Py-co-pay brushes...

now
"duratized"
for longer life

... now supplied with
Py-co-tips
for interdental stimulation

Py-co-pay
TOOTH BRUSHES and TOOTH POWDER

The Py-co-pay Brush—long the profession's "first choice" because of its outstanding design—now becomes *better than ever*. Those provided with natural bristles will now be "duratized"—Py-co-pay's special patented process for prolonging the useful life of natural bristles *up to three times* ... protecting against "wet breakdown" ... preventing sagging or matting. "Duratizing" insures amazing "flexible stiffness" that means longer brush life ... better tooth cleaning during the greater period of use. Also, every Py-co-pay Brush will now be supplied equipped with a Py-co-tip *interdental stimulator* affixed to the brush handle, ready for your patients' use according to your instructions. Thus, the name of Py-co-pay (Py-co-pay Brush, Py-co-pay Powder, Py-co-tip) continues to connote the ultimate in efficiency and safety in oral hygiene ... to merit more than ever your recommendation to your patients.

A free and non-profit bulletin issued by Indiana University School of Dentistry, Indianapolis, Indiana, for the purpose of keeping its alumni informed of the activities and progress of the school.

Department of Periodontia

Henry M. Swenson, Assistant Professor of Periodontia

Dr. Henry M. Swenson

In this era of prevention of disease, it is natural that periodontia should receive more emphasis in general practice than it ever has before. Dentists have found that many cases that formerly were considered hopeless can be treated satisfactorily. In keeping with this demand by the dentists and the public, the Periodontia Department of Indiana University School of Dentistry has been reorganized.

The students are first introduced to periodontia in the oral hygiene course in the second semester of the sophomore year. In the course they are instructed in the proper care of the mouth, including the various tooth brush techniques. An 800 foot movie is shown to illustrate the use of all the prophylactic instruments issued. Before they are permitted to work on clinical patients, students are required to complete a prophylaxis on a fellow student. This enables the instructor to give more instruction to the student concerning chair position, the use

of various instruments, etc. without endangering student-patient relationships.

In the junior year, the students receive lectures on all conditions related to the field of periodontia. They are instructed in the various treatments for these conditions and the results they can expect. The students are taught a practical procedure for occlusal equilibration and are given an outline summarizing this technique which is applied in their clinical practice. In the clinic the student first does an uncomplicated prophylaxis and gradually works into the more difficult cases. We emphasize to the operator in these more difficult cases the importance of completing a section of the mouth at each appointment rather than trying to cover all four quadrants haphazardly.

Since the Periodontia Department is now open on a full-time basis and no longer a special assignment clinic, the student is able to complete treatment on his patients. When a series of visits is completed, the patient is placed on recall and the original student is expected to follow the case until the end of his senior year. During the period between recall appointments, the patient continues with proper home care as instructed by the student. On the follow-up examination, several months later the operator can see whether the results of his work were successful.

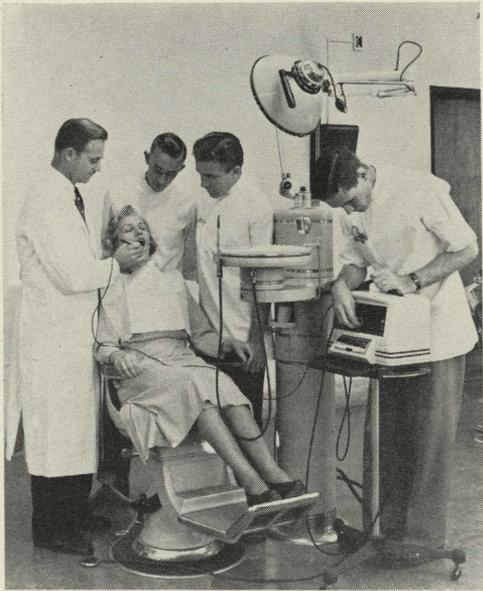

Some cases are unusual and may require more than the routine curettage. Various techniques for occlusal equilibration and gingivectomy are demonstrated to the students. They are permitted to do gingivectomies and occlusal equilibration when they have demonstrated their ability in those procedures. To supplement the clinical instruction in the surgical technique, members of the Periodontia

(continued on next page)

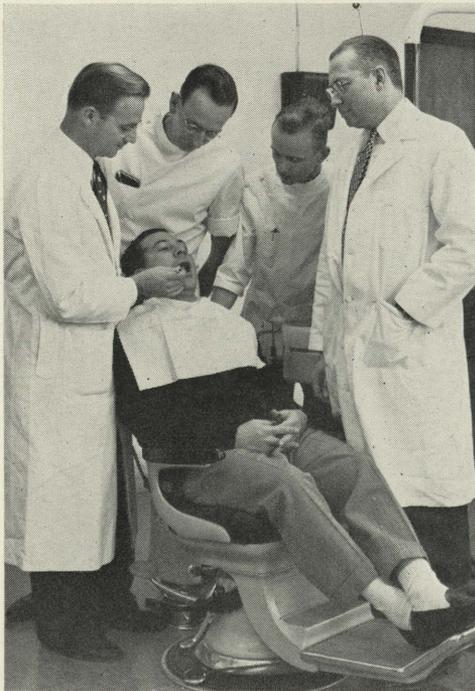

Department cooperated in preparing a 1600 foot motion picture showing the method to be used. It is the philosophy of the department that gingivectomy is not necessary in a large percentage of patients but that there is the occasional case where it is indicated.

The teaching schedule has been arranged to keep abreast of the accepted developments in the field of periodontia and to broaden the students clinical experience. By teaching the students the basic fundamentals and then insisting they receive sufficient clinical experience, we believe they will be able to master the periodontal problems arising in the general practice of dentistry.

(This is the fifth article in a series featuring the function and plans of various departments in the dental school.)

Dr. Swenson demonstrates special technique to senior and junior students.

Dean Hine and Dr. Swenson discuss patient diagnosis with students in periodontia clinic. Drs. Edith Davis, Conley Robinson, and Joseph Nolan, the other members of the periodontia staff, were not present when this photograph was taken.

IUSD Alumni Association 1949 Annual Meeting

The 1949 annual meeting of the Indiana University School of Dentistry Alumni Association was held on October 7 and 8 on the University campus. As a result of splendid cooperation from Mr. Claude Rich, University Alumni Secretary, and his staff, the Program Committee was able to present a program of universal interest to the dental alumni, their wives, assistants, and guests who were in attendance.

The annual association banquet was held on Friday night, October 7, with the members of the freshman and senior classes of the dental school as honored guests. The speaker at the banquet, Dr. Bruce E. Forsyth, Assistant Surgeon General, Director of the Dental Division of the U.S. Public Health Service, presented the audience with valuable current information in his talk, *Dentistry's Role in Public Health*. Entertainment was provided

(continued on page 21)

Remodeling of Dental Building Almost Completed

The first major remodeling program for the Indiana University Dental School building is now almost completed. While the building which was constructed in 1933-1934 has been adequate, this extensive remodeling program has made possible a redistribution of floor space which results in a more efficient and up-to-date building.

