INScope

Weekly news for faculty, staff and students from the
Indiana University School of Medicine

top headlines

Collaborative learning

IUSM and IUPUI will collaborate with Eli Lilly to provide working scientists access to advanced degree programs.

Domino effect

IU researchers have identified events that cause bone marrow inflammation and can lead to blood disorders and cancer.

New appointments

Three IUSM faculty members have been selected to help lead the school's diversity affairs.

editor's picks

News to Use

IUSM this week

IU Health announces flu shot deadline, Eskenazi Health to open The Commonground and Graduate Medical Education relocates.

Opportunities

Biospecimen access

Applications are sought to access biospecimens for research on coronary artery disease and type 2 diabetes.

Grants

Grants and awards

features of the week

story

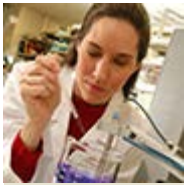

Food for a cause

Indianapolis food trucks are providing convenient and tasty meals for the IUSM community -- and raising money for research and patient care at Riley Hospital for Children -- thanks to a research scientist at the Wells Center for Pediatric Research.

podcast

'Sound Medicine'

IUSM researchers earned about \$6.5 million in grants and awards, excluding commercial projects, in June.

Kudos

Honors

Kenneth White is among the IUSM faculty members recently honored for achievements in research and academics.

faculty & staff spotlight

Advocate for health

IUSM faculty member Elaine Cox was invited by Congressman Larry Bucshon to testify before the U.S. House Science Committee.

student spotlight

Laura Vater

The IUSM-South Bend student's research has been published in the Annals of Internal Medicine and attracted attention from national media.

This week, "Sound Medicine" speaks to IUSM faculty member Nydia Nunez-Estrada about how to protect against antibiotic-resistant cellphone bacteria. Other topics include health care in prisons and the link between depression and diabetes.
