Reserve courses starting April 13

Students planning to attend IUPUI this coming summer or fall can select and reserve their courses during early course reservation April 13-24.

Early course reservation will be held in the Registrar's Office, Room 301, in Cavanaugh Hall, 925 West Michigan Street. Hours are from 9 a.m. to 8 p.m. weekdays, 10 a.m. to 4 p.m. Saturday, closed Sunday.

IUPUI's first summer session begins May 13 and ends June 24. The second summer session begins June 29 and ends Aug. 24. The second summer session begins June 29 and ends Aug. 10. Fall classes begin Aug. 28.

Fee payments for reserved classes are not due until just before the summer or fall sessions begin. To reserve courses early, students must be admitted to IUPUI and have course enrollment cards signed by counselors or advisors from the school or division in which they enrolled. Counselors will be available during early course reservation.

Class schedules for both summer sessions and the fall term are available in the Registrar's Office. For more information, call the IUPUI Office of Admissions, 264-4891, or the Registrar's Office, 264-4918.

Trip
The Society of Manufacturing Engineers will sponsor a trip to St. Louis April 9-10. Interested students may contact the Manufacturing Technology office.

Seminar
"The Developing Brain and Child Language" will be the topic discussed April 9 at 3:15 p.m. in the School of Nursing Auditorium. Dr. Peggy C. Ferry will be the featured speaker.

Rape
The Student Assembly is sponsoring two seminars aimed at giving women tips on how to avoid rape. The seminars will be April 13 at 1 p.m. in LE 101, and April 14 at 8 p.m. in LE 102.

Shroud
Daniel Scavone, a professor of history at Indiana State University Evansville, will give a lecture April 8, at 2:30 LE 100. "The Shroud of Turin" will be the topic of the lecture.

High Anxiety
Dr. Constancia Clodfelter will hold several workshops during April. The workshops will be geared towards the subject of "Test Anxiety." For more information call 264-2548.

Summer
Students planning to attend IUPUI this summer or fall can reserve their courses April 13-24 in the Registrar's Office. Hours are from 9 a.m.-8 p.m. weekdays and from 10 a.m.-4 p.m. Saturday. For more information call 264-4891.

Cosmochemistry
Professor Michael E. Lipshutz from Purdue University will conduct a seminar titled "Cosmochemistry: Extrasolar Chemistry Is Not Necessarily Spaced-Out" Wednesday, April 8, 1981, 4:30 p.m. at the Krannert Building Room 231.

Accolade Honor Society will have a business meeting April 11, at 11 a.m. in the Faculty Lounge of Cavanaugh Hall. Accolade wishes to thank all students, faculty and administrators who helped to make the Blake Street Library Book Sale a successful event.

Women's Caucus
The Women's Caucus of the School of Public and Environmental Affairs will meet Monday, April 13, at 8:15 p.m. in Room 107 of the Nursing Building. For more information contact Carol Jones, 317-364-0714, or leave letter in the message box, Room 102, Nursing Building.

Bible
Open discussion on "Is The Bible Enough" will be Monday April 13, at 7 p.m. at Catholic Student Center, 1309 West Michigan St. Come and ask the questions you've always wanted to about the Catholic Church and the Bible. Monsignor Raymond Bosler, a well known national columnist will introduce the discussion.

Photo
The Women's Studies Program is sponsoring a photography contest April 9 through May 1. The entries will be displayed in the lobby of the University Library where ballot box style voting will take place. All entries must be received by April 15. For more information, contact the Women's Studies Program CA 504L or call 264-2812.
Two-year J program

Last Saturday, the IU Board of Trustees met in Indianapolis. Among the issues voted upon was the system-wide School of Journalism. The Board of Trustees voted and approved a two-year journalism degree program to be established at IUPUI and the six regional campuses. After finishing the two-year program at the regional campuses, the students will then have to transfer to IU-Bloomington to complete their degrees.