The most important changes were made possible by the excavation of a basement to allow moving the locker rooms and library stack room from the upper floors. Placing the library on the first floor with a "stack room" just below it in the newly excavated basement locates the library in larger and more convenient quarters. Moving the library also made possible the enlargement of the Radiographic Department, Oral Diagnosis Clinic, and Oral Surgery, Pedodontia and Orthodontia Departments. The shift also resulted in a closer coordination of the various departments and made it easier to assign and route patients from department to department.

Moving junior locker rooms to the basement also made possible the construction of a postgraduate clinic on the third floor. This special clinic is equipped with nine new green units, chairs and laboratory facilities and is a most attractive room. It will be used as an "overflow" clinic for undergraduate students and for special courses for graduate dentists.

The installation of forty-five new units and chairs in the third floor clinic has increased its capacity and efficiency.

Another valuable addition to the dental building has been the installation of an elevator. In the past, many of our patients have been unable to climb the stairs and many others should not have

been allowed to do so. This elevator also facilitates transportation of heavy equipment.

The building has been thoroughly repainted, also, using conservative tones of green, peach, camellia, coral, and gray. The result is a fresh appearing, attractive building which should be conducive to better teaching.

The parking lot at the rear of the dental school has recently been resurfaced and greatly expanded in order to provide ample space for faculty, students, and patients.

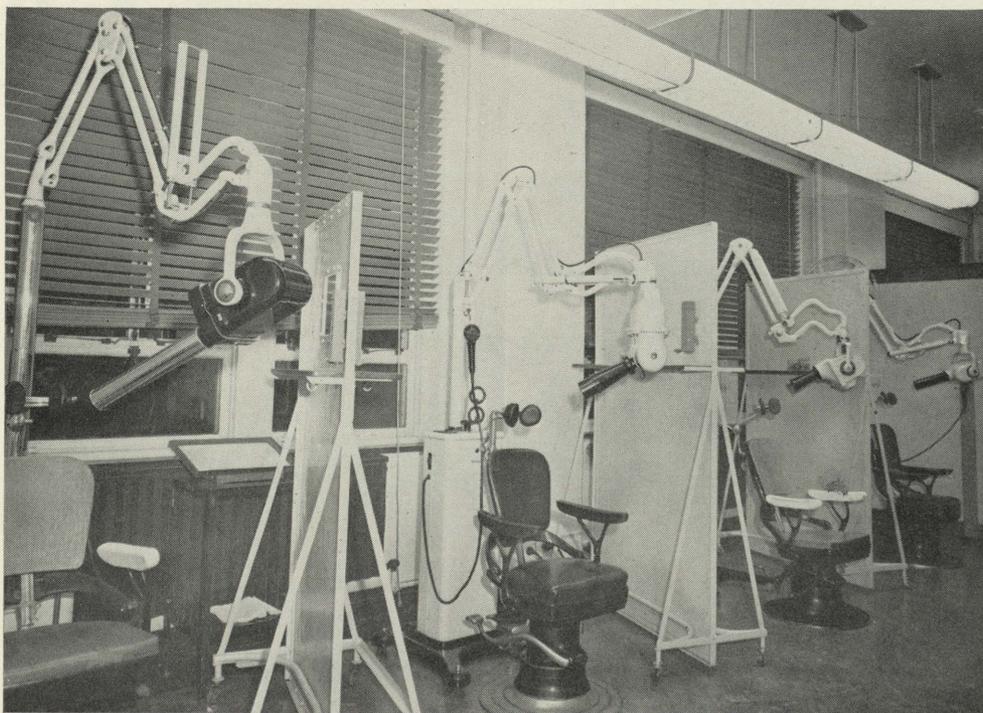

Everyone is invited to visit the dental school soon to see the new facilities.

Mrs. MacDougall in the special mounting room in the X-ray department.

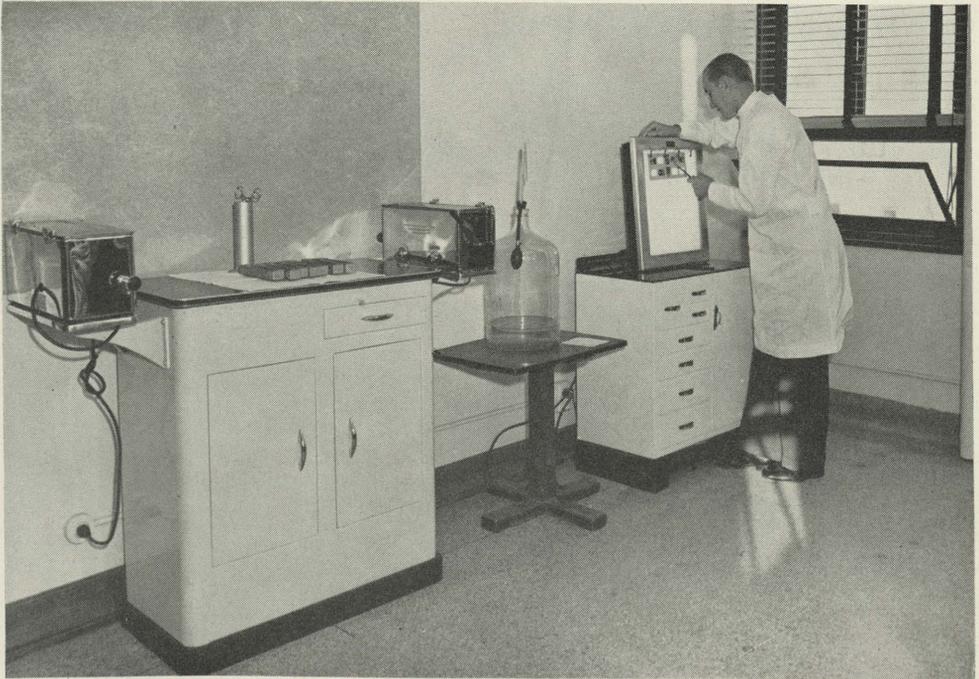

New basement stack room, directly below the library. A spiral stairway and book lift give ready access to this room.

