

NIEDERPRUEM WINS MOORE AWARD

Dr. Donald J. Niederpruem, professor of microbiology and immunology at the Indiana University School of Medicine, has been selected as the first recipient of the Edward C. Moore Award for Outstanding Teaching at IUPUI, it was announced Feb. 11 at the annual IUPUI Learning Resources Symposium.

Dr. Glenn W. Irwin Jr., vice president of I.U. for Indianapolis, introduced Dr. Niederpruem and presented him with the \$1,000 prize that goes with the award. Establishment of the award was announced last year to honor Dr. Moore on the occasion of his retirement as dean of the faculties and executive dean and to recognize his commitment to the advancement of quality teaching here. Dr. Moore, who has continued in his retirement as acting dean of academic affairs at I.U.-Kokomo and special assistant to Dr. Irwin, was on hand for the conference.

Any faculty member may nominate anyone on the IUPUI faculty for the honor, sending it and any supporting evidence to the office of the vice president. An anonymous committee appointed by Dr. Irwin weighs the dossiers and makes a recommendation for the final selection.

The Learning Resources Symposium was considered an outstanding success by the sponsoring committee, which was headed by Dorothy Webb, representing the School of Liberal Arts. A large group of faculty members turned out for the keynote address by Dr. Robert Kegan, lecturer at the Harvard Graduate School of Education, and stayed to participate in one or more of the 17 small group discussions-demonstrations of the best in modern teaching techniques.

SEARCH COMMITTEE NAMED FOR MEDICAL DEAN

Dr. Morris Green, Perry W. Lesh professor and chairman of pediatrics at the School of Medicine and physician-in-chief at the James Whitcomb Riley Hospital for Children has been named chairman of a search and screen committee to replace Dr. Steven C. Beering as dean of the I.U. School of Medicine.

Dr. Beering, who has been dean of the medical school since 1974 and who also has served as director of the entire I.U. Medical Center, will become the ninth president of Purdue University on July 1.

Green's appointment was made by I.U. President John W. Ryan, who also named him to head an advisory committee to furnish counsel to the search committee from a number of university and outside constituencies.

Those named to serve on the search and screen committee are: Dr. Douglas A. Triplett, director of the Muncie Center for Medical Education; Dr. William Beeson, president-elect of the School of Medicine Alumni Association; Ward W. Moore, associate dean for basic medical sciences and director of the Medical Sciences Program in Bloomington; Rodney A. Rhoades, professor and chairman of

physiology and chairman of the Basic Science Council; Dietrich C. Bauer, professor and chairman of microbiology; Henry R. Besch Jr., Showalter professor of pharmacology, chairman of pharmacology and professor of medicine; Catherine G. Palmer, professor of medical genetics and president of the medical faculty; Dr. Charles Fisch, distinguished professor of medicine and director of the Krannert Institute of Cardiology; Dr. Hugh C. Hendrie, Albert Eugene Sterne professor of clinical psychiatry and chairman of psychiatry; Dr. Robert L. Campbell, Betsey Barton professor of neurosurgery, professor of surgery and director of the Section of Neurosurgery; Dr. Eugene C. Klatte, distinguished professor of radiology and chairman of radiology; William H. Mohr, medical student and former I.U. student trustee; Dr. Patrick J. B. Corcoran, national chairman of the Council on Medical Education, professor emeritus of medicine, and immediate past director of the Evansville Center for Medical Education; Michael J. O'Connor, administrative assistant, ex officio.

Dr. Ryan expressed his hope that a new dean of medicine could be named by July 1. The search and screen committee will report its findings to Dr. Glenn W. Irwin Jr.

ANOTHER FIRST

Indiana's first Nuclear Magnetic Resonance (NMR) medical imaging device, one of the most promising of the new diagnostic instruments, went into operation last week at University Hospital. By a complex system of powerful magnetic force, radio signal transmissions, and computerized graphics, the machine can "picture" the body's soft tissues -- the organs and muscles -- more thoroughly than any other machine now in use.

