS

If a check is returned nonnegotiable from the bank, including stop payments, you will be charged the amount of the purchase plus a nonrefundable \$20 service charge.

IUPUI TOBACCO POLICY

IUPUI is a tobacco-free campus. Please help us maintain a healthy environment by not smoking on university property. See www.tobaccofree.iupui.edu for more information.

TEXTBOOKS

If a textbook is required for a course, you may go to one of the bookstores. Provide the course number and title of the course you are taking for quicker service. Please indicate that the course is through Continuing Education.

Barnes & Noble @ IUPUI Bookstore

420 University Blvd. (317) 278-BOOK
Indy College Bookstore
601 W. 11th St. (317) 631-2665

COMPANY BILLINGS

Companies choosing to pay for employees to attend classes may be billed for classes. Authorization (signed letter or PO) must accompany the enrollment information and may be faxed to Continuing Education, however, an original form must also be mailed. For more details, please call (317) 278-7600.

If your employer requires a signed voucher for payment of your classes, you are now required to provide the signed original voucher to Continuing Education prior to being enrolled in a class. If your company does not require a signed original voucher, your company must provide approval of payment for your course fees via company letterhead.