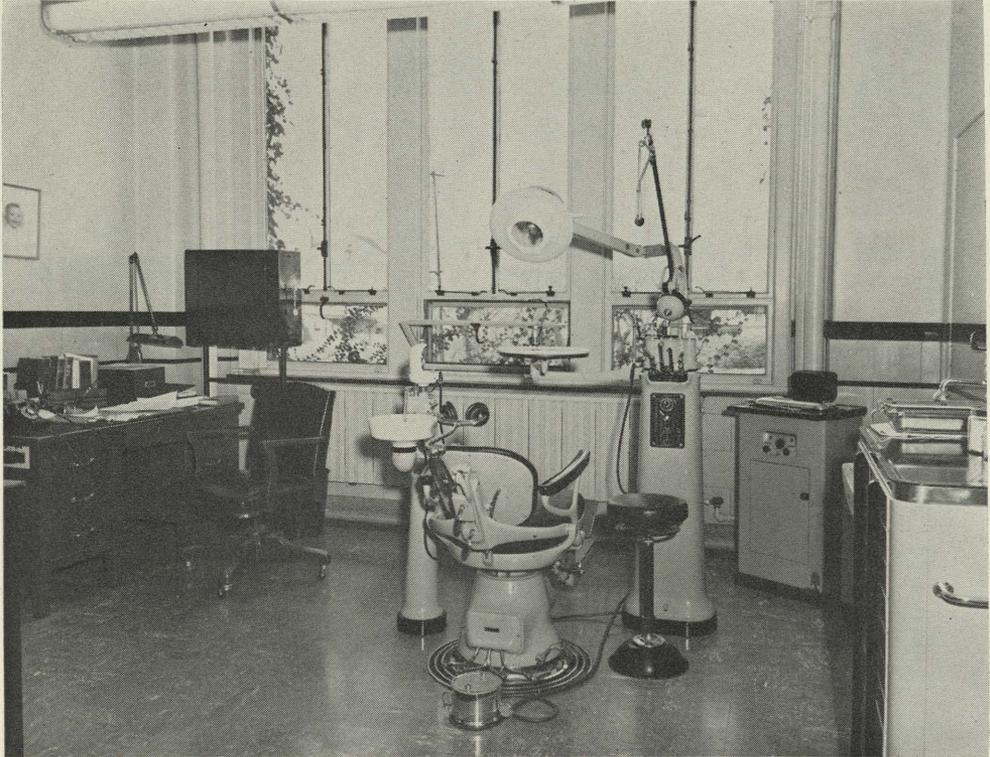

The new X-ray department on the second floor where the library was formerly located.

Main clinic, which now includes eighty-six units and chairs. The new sterilizing room is in the alcove under the clock at the right.

Dr. Ert Rogers examining X-rays in the oral diagnosis clinic. This clinic, which now has four chairs, is located in the space formerly occupied by the senior lecture room.

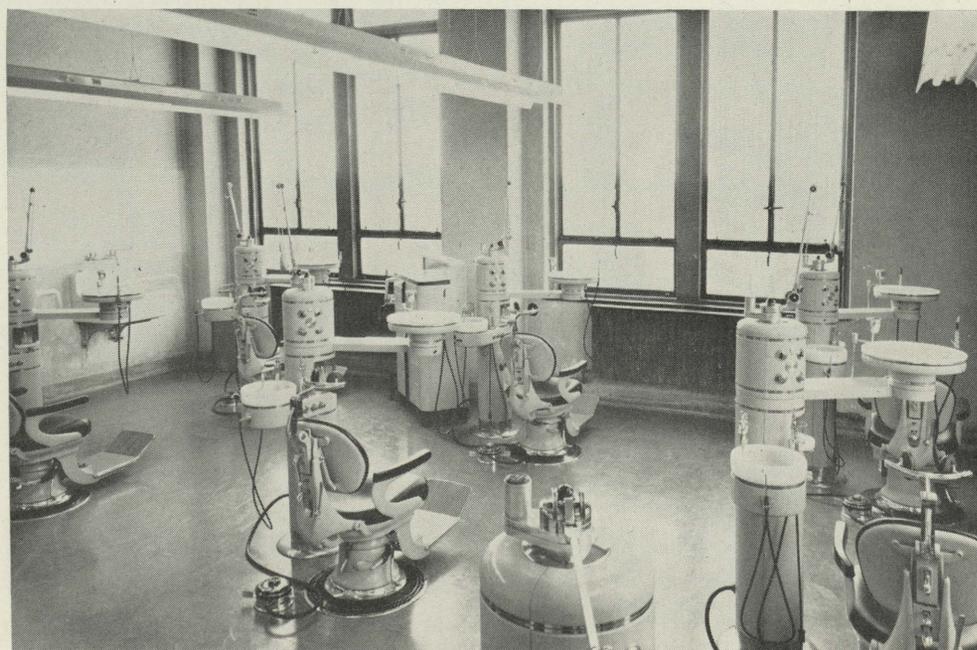

(Above) Special pedodontia office and demonstration unit. Equipment in this room was partially financed through a fund left by the late Dean Frederic R. Henshaw. The facilities in this room also include complete laboratory equipment.

(Left) Miss McCracken assists patient from the elevator on the second floor. The first floor entrance to this self-operating elevator is located in the receiving room at the rear of the building.

Miss Hammond hands Dr. Ping a tray through window in the new sterilizing room of the oral surgery department.

Postgraduate clinic located on third floor.

Alumni Notes

by Mrs. Cleona Harvey

The remodeling program is fast approaching the finish line—our offices have a new coat of paint (each office a different color) and the halls are being painted a light grey. We are very happy about it and hope that one and all of you can plan to come very soon and see us before the “smog” begins to leave its mark.

By the time this Bulletin reaches you we trust you are all settled back in the routine of work after vacations in California attending the ADA meeting, hunting trips in the frosty North, and spending Christmas in Florida with Dr. Hill (at least I know he is expecting you). Only those of us who remain at home can realize the added burden on Uncle Sam’s messengers as we say one to the other, “Doctor is attending the meeting of the ADA in California or hunting or; your inquiry will be called to his immediate attention upon his return”. So with all these activities many of you have had a chance to check up on classmates and the school. Just in case you didn’t get all the news we shall endeavor to bring you up to date. Cupid has been getting in his darts, the “stork” has been busy, doctors have been moving their offices, and we have had visitors and letters from here and there.

First shall we check up on Cupid: Dr. Samuel M. Standish, '45, and Gertrude Elizabeth Eberle were married August 6 and are now at home in Muncie, where Dr. Standish is practicing; Dr. Thomas H. Beavers, April, '44, and Helen Marie Schultz were married October 29, and are now at home in Indianapolis, where Dr. Beavers is in practice as well as giving the Dental School some of his time; Dr. Charles W. Gish, '49, and Treva Metsger were married June 23—they too

are at home in Indianapolis, where Dr. Gish is a dental consultant with the Indiana State Board of Health; Dr. James R. Roche, '47, and Viola Marie Morris were married May 15 and are at home in Indianapolis, where Dr. Roche is in practice as well as assisting the Dental School in teaching pedodontia to some 213 students who are on the Indianapolis campus. Dr. Drexell Boyd reports that contrary to gossip Dr. George Richardson of Marion is *not* married.

The stork has brought added responsibilities to the following: Mr. and Mrs. Richard Schick (the former Evangeline Lutkemeier, '39) have a son, Richard Henry Schick, born July 9; Dr. Calvin Christensen, '48, and Mrs. Christensen announced the arrival of Ann Foster on July 8; Dr. Irwin L. Burack, '47, and Mrs. Burack write they now have a “toothless wonder” called Marshall Robert born March 30; and the latest arrival of which we have been informed is that of Katherine Anita born September 19 to Dr. Norman Alley, '47, and Mrs. Alley of Coconut Grove, Florida

Dr. R. W. Elsea, '26, announces the location of his new office is 2911 Shelby Street, Indianapolis; Dr. Charles A. Rhodes, '46, has moved his office to 301 E. Jefferson Street, Franklin, Indiana; Dr. Lloyd N. Nevel, '47, announces the opening of his office at 107 N. Main Street in Mishawaka, Indiana; Dr. John W. Bach, '49, has opened his office at 104½ N. Lebanon Street in Lebanon, Indiana; Dr. Edward E. Bosh, '49, is at 650 Bankers Trust Building since October 1; Dr. Hayward Flickner, '49, is at 1013 Parrett Street, Evansville, Indiana; Robert Kemp, August, '43, announces the opening of

