CHANCELLOR IRWIN PLEDGES GREATNESS FOR IUPUI

IUPUI, already the fourth largest campus in Indiana, " . . . will be a great campus in a great city in a great state," Chancellor Glenn W. Irwin, Jr., pledged last week in his first address to the IUPUI faculty since his appointment as chancellor two months ago.

Dr. Irwin made two major announcements to the faculty in his address:

- Ground will be broken Wednesday for a new Science-Engineering-Technology Building on the University Quarter campus. The \$6.5 million project which will complete the first half of the first phase of the building, will combine I.U. and Purdue programs in the same building.
- I.U. will ask the Indiana General Assembly for a \$940,000 supplemental appropriation for the IUPUI operating budget next year. If the Indiana Commission on Higher Education approves a requested 5 per cent fee increase for IUPUI, the legislative request will be reduced to \$470,000. The supplemental request is forced by deep cuts made in the IUPUI budget request last year, by the continuing costs of inflation, and by substantial enrollment increases.

The progress toward greatness at IUPUI is continuing despite public debates on higher education in Indiana, said Dr. Irwin.

One measure of progress is enrollment, up to 17,666 from 16,938 last fall. This increase was the largest recorded at any I.U. or Purdue campus in Indiana and was accomplished despite national trends toward smaller enrollments, said Dr. Irwin. "This growth . . . supports current projections which indicate a total enrollment of about 20,000 within five years," he said.

The sorts of students enrolling at IUPUI also represent an indication of IUPUI's future, said Dr. Irwin. "About half of all of our students are part-time, most are employed, and a relatively high proportion are married. They also tend to be older than students at residential campuses. Some, in fact, are older than their professors," he said.

These factors -- the urban location of IUPUI and the untraditional diversity of its students -- mean that IUPUI must find its own patterns for development.

"We must recognize that our geography presents us with obligations and opportunities which are truly unique in Indiana higher education," said Dr. Irwin.

"While we are part of two great university systems, the patterns of successful response to those obligations and opportunities cannot be found in the history and traditions of other campuses."

Chancellor Irwin said the development of IUPUI would procede from several bases:

(continued)

- "We must look to the other institutions with which we share this city and work out effective relationships which are beneficial to those institutions and pertinent to the purposes of higher education."
- There must be careful planning for the allocation of scarce resources and the establishment of developmental priorities, he said.
- IUPUI must pursue "co-operative innovation." IUPUI includes a broad spectrum of disciplines and professions, offering unusual and exciting opportunities for organizing teams of faculty members whose combined talents could be applied to interdisciplinary programs."
- IUPUI must develop its own set of missions and purposes which are relevant to the requirements of its students and appropriate to its location in Indiana's largest urban area. These missions and purposes should be the guidelines for all academic, research, and public service programs.

GROUNDBREAKING FOR SET BUILDING SET FOR WEDNESDAY

Ground will be broken by state, city and university officials at 11 a.m. Wednesday for a new Science-Engineering-Technology (SET) building on the southeast corner of West Michigan and Blake streets. Completion of this first phase of the building, the first to house both Purdue and Indiana University programs, is scheduled for late 1975.

On hand for the occasion will be Indiana Governor Otis R. Bowen, Indianapolis Mayor Richard G. Lugar, I.U. President John W. Ryan and Purdue University President Arthur G. Hansen. Chancellor Irwin will serve as master-of-ceremonies. All faculty, staff and students are invited.

The current construction, costing \$6.5 million, represents one-half of the first phase of the planned structure. Current plans for the initial use of the building include space for programs in construction technology, manufacturing technology, electrical technology and some accommodations for mathematics, physics, computer technology and psychology.

The exterior of the structure will feature brick and pre-cast concrete, blending with neighboring campus buildings; the project also includes a 450-space, paved and landscaped parking lot.

Three Indianapolis firms are prime contractors: Glenroy Construction Company, general contractor; E.G. Brown, Inc., mechanical contractor, and the Sanborn Electric Company, electrical contractor. Architects are the University Building Associates.

CALENDAR CHECK-OFF

Ibsen Lives! -- "Hedda Gabler," the Henrik Ibsen classic, is on state this weekend and next at the M Building theater. Friday and Saturday showtimes are 8 p.m. with Sunday matinees at 2:30 p.m. Tickets are \$2 for this Speech and Theater Department production. For reservations, call Ext. 7659 or Ext. 4935.

Monday -- "Interaction of Hemoglobin and Myoglobin Studied by C-13 Nuclear Magnetic Resonance," Biochemistry Faculty Seminar by Dr. Frank R.N. Gurd, professor of biochemistry and chemistry, IUB; Medical Science Building, Room 326, 4 p.m. (3:45 coffee).

Tuesday -- "In Vitro Growth of Bone Marrow Cells," Medical Genetics Seminar by Dr. Arnold J. Altman, assistant professor of pediatrics; Riley Research, Room 138; 4 p.m.