To quote the Indiana Daily Student, "The system-wide school will be coordinated by a dean in Bloomington. Either one full-time or two half-time associate deans would aid the journalism school dean." Ralph Holsinger, a journalism professor and chairman of the committee which recommended the system-wide school, was indirectly quoted by the IDS as saying that control over journalism classes offered at IUPUI and the regional campuses was one of the reasons the plan was proposed.

A direct quote of Holsinger in the IDS said, "I think we have something pretty special here at Bloomington and we would just like to make sure that we have that something special at Indianapolis and the other campuses."

The system-wide plan will also establish a master's degree program at IUPUI that will allow professional journalists in Indianapolis to take advantage of the courses.

A two-year program at IUPUI will only hamper the efforts of IUPUI to establish a journalism major. The new program will possibly mean a loss of classes all ready in the curriculum. Not only that, but it will possibly mean a loss of faculty currently at IUPUI. The step toward a system-wide School of Journalism feels more like a step backwards for IUPUI.

The demand here is for a journalism major, not a two-year program. Several of the students here are forced to attend IUPUI because of convenience, work and family and are not able to transfer to IU-Bloomington to finish a degree. Realistically, there is no reason for them to have to go to Bloomington. The demand is here and the students are here. The only thing that isn't here is the journalism major—a full, four-year, journalism major.

If the program is to be run from Bloomington, then why not use Bloomington faculty to teach the courses here? If the curriculum is going to be the same as Bloomington's, then why not put more than two years here? If the faculty and curriculum are from Bloomington, then why not put the major here? What it really gets down to, is the location of the program. Even though Bloomington will be running the show, designing the changes, hiring the faculty and controlling the curriculum, the journalism degree will still be granted only in Bloomington.

Should forty miles make that much difference? Should IUPUI be granted only a two-year program? Should the students wanting a journalism major at IUPUI stand for any of this? The answer to all of the questions is emphatically 'no'.

There are channels the students and faculty can go through to protest the program. The first step is to talk to Dr. Richard Gray, the head of the journalism department at IU-Bloomington. The second step is to talk to Vice President Kenneth Gros Louis, also of IU-Bloomington. The third step is to talk to Dr. Ryan, the president of the IU system. The fourth and final step is to talk to the Board of Trustees.

The two-year journalism program will probably be put into effect this fall. That gives students wanting a journalism major at IUPUI almost five months to make their desires known. If the students band together and make a positive stand for the journalism major, then possibly the necessary persons will be reached.

Mailbag

What's in a name?

To the editor:

What's in a name like Indiana University-Purdue University at Indianapolis? Perhaps a more pertinent question is "What's in an acronym like IUPUI?"

Some element of humor seems to exist in the grouping of the initials I-U-P-U-I. Some individuals insist on mispronouncing those initials to sound like "ooey pooey."

One suggestion for a new name is "State University at Indianapolis." This would call for an acronym of SUI. How long would it be before someone called it "sooey"? (If any pigs came running, you pronounced it right.)

Since acronyms seem to bring out the Don Rickles in people, perhaps an expert on linguistics should be consulted on all proposals for new names and their accompanying acronyms.

On the other hand, we could insist on a new name only when such a change would mean improvement in the school itself. We could spend less time worrying about acronyms and more about quality education.

So, here's a little less "fooey" and a lot more "dooeey."

Barbara Jones
The Seventh Annual Student Activities Honors Banquet

To recognize the efforts of students, faculty and staff who have been involved in student activities at IUPUI

This Friday
(April 10)

Tickets are available in the Student Activities Office, CA 322. Reservations must be made prior to 5:00 pm, today, Wednesday, April 8. Call 264-3931 for details.
Parking

Car lots being moved

by Dana Daugherty

As part of a plan to beautify the campus, parking lots along Michigan Street from West Street to the White River are being moved 40 feet from the curb, and those along New York Street from the bridge to Blake Street are being moved 60 feet back. Sidewalks are being moved six feet from the curb.