(continued on page 18)

Odd-dentities

by *Ruhamah Hannah*

Welcome to the new faculty members— Drs. Samuel Patterson, Fred Hohlt, and Tom Esmon, operative; Drs. Paul King and Tom Beavers, prosthetics; Dr. Ronald Ping, surgery; and Dr. E. Byrd Barr, oral diagnosis . . . The new parking lot has been finished and is a great improvement. The area directly behind the dental school has been Macadamized and the parking facilities have been extended to include the south end of the vacant lot west of the building. One section of the parking lot has been reserved for the faculty . . . At the annual meeting of the A. D. A. in San Francisco Dean Hine and Dr. Frank C. Hughes presented papers, and Mr. Ralph Phillips had a paper read. Also, Dr. Ralph McDonald and Mr. Phillips had exhibits . . . Several of last year's graduating class have returned for a visit. Jerry Henderson and Lehman Adams, both in the army, dropped in for a few minutes, as well as Don Biggs, now in Evansville, and Leo Paskash, who has opened an office in Gary. And speaking of last year's graduating class, here's the little I know of their whereabouts. John Bach is practicing in Lebanon, Tom Boardman is in the navy, as is Darwin Reed and Bill Turnley. Ed Bosh has announced the opening of his new office in the Bankers' Trust Building here in Indianapolis, and Walter Dean is in the Hume Mansur Building. Charles Gish is connected with the Board of Health, and Ernst Rosenthal has an office on Oliver Avenue. Joe Lush is interning at Long Hospital, Hayward Flickner is practicing in Evansville, Wigand Kenter in Bloomington, Wendell Lee in Warsaw, and Dan Strapon in Monon. The other boys I have not heard from . . . Other visitors around the school have been Richard Michener, '42, Kokomo; Ed Downey,

'44, Indianapolis; John Beck, '44, Valparaiso; Tony Fisher, '47, Alexandria; and Al Tapia, '46, Waynetown . . . A letter from Harold Matlack, '46, says that since resigning his teaching position with the University of Pennsylvania Dental School he is devoting full time to private practice. He also says, "I am a member of Southern New Jersey Dental Society and was just recently elected to the Board of Trustees. I would also like to report that another prospective hygienist was born to our family last April 22, named Martha Karen . . . Congratulations to the newly-weds, Tom Beavers '44, Jack Calland, '45, and Jerry Henderson, '49 . . . The painting project has almost been completed, only the halls and stairways remaining to be painted . . . Received a letter from Vernon Crosswhite, '47. He writes that he is taking a postgraduate course in surgery and practicing the rest of the time . . . Dr. Ert Rogers, oral diagnosis, recently appeared on the program of the Ben Hur Society at Greencastle . . . A new building is going up in the block west of the dental school property, and will provide us with a drug store and a florist . . . The junior and sophomore class double quartet furnished Christmas carols before we all left for vacation, broadcasting over the p.a. system . . . And that's all for this time.

Dean Hine Honored

Dr. Maynard K. Hine was recently honored at the annual meeting of the American Dental Association in San Francisco by being elected President of the American Association of Dental Editors. The faculty and alumni wish to congratulate him upon this distinct honor both to him personally and to Indiana University School of Dentistry.

Library

by Rita Lee Downing

The Library has a growing collection of rare books to which we are adding each year as titles become available from dealers, libraries, and collectors.

The oldest book which the Library owns is *A Treatise on the Teeth*, 2nd ed., by A. Tolver, published in London in 1752. Tolver mentioned only wax as a filling material and advanced the theory that the loss of teeth with aging is advantageous since it limits the kind of food which can be eaten.

Our next oldest book is John Hunter's famous *Practical Treatise on the Diseases of the Teeth*, published in London in 1778. Included as part of this volume is his *Natural History of the Human Teeth*, first published in 1771. According to Guerini these titles "initiated in England a new epoch for the dental art, which abandoning its blind empiricism, began to take its stand on the basis of rigorous scientific observation."¹

In 1803 Joseph Fox published his *Natural History of the Human Teeth*. This was the "first work in the English language written by a dentist who was also a teacher of dentistry, especially to serve as a text book for dental students."² In 1806 it was supplemented by his *Diseases of the Human Teeth*. We have the third edition of these works published together in 1833.

Many of the early American dental books are in our collection. Among the most important of these are:

Fitch, S.S. *A System of Dental Surgery*. 2nd ed. Phila., 1835.

"To this author we are indebted for the first systematic treatise published in America, intended as a guide for

those adopting dentistry as a profession."³

Brown, Solyman. *Dentalogia*. New York, 1840.

"A didactic poem on the diseases of the teeth and their treatment. . . It was written as a testimonial of the sincerity with which the author reciprocated the sentiments and friendships of his distinguished contemporary, Eleazar Parmly."⁴

Harris, Chapin A. *The Dental Art, a Practical Treatise on Dental Surgery*. Baltimore, 1839.

The first edition of the first contribution of a man who came to be regarded as the founder of dental literature in America.⁵

Among our journals, probably the most valuable file is the first ten volumes of the *American Journal of Dental Science*, 1839-1854. This was the first dental journal.

Finally, the *Indiana State Dental Association* was one of the earliest state societies, and we are proud of our almost complete file of its *Transactions* dating from 1858. These Transactions will become increasingly valuable as source material on the history of dentistry in Indiana.

All rare books are available to the alumni for use in the library.

1. Guerini, Vincenzo. *A History of Dentistry*. Philadelphia, Lea & Febiger, 1909. p. 318.
2. *Index of the Periodical Dental Literature, 1839-1875*. American Dental Association, 1923. p. xxvii
3. Koch, C. R. E. *History of Dental Surgery*. Chicago, National Art Publishing Co., 1909. vol. 1, p. 379.
4. *Ibid.* p. 379.
5. *Ibid.* p. 380.

Seniors Receive Awards

Dr. Harry J. Healey, president of Theta Theta chapter of Omicron Kappa Upsilon, congratulates new members. Left to right: Edward Bosh, Dr. Healey, Donald Biggs, and Charles Gish.

The annual Senior Honor Day program was held May 28, 1949, in the lounge of Ball Residence. Again this year the program was given in the evening so that wives and friends of the seniors and faculty could attend.

Scholastic honors, recognized through election to Omicron Kappa Upsilon, national dental honor society, were received by three members of the graduating class. These were presented by Dr. Harry J. Healey, President of Theta Theta Chapter. Students elected included Donald Biggs, Edward Bosh, and Charles W.

Gish. Drs. L. Rush Bailey and James Matlock were elected to faculty membership, and Dr. O. K. Hilty, Fort Wayne, was elected to honorary membership.

Other honors included the C. V. Mosby award for outstanding work in Oral Surgery to Lehman Adams, Jr.; the C. V. Mosby award for outstanding work in Orthodontia to Wigand K. Kenter; the Certificate of Merit from the American Society for Dentistry for Children to Joseph F. Lush; and the C. V. Mosby research award to Donald Biggs.

(continued on page 21)

Class and Fraternity Notes

FRESHMAN CLASS

Fall has arrived on the Indiana University campus at Bloomington along with a freshman dental class of sixty-four men.

