VOLUME 6 ISSUE 10

OCTOBER 2018

From the Desk of the EAD/ADFA

The month of September has undoubtedly been dominated by matters of international and global importance for the school. However, before launching into discussing those activities, I must mention the passing of two colleagues, both of whom played an important role in the life of IUSD. Vince Sheehan worked closely with the administration of IUSD over the past few years, in his role as Chief Information Officer and Associate Vice President for Information Technology. Vince had planned to retire from IU next June but, sadly, passed away in his sleep, earlier this month. He spearheaded many aspects of our IT evolution, including the commissioning of the Fritts Clinical Care Center. Dr. Chuck Palenik retired from IUSD several years ago, and had worked for many years in the field of infection control, most notably with Dr. Chris Miller with whom he published papers and texts that are still widely read. Those who knew or worked with Chuck were always guaranteed some personal insight on the state of the school, the university and indeed, the world. We offer sincere condolences to both their families, friends and colleagues.

Also on the home front, I am delighted to report that the search process for our dean to succeed Dean Williams is now well under way. Some additions were made to the composition of the University Search and Screen Committee, and during the recent meeting of the group with the Professional Search Company, it is clear that several potential candidates have already been identified. However, I cannot stress enough that personal nominations and recommendations carry considerable weight, so please do submit those directly to Stephen Hundley in the Chancellor's Office

(shundley@iupui.edu) or to Parker and Associates, whose information is within the message all were sent a few weeks ago.

Returning to the international theme, we welcomed two students and their faculty mentor from FAESA, a university in Brazil from which we have had visitors previously. Dr. Oriana Capin took several IUSD students to FAESA in May, and this was the return visit. We now have two approved Study Abroad Programs, the other being with Newcastle University in England. I am enthusiastic to establish more, as all the evidence indicates that there are both short and long-term benefits for students who engage in these programs.

Technological developments and advances are generally perceived as advantageous, although infamous examples can sometimes indicate otherwise. The internet has transformed all our lives, mostly, we believe, for the better. Those of us who started our careers before the mid-1980's can attest to the 'different world' in which we now operate. Many of us our essentially 'prisoners' of our e-mail accounts and one famous commentator recently referred to this not as the world of connection, but rather distraction. Food for thought. But one useful and recently adopted tool has been 'Zoom®'. Dr. Richard

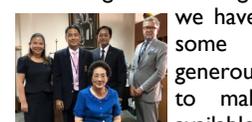

Gregory, who organizes and coordinates our collaboration with King Saud University in Riyadh, set up a video conference for us recently, in order to engage Dr. Nawaf Labban in conversation to enhance our interactive program. Such facilities will be, I am sure, used increasingly for such pur-

poses, as well as providing scope for on-line educational projects.

In March, 2019, President McRobbie will officiate at the opening of the next IU Gateway, The ASEAN (Association of South East Asian Nations) office, in Bangkok. IUSD is proud to have over 50 alumni from our graduate programs in Thailand, and so Dr. Gabe Chu and I spent several days in discussions by way of preparing for a dental event to accompany other meetings and receptions to be held during that time. We met with the dental deans of Chulalongkorn, Mahidol and Walailak Universities, as well as twice with Peter Boonjarern, the hard working president of the Thailand Alumni Chapter, who was

extremely helpful in guiding us through planning, and also with several of our graduate alumni. There is great enthusiasm for a dental social and educational event to be held around that time, and we will be working on developing a program. Dean Suchit Poolthong of Chulalongkorn (whom

we have known for some time) has generously offered to make facilities available in the school, and we reviewed these with him. Peter has also kindly offered to help with logistics. Dr. Thanpuying Petchara Techakampuch is the most distinguished living alumna of our school. She is Dean Emerita of the dental school at Chulalongkorn University and was dentist to the late King Rama IV and his family for many years. The King bestowed upon her the high honor of "Thanpuying".

(continued on page five)

Faculty Development Opportunities

There are many opportunities for professional development during the month of October. The following list of programs were selected from various resources on the IUPUI campus including the Office of Academic Affairs (AA), the Center for Teaching and Learning (CTL), the Office for Women (OFW), the Indiana University School of Medicine, Office of Faculty and Professional Development (OFAPD), the Office of the Vice Chancellor for Research (OVCR) and the IUSD Office of Continuing Education. Campus programs are at no cost to faculty.