According to Robert Tirmenstein, director of Parking Services, the land strip between the lots and the streets will be landscaped with trees and shrubs. "Eventually the entire length of the campus will be outlined by a corridor of trees," said Tirmenstein.

Contractors will start work to plant trees in May the first of June. This means some parking spaces will be temporarily lost. Tirmenstein said this summer they plan to "increase lot capacity and recover those spaces lost in the beautification project." The wooden fence in front of the Engineering and Technology Building will also be removed. At the same time New York Street is being adjusted, the city will widen the street 10 feet.

"Driving will probably be limited to one and two lanes - along New York Street," said Tirmenstein, "but this is no different than what happened a year ago with Michigan Street."

The present, landscaping will be completed by this fall.

IU PU's women's softball
team swept their first three
doubleheaders of the season.

You've already made a first-rate profes-
sional commitment. Now, as you make
the transition from student to practi-
tioner, you must decide where your
nursing program and expectations can be
best realized. We urge you to consider
Saint Mary of Nazareth Hospital Center.
As a major 490-bed community teaching
hospital, we promise you ongoing
opportunities to learn and grow.

From the start, your transition will
be as effortless, yet stimulating as
possible. Our 46-week orientation is
uniquely personalized and structured
around your individual needs. After that,
look forward to regular inservices and
continuing education programs, career
path counseling, up to 100% tuition
reimbursement for work-related studies,
and much more.

At the same time your first job takes
on first class potential, you'll also
enjoy a starting salary from $11,873 to
$18,249; comprehensive life/medical/
dental insurance; commuter van service;
outstanding fringe benefits; and all the
advantages our dynamic atmosphere and
modern setting provide. Saint Mary's
represents the finest nursing career offer-
ning today. For more information or a
personal interview, please call:

Softballers sweep first six games

IU PUU's women's softball

over Marian, St. Mary's and
Indiana Central last week.

Marty Kalb led the Metros
hitters with three hits in as
many plate appearances. Kalb
also had three runs batted in and
scored a run. Tina Massauguez
had three RBI's while Mary
Taylor, Judy Cummings and
Judy Fluckebaum each scored
two runs.

Shelly Joyce threw a no hitter
in the Metros-70 second game
win. IU PUU traveled to Terre
Haute where they routed host St.
Mary's 38-0 and 30-7. Vicki Ford
threw the Metros second no
hitter of the year in the first
game of the double header.
IU PUU scored eight runs in the
first, 12 runs in the second, 14 in
the third and four runs in the
fourth inning as the
game was halted after five
innings.

Trudy Bournath was the Metros
leading hitter in the second
game with five hits in six plate
appearances. Cummings scored
six runs, hit a double and a triple
to go with two home runs and
five RBI's. Mary Taylor pitched
five innings to get credit for the
win.

Indiana Central put the
Metros perfect record in
jeopardy in the first game of the
double header Thursday. The
two teams went into extra
innings with the score tied 1-1.
IU PUU scored two runs in the top
of the eighth to open up a 3-1
lead. IU PUU's first two hitters
in the bottom of the eighth made
cuts to make things worse.

Taylor then hit an inside the
park home run and Kalb singled

(continued on p. 8)
"Gamma" grabs audience

by Tim Barnett

You can't judge a book by its cover is a trite expression that can most effectively describe the University Theater's production of "The Effect Of Gamma Rays on Man-In-The-Moon Marigolds," The near sell-out audience was deeply touched at Saturday nights performance as the three female cast members portrayed each character with professional excellence.

The play, written by Paul Zindel, is the story of a mother, her two daughters, and a boarder. The youngest daughter Tillie, played by Susan Rosencrans, is an introverted young lady still in high school and very interested in science. The eldest daughter Ruth, played by Mary White, is also in high school and has a history of mental problems. Beatrice, the mother of the two daughters, is portrayed by Wanda Sewell. Beatrice displayed much depression, alcoholism, and frequent mood changes. Nanny, the boarder, was portrayed by Maria Russell. Her portrayal of the line-less part is very effective as she plays an elderly invalid.