The sixty-four students, the maximum number which can be accommodated with present facilities, are now hard at work with their studies. All the cadavers have been given a nick-name and the carving of teeth has been started.

Sixty-one members of the class are Hoosiers coming from thirty-six Indiana cities and towns. We have one student each from Puerto Rico, Hawaii and Florida, where dental education facilities do not exist. The following class officers were elected at an organizational meeting on October 4, 1949: President, James L. Holder of Elberfeld; Vice-President, Elba E. Cole of Indianapolis; Treasurer, Robert M. Stetzel of Fort Wayne; Secretary, James L. Kirwin of Fort Wayne; Chairman of Social Committee, Thomas P. Tanner of South Bend; Student Representatives, John K. Clark of Avilla and Charles J. Sabel of Evansville.

The class was very pleased to receive an invitation to attend the banquet of the Dental Alumni Association of Indiana University held on the Bloomington campus October 7th and 8th. We were privileged to hear an address by Dr. Bruce E. Forsyth, Assistant Surgeon General. We wish to thank the Dental Alumni Association of Indiana University for their invitation and sincerely hope that when they hold their fall meeting in 1953 we may all be present as members.

James L. Kirwin

SOPHOMORE CLASS

The freshman dental class of 1948 has now become the freshman sophomore class of '49. Many felt as lucky as the Irish in being able to make the 137 curves between Bloomington and Indianapolis.

For several members of this class, school was not over in June, but rather it continued until mid-August. (This extra brain stir was both voluntary and involuntary in nature.) Summer school was not the only outlet for expendable energy. There was a construction gang here in the Capitol City composed of dental dillies and elsewhere, painters, farmers,

office help, drug clerks, and housekeepers were some of the jobs held down by the versatile members. Supposedly, travel broadens one; this being the case, it appears that several members of the class traveled quite a bit—.

Not to be forgotten are the new dental assistants which many obtained in the form of wives, namely—Baldrige, Brubaker, Cox, Hicks, Glassely, Lindley, Minear, and Rothhaar. It seems that several others are considering taking the step.

Norb and Mary Lee Bueckler were blessed with 10 pounds of boy, and to keep the ratio right, Frank Turber is now the proud father of a 6 pounds 3 oz. girl. Duncan is also listed on the stork market reports.

As the plaster and pathogenic substances of the sophomore year began bubbling there was a meeting for the purpose of electing officers. Wib Morton was elected president; Bill Lindley, vice-president; Ray Rothhaar, secretary, and Richard Reynolds, treasurer. L. G. Lawton and John Ehret were elected student counsel representatives.

The sophomore class has eighty-five members, and is one of the largest in the history of the school. As yet, plans for the future have not been formulatd; however, when the confusion encountered upon starting a new academic year has cleared away the plans for the year will be formulated.

Wilbur J. Morton

JUNIOR CLASS

September the nineteenth found the seventy-six members of the Junior Class returning to school to actually start their practice of dentistry. Nearly all the technic courses have been completed and now the work in the clinics is under way. You grads can well remember the first cavity preparation you attempted to make or the first injection you made, so you can well appreciate what we are going through now.

As we entered the building this fall, there was no doubt that some painting was in progress. The aroma was very noticeable but after seeing the various rooms and clinics we are all willing to forget the smell and have the appearance of the building improved so

(continued on next page)

much. I'd like to suggest noticing the color of the lecture room on the first floor. "Camellia" is the shade, designed to prevent snoozing during lectures.

The first few days of school found everyone telling of experiences they enjoyed during the summer months. About twenty-five students worked in the clinic, others worked at various jobs and some of the more fortunate individuals spent their vacation swimming, travelling and just loafing. One very ambitious junior engaged himself in selling hotdogs at the State Fair. During the four days he attempted to sell hotdogs he netted himself a total of eight dollars.

Four junior students made the well known trek up the "Middle Aisle" this summer so they are now going through college by the "Sweat of their Frau". The number of married students in the Junior Class is now fifty-three. The dads in our class boast a total of twenty-three children with this number expected to increase a few more times before spring.

The election of class officers was held the second week of school with the following results:

President, Alden B. Thompson; Vice President, John Risch; Sec.-Treas., Betty J. Koss; Student Council, George A. Welch and Howard Metcalfe

The ROTC unit is in full swing now with thirteen members of our class attending the six weeks camp held in San Antonio, Texas, last summer. The reports they brought back were so favorable that twenty-nine additional men have signed up this year. The Junior Class can be called anything but unpatriotic.

The Junior Laboratory is really a hub of activity with everyone trying to build up his point total. Conditions are a little crowded but no one has time to think about such a minor item. Most important are those "Enamel rods, however the rubber dam must not be overlooked." A word of caution to you Grads. If you are in the building when the Juniors are dismissed from a lecture, stay clear of the west stairway because I'm afraid little attention would be paid to you as the class ascends to the clinic.

Be sure and read the next Bulletin for future goings-on of the Class of '51.

Alden B. Thompson

SENIOR CLASS

The senior class officially began its last year of classes and clinics on September 19. That was the formal opening of school al-

though the majority of the class never quit working after the end of the junior year and continued to work in the clinic during the summer so that a full head of steam could be gathered for the senior term. A lot of valuable experience was gained by those who stayed and nobody was sorry that he stuck around this hot town for the summer months.

The first part of August saw the Army R. O. T. C. boys depart for Texas for a six weeks course in how the Army does dentistry. From all reports that the boys brought back, the Army knows a little bit about dentistry and laboratory techniques. In fact a few of the boys were so impressed that they joined the Army for a two year enlistment on the completion of their last year of school. The rumor around the locker room, however, is that they did not join for the above reason but for the remuneration that goes with the whole deal. The three hearty souls who forsake their civilian status for the Army routine again were Robert Youmans, C. James Roll, and Robert Daily. The other boys decided to work for their money in the civilian world. All the boys who were down at camp enjoyed themselves very much and learned a few helpful hints that they can put into practice when they graduate if not sooner.

The senior class had their annual election of officers recently and elected H. T. Riseley as president. Howard Stein was elected vice-president, James Simmonds was elected treasurer, and Ken Smith was elected secretary. The two council-men are Jack Light and Charles Finkbiner.

The talk among seniors now is how many foils have you got, how many are you going to get and where are you going to get them. A little later the talk will shift to where are you going after you get out. Every senior class goes through the same routine so every graduate knows the topics of conversations that occur among the class.

This will just about wind up the news of the senior class as of this moment. Until a later date, the class wishes everyone good luck and success.

Ken L. Smith, Secretary

ALPHA OMEGA

Alpha Gamma started the new school year in the capable hands of a newly elected panel of officers headed by President Arthur J. Wolin, and assisted by Vice-President Charles

(continued on next page)

H. Redish, Secretary Jack Prost, Treasurer Seymour Fay, and Editor Jack Light.

Our annual Senior Farewell Dinner Dance, held last May, served as the finale to another successful year at I.U. Dean Hine was our guest of honor for the evening. Alumni fraters Drs. Leon Berger, Phillip Fogle, and Samuel Patterson were among those present who helped honor our graduates, Drs. Henry Feff, Frank Mandel, Ernst Rosenthal, and Manuel Sposeep.