Part of an investigative program under the direction of Dr. Eugene C. Klatte, distinguished professor and chairman of the Department of Radiology, the NMR imager at University Hospital is one of a dozen such instruments now being used in clinical research at medical institutions in the United States. Information obtained is expected to demonstrate that the NMR is a safe method of providing scientists and physicians with information about diseases that cannot be provided through existing methods of diagnosis such as X-ray, ultrasound and angiograms.

The NMR has been used in laboratories for some time to examine small samples of living tissue without destroying or altering them. (Such a machine was installed last year in the Department of Physics of the Purdue School of Science at IUPUI.) It provides investigators with information about basic life processes without interfering with life itself and now has been adapted to do the same for physicians who are looking at the total human body.

LEGALIZATION OF LIFE EXPLORED

"The Accelerating Legalization of American Life" will be the topic for invited participants and interested discussants at a round-table discussion at 2 p.m. Thursday in Room 318 of the University Library. Sponsored by the IUPUI Center for American Studies, the symposium will discuss the increasingly litigious state of the union.

Headliner for the afternoon discussion and an evening lecture will be E. Gordon Gee, president of West Virginia University, a lawyer and expert in the areas of

legal problems in education and labor law. His free lecture is scheduled at 8:15 p.m. in Lecture Hall 101. In addition to the lecture, all interested persons are invited to attend the round-table and a reception at 5 p.m. in the Commons at the School of Social Work. Reservations should be made by calling ext. 3759.

The Center for American Studies has begun a tradition marking the publication of IUPUI faculty members' major publications with the sponsoring of a special symposium. In this case, it is the recent publication of *Group Dynamic Law* by David A. Funk, professor of law at the I.U. School of Law-Indianapolis.

NEWS 'N' NOTES FROM HERE 'N' THERE

Pharmaceutical -- Pharmaceutical displays at University Hospital this week are Roerig, Monday; American McGaw, Tuesday; Marion Labs, Thursday; DuPont, Friday. Boehringer Ingelheim will be at Riley on Wednesday.

Sex Equity Researcher to Visit -- Dr. Myra Sadker, dean of the School of Education, American University, Washington, D.C., and noted sex equity researcher, will be brought to Indiana by the School of Education Lectureship Series March 8 and 9. She will speak on "The Making of Non-Sexist Teachers" 11:30 a.m.-1 p.m. March 9 at the IUPUI School of Education, Business suite 4095. Everyone is welcome. For more information contact Terri Jump, School of Education, ext. 2836.

Placement Tests -- Mandatory placement tests will be scheduled the last two weeks of February for all students presently at IUPUI who will be taking English W131 and/or a beginning math course in Fall, 1983. Students must complete the testing before they can enroll in those courses. Students who need to be tested should contact the Testing and Orientation Office at ext. 8940 or come to ES 2129 for an appointment.

Mini-Marathon Entries Available -- Those who want to enter the "500" Festival Mini-Marathon should complete their entry forms and send them with the \$8 fee now to the Festival office. The 13.1-mile race will be run May 27 at 9 a.m. Competition will be limited to the first 5,000 whose entries are postmarked prior to midnight, March 31. Contact the "500" Festival office, 636-4556.

Price Decrease -- Cooperative Copier Program announces a price decrease. Effective Wednesday the following coin-operated copy machines will be at 5¢ per copy: University Library, 38th Street University Library, Herron School of Art Library, School of Education's Curriculum Resource Library, and the Duplicating Center at the School of Nursing.

Rides Needed -- Ride desperately needed from Martinsville to the Medical Center 8 to 5 Monday through Friday. ext. 7421. . . . Brendonway Apartments near 56th St. and Arlington Ave., 7:30 a.m.-4:30 p.m. or later. Will help on gas. Call ext. 8857 or 546-3351. Ask for Terri.

Child Life Career Day -- Child Life Programs will present a Career Day in the Riley Hospital Family Library, Room 407, 9:30-11:30 a.m. March 19. Registration is requested by March 9. Interested persons contact Child Life Services, ext. 8723.

Couples Communication Workshop Set -- Married and engaged couples interested in improving their relationship through better communication are invited to attend

a free workshop 9 a.m.-4 p.m. Saturday in the Harrison Room of the Union Building. Donald P. Wakefield, director of personal counseling, and Linda Bond, an expert in counseling psychology, will lead the workshop. For reservations call ext. 2548.

