## IUPUI HOSTING YOUTH VOLUNTEER CONFERENCE

The IUPUI Union Building and a tent on its front lawn will be the site of the first conference on voluntarism for senior high school students and their faculty advisors to be sponsored by Sen. Dan Quayle and the United Way of Indiana all day Saturday (Sept. 12). Approximately 500 outstanding Hoosier senior high school students are expected to attend.

Two students and one faculty advisor have been invited from each high school in the state to attend the program, keynoted by Sen. Quayle and conducted by voluntarism experts. It will include sessions dealing with leadership and organizational and motivational skills. Representatives recommended by local United Way Boards from the various human service organizations in each county will participate as discussion leaders for the workshop segment of the conference.

It is expected that the student representatives will return home to tell their fellow students about voluntarism. They will form a committee within their school that will, in cooperation with local volunteer organizations, develop a volunteer project tailored both to local needs and student interests. Emphasis throughout the program will be placed on the practical experience that can be gained through voluntarism, the importance of active participation in community affairs and the benefits of concerted action in achieving a particular end.

Newsletters describing the more successful programs will be published, and an award recognizing exceptional volunteer service will be presented by Sen. Quayle when an individual school reaches a certain level of achievement. A year-end banquet honoring student volunteers will also be held.

Registration will start at 9 a.m. Saturday in the lobby of the Union Building. The program will start at 10 a.m. with a welcome to the visiting students and their advisors from I.U. President John W. Ryan and Vice President Glenn W. Irwin Jr. M.D. The program will close at 3:30 p.m. with a reception for the conference representatives given by Sen. Quayle.

## DENTAL RESEARCH VOLUNTEERS NEEDED

The Oral Health Research Institute is looking for approximately 120 participants for a study to identify factors which are associated with the formation of stains on the teeth (such as coffee, tea, smoking) in both the presence and absence of the use of an antimicrobial mouthwash.

Participants will have their teeth cleaned at no charge and will receive all toothbrushes and toothpaste necessary for home use. The study will last for about 10 months. In the first nine weeks approximately 30 adults will be identified who normally form stains on their teeth and an equal number will be

♂

selected who do not form these stains. These 60 participants will proceed to the next phase of the study which will compare stain formation in both the presence and absence of the use of an antimicrobial mouthwash.

Those interested in participating or who wish further information should call ext. 8822 between 9 a.m. and 4 p.m. and ask for Cathy Drook.

#### IUPUI PROGRAM PLANNER IN WORKS

Another edition of the IUPUI Program Planner is being prepared for the 1982-83 period. This booklet is the largest resource for forming programs for groups and organizations in the Indianapolis area.

More than 100 speakers from the university plus a number of other programs available from IUPUI are listed. More than 4,000 of the booklets are circulated each year.

All faculty and staff members who wish to speak to groups in this area are invited to be listed. The Publications and Information Services Office has new forms for listing personal data and speech topics. Deadline for listing the information is Sept. 21. Call ext. 2101 for information and an application for the 1982-83 edition.