Speaking of our neophyte dental surgeons, we hear that Hank Leff is applying Black's principles in private practice in Portland, Indiana, as are Manny Sposeep in Wabash, and Ernst Rosenthal in Indianapolis. Frank Mandel, seeking sunshine, joined the Florida State Board of Health.

Danny Laskin, '47, was down for the State Dental Convention last May. At present he is serving a residency in Oral Surgery at the U. of Illinois. Classmate Irwin Burack, '47, was recently relieved of active duty with the Dental Corps and has entered private practice in Newark, New Jersey. Again in the class of '47, Murray Shuser is due for release from the Dental Corps in October and will enter private practice in Northern New Jersey. Samuel Patterson, '40, has recently become a member of the Operative Department.

Plans for the new year include several informal dances, dinner meetings, to which guest speakers both in and out of the field of dentistry will be invited, several clinics, and our annual "Senior Farewell."

Lacking in neither enthusiasm nor ability, we once again look forward to an informative, entertaining, and successful year in '49-'50, our 22nd year at I.U.

Jack S. Prost

DELTA SIGMA DELTA

September the 19th saw Xi chapter of Delta Sigma Delta welcoming its 26 new pledges to the Indianapolis campus. The chapter is of record size this year, there being 82 members, 30 of which are living in the house. The following officers were elected last spring and are now learning the ways and means of running the fraternity:

Grand Master	J. Watt Shroyer
Worthy Master	Harold Dick
Scribe	Robert O'Neal
Treasurer	Marvin Baxla
Senior Page	Rex Hodges
Junior Page	Ralph Laybold
Tyler	James McClure
Historian	Harry Johnson

Several new improvements were made at the house this summer. New sinks were installed in the kitchen, several rooms have been redecorated, and at the present time the lab in the basement is being doubled in size and several new benches added. The entire second and third floors and the living room have had new coats of paint in the past year. Most of this work was accomplished by the chapter members in their more artistic moments, with the assistance of Dr. LaRue, of course. We have also purchased a new bus to replace the old "Red Death", which broke down in 16th Street traffic last spring.

Several of our junior and senior members spent the summer in the Army R.O.T.C. at Fort Sam Houston, Texas, and they all reported that they learned a lot of dentistry in addition to having a wonderful time.

Two formal dances are planned this year—one just before Christmas and the other in May. Of course, the usual number of parties will be held in between. All in all, the members of XI chapter are high in anticipation of the events the coming school year may bring.

Robert L. O'Neal

PSI OMEGA

The active chapter has started off what appears to be a very successful year in the house at 1325 West Michigan Street. Kenneth Smith, '50, is very busy as the new house manager principally because of the house being filled with actives and pledges.

The boys are thoroughly enjoying the new television set and it is particularly popular on the nights when the best programs are on.

The last word from our recent graduates shows that Daniel Strapon is located in Monon, Indiana; Wendell Lee is established in general practice in Warsaw, Indiana; and Edward Bosh is setting up an office in Bankers Trust Building in Indianapolis.

Everyone returning to school this fall was conscious of the changes made in the college during the summer and expect to get continued stimulation from the excellent physical plant facilities. The busy year includes formal initiation during the month of November.

Another item of interest is a new building housing a drug store and restaurant soon to be erected in the vicinity of the fraternity house.

Kent C. Moseley

ALUMNI NOTES

(continued from page 11)

his office for the exclusive practice of orthodontia at 203 Security Bank Building, Fresno, California; and Thad B. Hodupski, '49, announces his association with the Highland-Munster Clinic, 2805 Highland Street, Highland, Indiana.

Dr. John Graffeo, '47, 102-61 Jamaica Avenue, Richmond Hill, New York, writes concerning an interesting case of "trench mouth" in a child; Dr. Gilbert Mellion, '43, who is located in Rocky Hill, Connecticut, became the town's first full-time dentist in October, 1946, and since then has instigated a Dental Health Week for the community; Dr. F. E. Etter, '40, writes that he and Bob Kemp, '45, are in California getting "educated some more" and that he planned to be in the Navy full time after September; Dr. Marcos A. Dones, '46, keeps "faith" with Dr. Hall and others by remembering them with cigars from Puerto Rico; Dr. Harold Rosenman, '45, writes that a year ago last summer "I discarded my captain's uniform for mufti, and shortly thereafter entered into partnership practice at the above address." The address, by the way, is 171 East 106th Street, New York 29, New York. Dr. Rosenman like many other dentists is planning to take a post graduate course; Dr. Charles Eller, '07, came in and paid us a visit and attended the Alumni Meeting on the Bloomington Campus, and was much surprised that *we* could spell "Albuquerque"!; Dr. C. John Todaro, '46, is now located at 4280 Katonah Avenue, Bronx, New York, and hopes to be able to attend the 1950 Alumni Meeting; Dr. Charles Vincent, '45, has joined the staff of the Medical College of Virginia, School of Dentistry as assistant professor of oral diagnosis and pedodontics; Dr. Morris Weiner, 'Dec., '44, sent us a package containing what we thought were elephant tusks; he let us worry a day or so and then informed us they were whale's teeth—we are happy to add them to our ever-growing museum

collection; Dr. Seiya Nakamori, '32, visited us on his way from the ADA meeting in California. He bought a new car in Detroit and drove through, distributing delicious Hawaiian jellies and jams to a few of the more fortunate dental personnel.

We have been working industriously for almost a year in an effort to get our alumni address files as nearly complete as possible. We are making progress and just recently sent several lists to persons who had requested them. We do not know the whereabouts of some two hundred of our graduates and one of these days plan to list their names in the Bulletin and ask your assistance in locating these people. Again we appeal to each of you to inform us of change of address, news concerning yourself or your classmates, or information you would like to appear in the Bulletin.

Our "Guest Book" reports the following entries since last May:

Arthur J. Haacke, '48, 2135 S. W. 8th St., Miami 35, Florida; William Winer, '48, 3324 Sturtevant Ave., Detroit, Michigan; Kenneth P. Watts, '26, 219 W. Main St., Greenfield, Indiana; Henry H. Murray, '29, 2453 Martindale, Indianapolis, Indiana; John H. Palin, '86, 17 Porter Block, Grand Rapids, Michigan; Leon H. Moorman, '19, 38 Monroe N.W., Grand Rapids, Michigan; Frank L. Loskot, '36, 288 Broad St., Bloomfield, New Jersey; Walter H. Vendes, '39, 307 Main St., Bicknell, Indiana; Wilson C. Dyer, '39, 115 E. Main St., Worthington, Indiana; Earl A. Woods, '24, 408 Board of Trade Building, Indianapolis, Indiana; John R. White, '24, 725 Lincoln Bank Tower, Ft. Wayne, Indiana; Fred H. Isaacs, '47, 641 Ohio St., Terre Haute, Indiana; Eugene R. Kipple, '46, 1915 Franklin, Terre Haute, Indiana; Richard S. Johns, '47, 508 Calumet Building, Hammond, Indiana; Richard J. Stoelting, '37, Mier Bank Building, Ligonier, Indiana; Willard Paul Stoelting, '31, Sandborn, Indiana; Frederick W. Heidenreich, '38,

(continued on next page)