Appointed -- Dr. Marvin B. Rytting, associate professor of psychology at IUPUI Columbus, has been named associate director for academic affairs at the Columbus campus. Dr. Rytting also will oversee the Student Services Office.

Pet Department -- Grey striped male tabby kitten about 6 months old still available! Received several calls but the lady I was holding him for on Friday night decided not to come. Please call again. Shirley, ext. 3549.

Retiring -- Retiring at the end of this month are Mary C. Ellis, stock assistant in Materials Management, 29 years of service; Josie L. Morrow, diet maid in Nutrition and Dietetics for 25 years, and William R. Leckrone, machinist with the Department of Psychiatry for 23 years.

Business Honors Program -- The School of Business Honors Program will host an information meeting at 1 p.m. April 1 in Room 4087 of the Business/SPEA Building. Students with grade point averages of 3.4 and above are invited to attend. The Honors Program enables qualified undergraduates to begin MBA level coursework while still undergraduates. For details, advise interested students to attend this meeting.

Wanted -- Juvenile onset diabetics under 40 years of age without other known medical problems except for the diabetes mellitus. \$100. Only invasive procedure is indwelling arterial catheter for several hours. Call 630-7437.

JOBS -- Job Opportunities for Business & Students, a program sponsored by the IUPUI Office of Financial Aids, is working to bring job-seeking students and employers in the Indianapolis area together. Nancy Obergfell, coordinator, says that many students are coming to the office for help. Group workshops for job-seeking students are scheduled for Monday, Thursday and next Monday. For reservations or information call ext. 4163.

Joins Personnel Staff -- Rose Konare has joined the Personnel staff as a temporary replacement for Barbara Jones, who is scheduled to return July 1. Mrs. Konare will serve as Training Coordinator. She can be reached at ext. 8931.

Sunnyside Guild Lecture Scheduled -- Dr. Ronald Crystal, chief of the Pulmonary Branch of the National Heart and Lung Institute, will give the Sunnyside Guild Lecture at 8:15 a.m. March 16 in Myers Auditorium at Wishard Hospital. His topic is "The Interstitial Lung Disorders." He will also give a research seminar on "Destructive Lung Disease" at 10 a.m. on March 16 in Room C331 of the University Hospital.

Volunteers Needed -- Volunteers are needed to man the 926-HELP-LINE, a community information and referral service of the Community Service Council. Volunteers answer phones 8:50 a.m.-5 p.m. weekdays to refer people in need to the community services that can help them. For information call Barb Dysert, 923-1466.

university calendar

February 1983

- 21 IUPUI FACULTY CLUB MEETING, guest speaker Andrew Jacobs, Jr., 11:45am-1:15pm, UN Porter-Harrison Room
MICROBIOLOGY AND IMMUNOLOGY, BIOCHEMISTRY SEMINAR: "A Role for DNA in Mutagenesis", Barry W. Glickman, Molecular Genetics, National Institute of Environmental Health Science, North Carolina, 4pm, MS 326
- 22 PERSONNEL TRAINING & DEVELOPMENT PROGRAM: Are You Burning Out?, 9-11am, NU 221; for information Personnel, 264-8931
COMPUTING SERVICES' SEMINAR: "Introduction to Database", 5:30pm, ET Enterprise Room; for information 264-4292
PHYSIOLOGY SEMINAR: "Effects of Nerve on Cerebral Vessels in Hypertension, Cerebral Edema and Stroke", Donald Heistad, Medicine, University of Iowa, 4pm, MS 205
DISTINGUISHED LECTURER SERIES: "The Relationship between the State and Federal Judiciary", Judge Allen Sharp, U.S. District Court-Northern District of Indiana, 5pm, LS Moot Court Room
MEDICAL GENETICS SEMINAR: "Methylation and Eukaryotic Gene Control", Colleen Dugdale, 4pm, RR 138
BIOLOGY SEMINAR: "Non-traditional roles for sympathetic noradrenergic nerve fibers", Dave Felten, Anatomy, 4pm, KB 357
- 23 PERSONNEL TRAINING & DEVELOPMENT PROGRAM: Discipline and Discharge/Unemployment Compensation, 9-11:30am, ES 2105, for information Personnel, 264-8931
PUBLIC LECTURE: Edmund Roniwick, University of Warsaw, Poland, UN Porter Room, Noon, brown bag
CHEMISTRY SEMINAR: "Chemometrics in an Industrial Research Environment", Edwin Steiner, Dow Chemical Company, 4:30pm, KB 231
- 24 PUBLIC LECTURE: "The Accelerating Legalization of American Life", E. Gordon Gee, West Virginia University, 8:15pm, LE 101; for information 264-3759 or 264-7711
IUPUI FILM SERIES: "Rebel Without a Cause", starring James Dean, Natalie Wood, Jim Backus, 7:30pm, NU Auditorium; additional showing February 25, 7:30pm, LE
- 25 COMPUTING SERVICES' SEMINAR: "Introduction to Database", 2pm, ET Enterprise room; for information 264-4292
IHSAA BOYS SWIMMING AND DIVING CHAMPIONSHIPS, Natatorium; also February 26
UNIVERSITY THEATRE: "The Owl and the Pussycat", 8pm, SI 002; for information 264-2094; also February 26