Sewell's first entrance in the play seemed almost too powerful; however much to the surprise of the audience, she developed the character even further. Her frequent mood changes made her a colorful character in the scene. She displayed her total acting ability. In this reporter's opinion, the part was played to its highest possibilities.

White provides the audience with a lot of comic relief. Her portrayal of a young woman, up on the stage, comes across as very humorous, but she also displays much dramatic ability in Act I Scene IV. Here, she and her mother share memories of the past after she (Ruth) has a nightmare. In this scene she comes on strong with her past mental problems which shows her expertise on the stage.

Excellent, touching, and first-class adjectives that can best describe Rosencrans portrayal of Tillie, the youngest daughter. Although she has very few lines, she is on the stage throughout the entire play with the exception of a few scenes. Her stage presence is excellent along with her characterization. Again her character became stronger as the play progressed.

The technical aspects of the show cannot pass without mention. The set in superior to any set this reporter has seen in quite awhile. The special effects, tape recording at the beginning and end of each scene, is very appropriate. James Walker, technical director, deserves applause for his excellent work.

The Effect of Gamma Rays On Man-In-The-Moon Marigolds," directed by Dr. Dorothy Webb, will run this Friday through Sunday. The show goes up at 8 pm on Friday and Saturday and at 2:30 pm Sunday.

Intense play at IUPUI

A short, intense play, "The Effects of Gamma Rays on Man-In-The-Moon Marigolds," will be performed April 10-12 by the University Theater at IUPUI.

The Paul Zindel, Obie Award-winning drama about 20th Century living, is directed by Dorothy Webb, professor of speech, theater, and communications in the IU School of Liberal Arts.

The all-female cast from Indianapolis includes Wanda Sewell as Beatrice—a bitter, disillusioned woman. Beatrice has a history of loving middle-aged mother. Susan Rosencrans plays her other, young lady still in high school, and very interested in science. The eldest daughter Ruth, also a professor of speech, theater, and communications in the IU School of Liberal Arts.

Also in the play is Maria Russell, 21, who plays the role of Nanny, a 90-year-old woman. Nancy Peterson portrays a teen-age classmate. Michelle Shady, an IUPUI student from Cicero, is assistant director.

The play will be performed in the Marott Building, 902 North Meridian Street. Curtain time is 8 p.m. on Friday and Saturday, 2:30 p.m. on Sunday. Tickets are $3 for adults, $2 for students and are available at the IUPUI theatre box office in the Marott Building. For more information call 264-2094.

Aging from 21 years old to 91 should take about 70 years, but TUPUI professor J. Edgar Webb used paint, powder and brushes and in less than an hour turned this attractive IUPUI student, Maria Russell, into a sick, old woman.

"Stage make-up is the same as painting a portrait," says Webb, "Except that it's three dimensional. The process is quite gentle, but requires much skill on the part of the actor. The young woman must wince, frown, laugh, grimace, so that Webb can find her nearly flawless face. Where her aging lines will someday be.

The make-up is thick and must be rubbed in and then pushed on a brush to blend into a believable mask.

Great clouds of dust go up when Webb dusts ample amounts of loose white powder on the near-final "canvas." The dust whitens the skin, sets the paint and gives a dry, parched look to the girl's young skin. Finally, a special sponge dabbed into brown paint is dabbed over the face, and large pores seem to appear.

This same make-up will be used on Maria Russell when she appears as a very old woman in Paul Zindel's dramatic play, "The Effects of Gamma Rays on Man-In-The-Moon Marigolds," to be performed April 10-12 by the University Theater of IUPUI. Dr. Webb's wife, Dr. Dorothy Webb, also a professor in drama at IUPUI, is directing the play.