104½ E. Main St., Bloomfield, Indiana; John Lawrence Heidenreich, '36, 144 W. 4th St., Bicknell, Indiana; Robert D. Avery, '48, 448 N. Jefferson, Huntington, Indiana; James M. Sakurai, '29, A.A.L.A. St., Honolulu, Hawaii; Robert M. Ricketts, '45, University of Illinois, 808 S. Wood, Chicago 12, Illinois; Hugh Davis, '14, 7512 Greenwood Ave., Chicago, Illinois; Kesler E. Truelove, '26, 1431 W. 6th St., Gary, Indiana; R. Quentin Royer, '43, 1238 4th Ave. S.W., Rochester, Minnesota; Leonard E. Trinkle, '04, 214 Rose Disp. Building, Terre Haute, Indiana; William L. Hammersley, '36, 53 E. Walnut, Frankfort, Indiana; Thomas H. Beavers, April '44, 5462 E. Washington, Indianapolis, Indiana; Glenn Crim, '19, 419 Jefferson St., Mt. Vernon, Washington; Samuel M. Standish, Aug. '45, 317 W. Washington, Muncie, Indiana; Joseph L. Hutton, Dec. '44, 317 W. Washington, Muncie, Indiana; Kenneth L. Stewart, '25, 706 I.O.O.F. Building, Indianapolis, Indiana; William L. Croxton, '46, 390 A N.E., Linton, Indiana; Robert H. Marlette, '48 (Capt. D.C.), Ft. Benning, Georgia; Philip M. Whisler, '48, Florida State Hospital, Chattahoochee, Florida; Edward E. Bosh, '49, 650 Bankers Trust Building, Indianapolis, Indiana; Robert E. Kemp, '45, 626 Shields, Fresno, California; William D. King, '41, (Comm.) U.S. Navy Medical Center, Naval Dental School, Bethesda, Maryland; Charles A. Eller, '07, 601 First National Bank Building, Albuquerque, New Mexico; Alfonso L. Tapia, '46, Waynetown, Indiana; Walter A. Crum, '27, 310 Medical Arts Building, Richmond, Indiana; Hayward G. Flickner, '49, 1013 Parrett St., Evansville, Indiana; Robert D. Gannon, Jr. '46, 113½ N. Main St., Monticello, Indiana; John J. Calland, '45, 5112 E. Michigan, Indianapolis, Indiana; Lehman D. Adams, '49, (2nd Lt.) Box 22, Station Hospital, Kessler, Mississippi; Seiya Nakamori, '32, 880 N. King St., Honolulu, T.H.

We are pleased that our plan to run addresses of each class beginning with '48 and going backward has met with so much approval. This month we have the December, 1944 Class—most of them answered our card of inquiry but some didn't and we have given addresses as we have them from earlier data. If you know of the whereabouts of those marked with an asterisk (and it is different from one given) please pass the word on to us—we shall indeed appreciate it.

CLASS OF DECEMBER, 1944

- Wendell R. Aldrich
701 East Maumee Street
Angola, Indiana
- Ray H. Anderson
Young Circle
Hollywood, Florida
See you next May. Florida's the place for me!
- James L. Baker
214 South Buffalo
Warsaw, Indiana
- John A. Beck
101 Lincolnway
Valparaiso, Indiana
I am interested in what happened to the rest of the fellows in my class. Looking forward to class reunion.
- N. Keith Burns
2724 Erie Avenue
Cincinnati 8, Ohio
We have a daughter who is three years old.
- Clyde C. Christiansen
303 Camils Avenue
Coral Gables, Florida
- W. (Bill) S. Coon
217½ N. Michigan
Plymouth, Indiana
- Edgar K. DeJean
Strauss Building
Salem, Indiana
- Edwin F. Downey
5508 East Washington
Indianapolis, Indiana
(continued on next page)

- Thomas Esmon
40 West 38th Street
Indianapolis 8, Indiana
(Just recently joined part time faculty at IUSD)
- Joel R. Fertig
46 Bayard Street
New Brunswick, New Jersey
Building a new home. If any of the fellows come up this way stop in.
- Robert M. Gates
Battle Creek Michigan
Kellog Foundation
- A. W. Hause
New Vienna, Ohio
- Joseph L. Hutton
University of Texas Dental School
Houston 4, Texas
Best regards to class of '44. Look me up if ever this way—welcome mat out to all.
- Roger Ish
Waterloo, Indiana
- Ernest K. James
Lowell, Indiana
- John E. King
2130 Wabash Avenue
Terre Haute, Indiana
- Frederic D. Logan
Kentland, Indiana
- Ralph E. McDonald
1121 West Michigan Street
Indianapolis 2, Indiana
(As you probably know, Dr. McDonald is head of our Department of Pedodontia.)
- Dudley Moore
Hollywood Professional Building
7046 Hollywood Boulevard
Hollywood 28, California
I am right in the middle of Hollywood. Just call the office—24 hour exchange.
- Charles V. O'Brien
544 Bankers Trust Building
Indianapolis, Indiana
- Chauncey C. Parker
Elwood, Indiana
- Henry J. Rankin
1508 Central Avenue
Union City, New Jersey
- Charles A. Redding
23 S. E. Seventh Street
Evansville, Indiana
- Max Rothschild
559 West 156th Street
New York 32, New York
- Robert C. Ryan
1526 West Jackson
Muncie, Indiana
- Eldo Schoenherr
1106 Taylor
Fort Wayne, Indiana
- James R. Shroyer
32 North 5th
Vincennes, Indiana
- George W. Simpson
Franklin, Indiana
- Dudley Smith
812 Life Building
Lafayette, Indiana
- Carl Stoner
7 Thames Street
Groton, Connecticut
- Douglas Weber
719 West Washington Street
Michigan City, Indiana
- Morris Weiner
231 Hamilton Street
Rahway, New Jersey
- Russell M. Whitmore
924 Hume Mansur Building
Indianapolis, Indiana
- Bernard Wiener
G. E. Front Street
Keyport, New Jersey
- Paul Worster
533 Citizen's Bank Building
Anderson, Indiana
- Joe D. Wright
101½ L. W. W.
Mishawaka, Indiana
- Richard E. Wulff
510 Hulman Building
Evansville 18, Indiana

ALUMNI MEETING

(continued from page 5)

following the banquet by Dr. Lee Norvell and his University Dramatic Staff in the Little Theatre Auditorium.

The Saturday program was of an excellent nature with a U. S. Navy movie being shown on periodontia, with Dr. A. P. Williams, Louisville, Kentucky, presenting a lecture on Oral Surgery, and with Mr. Ray E. Smith, Executive Secretary of the Indiana State Medical Association, reviewing for the audience *Medicine and Dentistry's Fight for Their Future*. Special guests at the noon luncheon included President Herman B Wells and other University officials who warmly welcomed the Alumni Association and praised the enthusiasm shown in the activities of the School of Dentistry's Alumni Association.

Although resulting in a defeat of Indiana by Texas Christian, the football game was witnessed by the dental alumni on Saturday afternoon and thoroughly enjoyed because of the demonstration by the Indiana team of potentiality for future development.

