ATTENTION SUPER SLEUTHS!

Vending machines at the Medical Center, particularly at Riley Hospital, were robbed on two weekends (July 31 and August 1) by person(s) using keys. Machines owned by the same vending company at other Indianapolis hospitals were hit on the same weekends. The company feels that there may be a gang that somehow has obtained possession of master keys operating in the area. If you see anyone opening the vending machines on weekends or at nights during the week, report it immediately to the Campus Police.
