

IUPUI GAC Reviewer Form

Documents Reviewed: Integrated BS in Health Information Management and MS in Health Informatics

Summary of Proposal:

1. Are the goals clear and achievable?
Yes. The proposal is to streamline the curriculum of existing BS and MS programs to consolidate some overlapping content, thus accelerating the time to completion for students earning both the BS and MS degrees.
2. Is the program academically sound?
Yes.
3. Are faculty resources available to offer this program without undercutting other key missions of the unit?
Yes, no new resources are required.
4. Is there overlap, either real or potential, with any other unit that could harm the program or be exploited to help the program?
No. The proposal merely streamlines existing curricula.
5. My recommendation, comments/concerns regarding this proposal
I recommend approval.
One minor correction – the first paragraph of the proposal summary states, “the integrated degree program will also enhance student recruitment and retention for both Schools”. Only one School is involved in this proposal.