**ENHANCE
YOUR
TEACHING
AND
RESEARCH
SKILLS.**

Wednesday, October 3rd

Improve Your Financial IQ – Maximizing Your Social Security Benefits (OFW)

Time and Location: 12:00 - 1:00 pm, Campus Center, 305

Presenter: Joyce Foster

[Register](#)

Thursday, October 4th

Teaching@IUPUI: Promoting Active Learning in Your Classroom (CTL)

Time and Location: 12:00 – 1:00 pm, Online

Presenters: Douglas Jerolimov, Anusha S Rao

[Register](#)

Friday, October 5th

Introduction to the National Institutes of Health (NIH) (OVCR)

Time and Location: 9:30 – 11:00 am, University Library, 1126

[Register](#)

Friday, October 5th

Last Lecture: Something There is That Doesn't Love a Wall (AA)

Time and Location: 2:00 pm, Campus Center Theatre, Lower Level

Presenter: Eugene R. Tempel

Monday, October 8th

Structuring Your Research Paper (OFAPD)

Time and Location: 2:00– 3:30 pm, Regenstrief, 105

Presenter: Jean-luc Doumont

[Register](#)

Monday, October 8th

Faculty Enrichment and Education Development: Networking for Researchers (OFAPD)

Time and Location: 5:15 – 7:00 pm, Walther Hall, C303/C305

Presenter: Jean-luc Doumont

[Register](#)

Tuesday, October 9th

Teaching with Technology Faculty Showcase: Virtual Exploration of Cultural Themes: Using Google Cardboard in Classroom Setting (webinar) (CTL)

Time and Location: 12:00 – 1:00 pm, Online

Presenters: Julie Madewell, Olga Scrivner, Lynn Ward

[Register](#)

Tuesday, October 9th

Searching Pubmed

Time and Location: 12:00 – 1:00 pm, IUSD Computer Lab, 122

Wednesday, October 10th

Teaching@IUPUI: Best Practices for Slide Show Presentations (CTL)

Time and Location: 12:00 – 1:0 pm, Online

Presenters: Douglas Jerolimov, Randy Newbrough

[Register](#)

Friday, October 12th

NIH Institutional Training Grants (T Series) (OVCR)

Time and Location: 9:30 – 11:30 am, University Library, 1126

Charles Palenik in Memoriam

Charles “Chuck” Palenik passed away in Indianapolis on August 31, 2018 at 71 years of age.

Dr. Palenik was a professor at the Indiana School of Dentistry for 40 years. Dr. Palenik was appointed to the oral microbiology faculty at IU in the 1970s and held a variety of positions at the dental school over his career, including the

directorship of Infection Control Research and Services. He retired from IUSD in 2011.

He was a former chairman of the American Practitioner of Infection Control and Organization of Safety of Sepsis and Prevention (OSAP). He was also a past winner of OSAP’s research award and received the organization’s Milton E. Schaefer Award for Superior Service.

Dr. Palenik is survived by his wife

Lynn, children Steven and Sarah, along with several siblings and grandchildren.

The funeral was held on Saturday, September 8 at St. Matthew Catholic Church, and the visitation directly preceded it. Memorials in Dr. Palenik’s name may be made to National MS Society or Assistance League of Indianapolis. Condolences can be offered online at www.feenehornakkeystone.com, where the obituary is also listed.

2018 CEG Symposium

Held to honor and celebrate the successes of the 2017 Curriculum Enhancement Grant (CEG) awardees, the 2018 CEG Symposium will feature a keynote address titled “Scholarly Teaching, SoTL, and Campus Conversations that Matter” by Nancy Chick, director, Endeavor Foundation Center for Facul-

ty Development, Rollins College.

The purpose of the CEG initiative is to provide faculty with support, time, and resources to implement projects designed to improve student learning and success as well as to enhance the conversation about scholarly teaching on campus and increase the practice of the scholar-

ship of teaching and learning. For more information on the CEG initiative, go to <http://ctl.iupui.edu/programs/CEG>.

The Symposium will take place on October 11, 2018 from 1:45–4:30 pm at the University Library Lilly Auditorium, Room 0130. Visit [here](#) to register and for more information.

Teaching Conference, October 4 & 5

Dr. Hamada Invitation

IU School of Dentistry's Department of Periodontics & Allied Dental Programs will be represented at the [International Osteology Symposium Barcelona 2019](#) by clinical assistant professor Dr. Yusuke Hamada.

In the summer of 2017 Dr. Hamada and Periodontics resident Dr. Jennifer Chang received notification from the [Osteology](#)

[Foundation](#) that their grant proposal "Comparison of the released amounts of growth factors from platelet-rich fibrin (PRF) in healthy individuals and chronic periodontitis patients" was selected for funding. Dr. Hamada served as the principal investigator. Now he will be in Barcelona April 25—27, 2019 to present on their work. Part of his time there will consist of a poster presentation session in the morning and potentially a subsequent oral presentation

session. Only approximately ten percent of all Osteology Foundation Young Researcher Grant applicants receive funding. It was a "distinguishing honor" to receive the grant and no less so to be selected for this symposium. The International Osteology Symposium will highlight the next generation of regenerative therapies, i.e. the latest developments of techniques and technologies as well as the next generation of dentists – experts in the field of oral tissue regeneration.