21 to 91 in an hour

Aging from 21 years old to 91 should take about 70 years, but TUPUI professor J. Edgar Webb used paint, powder and brushes and in less than an hour turned this attractive IUPUI student, Maria Russell, into a sick, old woman.

"Stage make-up is the same as painting a portrait," says Webb, "Except that it's three dimensional. The process is quite gentle, but requires much skill on the part of the actor. Dr. Webb's wife, Dr. Dorothy Webb, also a professor in drama at IUPUI, is directing the play.
to bring Cummings up with two outs and the Metros down 3-2. Cummings responded with a triple deep into the left field corner to send the game into another extra inning.

Bernath opened the bottom of the ninth with a single and ended up scoring the winning run on a single by Kathy Presnal. Bernath was the winning pitcher for the Metros by throwing the full nine innings.

IUPUI's second game win was a great deal easier as the Metros scored six runs in the second inning and went on to win 10-4. IUPUI had just two hits but 17 walks proved the difference as Joyce won her second game of the season.

Cummings is the Metros leading hitter through six games with a .647 batting average. Kalb is close behind with a .636 average while Bernath is currently hitting .500. As a team the Metros are hitting .319 and have scored 86 runs in six games.

Cummings is also the Metros leader in RBI's with 10. Masengale has eight RBI's and Kalb has seven RBI's.

Monday the Metros faced Butler and split the double header and the Metros will host Taylor today at 3:00 at Metropolitan Softball Stadium located at 2005 North Sherman.

Friday the Metro's will travel to Evansville to play ISU—Evansville and Saturday afternoon IUPUI will visit the University of Evansville.

Metros lose

by Ann Miller
The young IUPUI Baseball
team has had a rocky start this
spring. On their spring break
trip to Florida, the Baseball
Metros posted a 1-6 ledger
overall. However, because five
of their opponents were Junior
Colleges, their official record
was 1-1. Against 4-year colleges,
the team squeezed past Edward
Waters College (Jacksonville
FL) 6-5, and lost to Ashland 8-0.

Students honored

University Division is pleased to announce the freshmen men and women who have exhibited superior academic achievement at IUPUI and who will be initiated into national honorary societies, Alpha Lambda Delta and Phi Eta Sigma. To be eligible, each student must have earned a minimum of 3.5 grade point average on a 4.0 scale and completed between twelve and twenty-six semester hours.

This year's initiation ceremony will take place at 7:30 p.m. on April 21, 1981, in the Hoosier Room of the Indiana University Medical Center Union Building. Dr. Marshall C. Yovita, Dean of the School of Science, will speak on "The Future of Science." A reception will follow.

The trip was cut short when Coach Bob Bunnell came down with a kidney infection. Seeking medical attention, he was directed to the only doctor on call at a small-town hospital. "Honest," laughs the now-recovered Bunnell, "his name was Jose Jimenez."

Returning home, the Metros were pounded 12-1 and 11-2 in a doubleheader with strong Butler, then were blown out by Marian College, 17-5.

"Our pitching has been the primary problem," Bunnell says of his 1-4 ballclub. The metros have three freshman hurlers in their starting rotation, all of whom have some adjustment to make in switching from high school to college ball. "They're not used to pitching to nine good hitters in a row," cites the coach. "They're losing concentration in the middle of the batting order."

"Although he terms the infield defense as 'excellent' and the overall defense 'not that bad,' he points out that the outfield has had difficulty. "Our outfield play has not been very good. There's a lack of communication. Nobody is taking charge out there."

Bunnell is also concerned with the team's hitting. Sean Corrigan, hitting .376, and Dave Decker, hitting .364, have been batting exceptionally well. But the team needs more power from Steve Dixon, Terry Dorris, Cliff Kelly, and Ralph Skaggs. "The team's collective batting average is about .190, and we've been leaving a lot of men on base," notes the coach.