BIOPHYSICS SEMINAR: "Carbon 13 Magnetic Resonance Studies of Aldolase-Substrate Interactions", Bruce Ray, Physics, 12-1pm, MS 205
- 26 MEN'S BASKETBALL: Purdue Calumet vs IUPUI, 3pm, Hammond, IN
- 28 WOMEN'S ADMINISTRATOR'S GROUP (WAG), 11:30am-1pm, UN Porter Room, brown bag; for information, 264-2089
PHYSIOLOGY SEMINAR: "The Effects of Mucosal & Serosal Bicarbonate Addition on the Electrophysiological Parameters of Necturus Gallbladder", Lynn Baxendale, Physiology, 4pm, MS 205
NEW EMPLOYEE ORIENTATION, 9am, FH, Hurty Hall C
BIOCHEMISTRY SEMINAR: "Multiple Phosphorylation of Rabbit Liver Glycogen Synthase", Marcella Camici, Biochemistry, 4-5pm, MS 326

March 1983

- 1 FINANCIAL AID APPLICATION PRIORITY DATE, for information 264-4162
COMPUTING SERVICES' SHORT COURSE: "Using Model 204", 5:30pm, 8 sessions, ET Enterprise Room; for information 264-4292
PERSONNEL TRAINING & DEVELOPMENT PROGRAM: Performance Appraisal, 1:30-3:30pm; for information 264-8931
BIOLOGY SEMINAR: "Hapten Specific Regulatory T Cell Networks", Larry Butler, Eli Lilly & Co., 4pm, KB 357
- 2 CHEMISTRY SEMINAR: "Silane-Siloxane Redistribution Mechanisms", Martel Zeldin, Chemistry, 4:30pm, KB 231
LISTENERS THEATRE MEETING, 8pm, SI 108; for information 264-4519
- 3 BIG TEN MEN' SWIMMING AND DIVING CHAMPIONSHIPS, through March 5, Natatorium; for information 264-3517
- 4 UNIVERSITY THEATRE: "The Rape of the Belt", for ticket information 264-2094 (additional performances March 5, 6, 11-13)
PHARMACOLOGY-BIOCHEMISTRY SEMINAR: "Guanine Nucleotide Binding Regulatory Proteins and Adenylate Cyclase", Alfred G. Gilman, Pharmacology, University of Texas, Dallas, TX, 2:30pm, NU 103
UNIVERSITY THEATRE: A Tribute to Early 19th Century Drama, 8pm, SI; for information 264-2094 (also March 5-6, 11-13)
CAMPUS ELECTIONS CANDIDATE FILING DEADLINE
COMPUTING SERVICE'S SHORT COURSE: "Intermediate SAS", 3pm, 6 sessions, ET Enterprise Room; for information 264-4292
MID-TERM
LAST DAY FOR AUTOMATIC W, CREDIT/AUDIT

BIOPHYSICS SEMINAR: "Emission Computed Tomography", Bob Anger, Methodist Hospital, 12-1pm, MS 205