Dean's Convocation Series -- Professor Joan Lauer, Department of Psychology, will discuss "Effects of Cortical Spreading Depression upon a Learned Discrimination" at noon Wednesday in the faculty lounge of the Krannert Building, 38th Street Campus.

Out of This World -- "Planetary Atmospheres: New Studies of Mars and Jupiter" will be discussed at 8 p.m. Wednesday by Dr. Tobias Owen of the State University of New York at Stony Brook. Place is the science lecture room of the Gallahue Science Hall at Butler.

Academy Award Movie -- "Sergeant York," with a 1941 Oscar-winning performance by Gary Cooper, will be shown at 8:15 p.m. Wednesday in Lecture Hall 102. Admission is free.

Open House -- The Medical Center occupational therapy students will hold an open house Saturday (November 10) from noon to 4:15 p.m. in Room M124 of the Union Building. The film, "Making a Difference," will be shown, followed by tours of the O.T. departments at Riley, Long and Larue Carter hospitals.

Prospective Art Students Welcomed -- An open house at the Herron School of Art will be held Monday, November 12, for high school students, their parents, art teachers, counselors and school administrators. Two programs are available, from 9 a.m. to 11 a.m. and from 12:30 p.m. to 4:30 p.m.

WAT'S GOING ON

"Today's Medicine," a series of live Continuing Medical Education programs with two-way communication, begins its second "season" on WAT 21 Tuesday at noon.

"Dysfunctional Uterine Bleeding" is the first presentation of the year with Dr. Robert E. Cleary, associate professor of obstetrics and gynecology. Viewers at Medical Science 119, V.A. Hospital, Marion County General and 20 other hospitals around the state may use the telephone "talkback" to discuss the topic with Dr. Cleary. Programs originate from the School of Medicine TV Studio in University Hospital.

These live programs are accepted by the AMA for Category I credit toward the AMA Physician's Recognition Award. WAT 21, closed circuit medical television, is operated by the Medical Educational Resources Program of the School of Medicine.

SHOWCASE OF MUSIC

A performance of classical music by harp and guitar will be given at IUPUI on Tuesday, November 13, as the third program in the Showcase of Music series.

The program will be in the Lecture Hall Building at 8:15 p.m. Tickets are available for the public at \$1 each, student tickets are free. Tickets may be obtained at the door on concert night or at the alumni office in the Union Building.

Featured will be Eleanore Schettler on the harp and Javier Calderon on the guitar. Both teach music at IUB but have performed professionally for several years.

NEWS 'N' NOTES FROM HERE 'N' THERE

Keep Those Cards and Letters Coming -- IUPUI is nearing its United Way goal but there are still a lot of missing pledge cards. Please send them in so the campaign can be completed.

Get Healthy -- The Union Building Health Club is open for business from 10 a.m. to 10 p.m. Monday through Friday and from noon to 10 p.m. on Saturday and Sunday. For more information, please call Ext. 4738 or Ext. 7142.

Lead Times -- Because of the Print Shop's ever-increasing work load and the inability to expand due to space limitations, the turnaround times have steadily increased over the past several months. For example, the necessary lead time needed for the printing of books is now 10 weeks. This 10-week lead time also holds true for books printed in any of the Duplicating Centers (38th Street, law, nursing). If you have questions about the time required to handle your work, please call the Print Shop or the Duplicating Center you plan to use.

Bookstore Shuffling -- The Bookstore has moved some of its people with an aim to improving efficiency. Now in Room 103-104 on the Union Building mezzanine are Mrs. Barbara Simonton, textbook manager, Ext. 3961, and Mrs. Kathy Bumen, accounts receivable, Ext. 7169. Also, faculty members should send in their book requests for the spring semester as soon as possible to the director's office, Room 103, Union Building.

Move -- The Department of Preventive Medicine has moved from the Allied Health Building to newly renovated quarters in Room 150A of Ball Residence. This is the headquarters for the Graduate Program in Health Administration headed by Dr. Samuel H. Hopper and for the courses in Public Health-Environmental Health and Public Health Education. Besides Dr. Hopper, faculty members associated with these programs are Professor H.S. Adams, director of environmental health; Dr. John M. Doty, assistant professor, and William Oleckno, instructor. Clerical staffers are Mrs. Gloria Matthews and Miss Margaret Wilson.

Grant -- Dr. Wayne Cady, assistant professor of chemistry, has received \$7,500 grant from the Petroleum Research Fund of the American Chemical Society to cover his research on "The Effect on Spectral Properties of Collision-Induced Transition between Molecular Rotational States."

Appointment -- Miss Sally Knox, R.N., has been appointed acting chairman of Medical Nursing Services.

Lost -- School of Nursing pin (gold with blue background with initials FGHSN on front) lost. Please call Ext. 7742. Reward offered.