The following officers of the Alumni Association were elected: President, Dr. Charles Wylie, Bloomington; Vice President, Dr. Paul Asher, Gary; Secretary-Treasurer, Dr. Harry J. Healey, Indianapolis. The following were elected as members of the Executive Board: Dr. Richard Young, Kokomo; Dr. A. E. Herrold, La Porte; Dr. Richard Jordan, Evansville; Dr. E. H. Porter, Muncie; Dr. G. T. Gregory, Indianapolis. Dr. Donal Draper, Indianapolis, the retiring president, was elected as the School of Dentistry Alumni Association's representative to the University's Alumni Council.

The officers and Program Committee are already formulating plans for an even bigger and better annual meeting in 1950.

Harry J. Healey,
Dental Alumni Secretary

HONOR DAY

(continued from page 14)

The Leonard Singer Senior Essay Contest awards were as follows:

- First prize—Thaddeus Hodupski
- Second prize—Wiegand K. Kenter
- Third prize—Donald Biggs

Brief remarks were made by Dean Maynard K. Hine and Edward E. Bosh, Senior Class President. Several musical selections were presented by various members of the sophomore class. In addition to members of the faculty and assisting staff, the program was attended by members of the Bloomington faculty and representatives of the Board of Trustees, the Alumni Association, and the Indiana State Dental Association.

Junior American Dental Association

The first meeting of the year was called on October 19, at which time the election of officers was conducted by the organization's advisor, Dr. Harry J. Healey. Frederick A. Cantrell was elected president; John E. Mendenhall, Vice President; William A. Shoemaker, Secretary; and Charles E. Flannagan, treasurer. The three class presidents, H. T. Risley (Senior), Alden B. Thompson, (Junior), and W. J. Morton (Sophomore), were appointed to plan this year's program schedule.

At the following Wednesday's business meeting H. T. Risley reported for the Program Committee. The Session voted in favor of the Annual Dance for which every member will be assessed.

On Wednesday, November 16, the Jr. A.D.A. heard Dr. Carl A. Frech, Secretary of the Indiana State Board of Dental Examiners. A speaker is scheduled for each month of the school year.

Frederick A. Cantrell
President of J.A.D.A.

The Library Needs Your Help

The Library is trying to complete its files of certain journals and needs the help of alumni in supplying missing numbers. Most of these lacking volumes and issues are now out of print and can be secured only through gifts. If you have any old magazines in the attic, will you please see if any of these are among them?

Columbia Rubber MODEL FORMERS

Make Neat Bases on
Your Sturdy Models

Pour plaster or stone into Model Former, mount anatomical cast and let set. The soft flexible rubber permits easy removal of model, which comes out with a perfectly smooth, symmetrical and finished base.

Upper and lower models can be made in these formers to occlude automatically!

Price per set, 1 Upper & 1 lower

No. R1—Large Size\$3.50

No. R2—Medium Size 3.50

No. R3—Small Size 3.00

Study models show patients their mouths as you see them. Make study models regularly. You need them as you do X-Rays.

Better than sketches to explain cases to patients

Instead of wasting surplus plaster pour it into the Mold. If not enough, add the next excess mix, first wetting the set plaster.

To make Models with Ivorine abutments, insert Ivorine Teeth into Mold before pouring.

Sets of Upper and Lower Molds Now Available

No. R20—A set without 3rd molars\$5.00

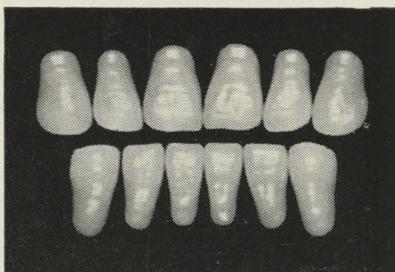

No. R22—A set with 3rd molars 5.00

No. R24—A set for deciduous models .. 5.00

Ivorine Teeth, each50

FIVE-PHASE

A N T E R I O R S

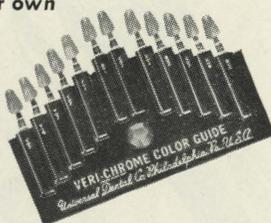

The easiest teeth to select... and set-up for "living" esthetics!

Doctor, when we say Five-Phase Anteriors are the easiest teeth to select expertly for "living" esthetics, we mean it *in every respect!* We'd like to demonstrate the wonderful Co-Ordinate Size Mold System and Veri-chrome Color System that make this a fact. The few minutes it takes to learn the details will save you many hours of time.

Of course, you are mostly interested in esthetic results—and that's what will impress you most about Five-Phase Anteriors. They are the only anteriors that provide a full range of molds with both Flat and Curved labial character... they're made in the superior Veri-chrome Porcelain and Veri-chrome natural tooth colors... you can easily, expertly transpose centrals laterals and cuspids from different sets for *personalized esthetics!*

Call us for a demonstration, at your own convenience.

Five-Phase Anteriors articulate with Veri-chrome NIC (non-interfering cusps) Posteriors; Dr. French's Posteriors and Nuform Posteriors. Specify with your Veri-chrome Color Guide.

FIVE-PHASE ANTERIORS ARE ALSO AVAILABLE IN PLASTIC MADE IN VERI-CHROME NATURAL TOOTH COLORS

S.S. WHITE
Carbide
BURS

MARVELS *in cutting efficiency*

OUTLAST STEEL BURS MANY TIMES

Heads of cemented tungsten carbide. Shanks of "Revelation-quality" bur steel. Outlast steel burs fifty or more times.

Cavity, crown and bridge preparations made quickly with minimum effort and greater convenience.

Carbide Burs are hard; the best of steels will not scratch them. They combine almost the cutting properties of diamond with the convenience of burs. Obviously they promote better preparations, increase production; are easier on the patient.

For use at high speed, with light pressure. Avoid leverage; do not push Carbide Burs.

Introductory Assortment

FOR ANGLES ONLY

Handpiece and other styles and sizes will be available when production permits.

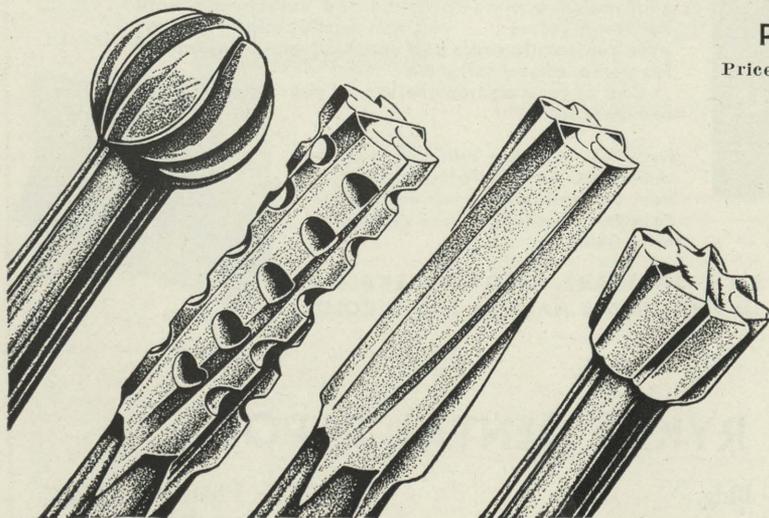

CONTENTS:
