GLOBAL HEALTH
THROUGH COLLABORATION

VISION TO ACTION

20/20
Presidential Call-to-Action
2005-2007

Members and chapters
can make a difference
As we enter this biennium, ask yourself and the members of your chapter these critical questions:

- How can I make a difference in achieving the mission and vision of the Honor Society of Nursing, Sigma Theta Tau International?

- What is one thing I can do this coming biennium that would contribute to the success of the defined strategic plan?

- Is my vision that of the honor society’s?

- If a critical mass of members answers this question with action, we will be assured continued success and an enriching experience.

Strategic plan areas of focus:

- Knowledge
- Leadership
- Service
- Communities
- Sustainability