Cephalometry in Orthodontics

Congratulations to Drs. Katherine Kula and Ahmed Ghoneima as co-editors of the textbook [Cephalometry in Orthodontics: 2D and 3D](#), published by Quintessence Publishing Company and available as of September 2018. Dr. Katherine Kula (MS, DMD, MS) is professor emeritus of the IU School of Dentistry's (IUSD) Department of Orthodontics and Oral Facial Genetics. Dr. Ghoneima (BDS, PhD, MS) is chair and

associate professor of Orthodontics at Hamdan Bin Mohammed College of Dental Medicine. He is also an adjunct associate faculty member in the IUSD Department of Orthodontics & Oral Facial Genetics. The purpose of this new textbook is to provide an updated text on clinical cephalometrics, relating these measures to the anatomical parts of the craniofacial complex rather than specific philosophies. Clinical

orthodontics is transitioning from two-dimensions (2D) world to three-dimensions (3D), improving diagnosis and the outcome of growth and treatment. However, clinicians need to understand 2D cephalometry to be able to apply it to 3D cephalometry. Other textbook contributors from IUSD include Drs. Ted Parks, Achint Utreja, Paul Edwards, and Eman Allam. Experts from other schools include Juan Martin Palomo, Manuel LaGravere, and many other young orthodontic investigators.

Scientific Writing From The Reader's Perspective

As competition for external funding becomes more challenging, getting one's scholarly work successfully published is more important than ever. This year, Dr. George Gopen will present this workshop, and an advanced workshop of the same topic. Dr. Gopen's approach is based on a single idea: learning to write for the reader allows the writer to control what readers learn.

Two workshops will be presented: "Scientific Writing From the Reader's Perspective," and "Advanced Scientific Writing from the Reader's Perspective." If you are planning to attend the advanced workshop you must attend the first workshop or have attended one in the years prior.

As in past years, Dr. Gopen will also conduct hour-long, individualized consultations. Only faculty members who participate in the day-long event will have access to the individual consultation registration. Instructions will be sent to participants after their registration for the workshop is complete.

The workshops will be at the following times:

Scientific Writing From the Reader's Perspective

Date: October 9, 2018

Time: 8:00 am—5:00 pm

Location: Health Information and Translational Services (HITS) Room 1110

[Register](#)

Advanced Scientific Writing from the Reader's Perspective

Date: October 10, 2018

Time: 8:00 am—5:00 pm

Location: Health Information and Translational Services (HITS) Room 1110

[Register](#)

2018 IU Online Conference

This year's IU Online Conference will be held on November 9 at the Hyatt Regency in downtown Indianapolis (One South Capital Ave.).

Presented by the Office of Online Education (OOE), in conjunction with the Office of Collaborative Academic Programs (OCAP) and eLearning Design and Services (eDS), the conference is your opportunity to learn, share experiences, and network with others who are making online education outstanding at Indiana University.

This year's keynote speaker will be Dr.

Alec Couros, an international leader and pioneer in open education. Professor of educational technology and media in the Faculty of Education, University of Regina, Canada, Couros also works with school districts, universities, and government agencies to develop policies and guidelines for digital citizenship, social media presence, and technology integration. Couros will speak on how to leverage technology for the most effective online learning experience.

The IU Online Conference is a no-cost event open to IU staff, faculty, or others

interested in our mission of delivering engaging, high-quality online courses. This year's conference will showcase the innovators and collaborators of online education with a fantastic lineup of speakers. A continental breakfast and all-inclusive lunch will also be provided.

Visit [here](#) for more detailed information on conference topics and for a detailed itinerary.

The deadline to register for the conference is October 5, 2018 at 5pm. Visit [here](#) to register and for more information.

TEACH! Learning Anchor 1

TEACH! Interprofessional Learning Anchor 1, Introducing Interprofessional Collaboration, took place on September 11, 2018 at the IUPUI Campus Center and Hine Hall. The TEACH! Learning Anchors are required components of selected courses in the DDS curriculum. Anchor 1 is a component of Dr. Stuart Schrader's and Dr. Odette Aguirre's D503 course for first year dental students.

Four separate sessions of Introducing Interprofessional Collaboration, each 150 minutes in length, were held throughout the day and evening. The class of first year dental students participated in the morning session with students from the IU Schools of Medicine, Physical Therapy, Occupational Therapy, and Nursing, and Purdue Pharmacy. Learners were grouped into interprofessional teams who then learned about, from,

and with each other over the course of the event by engaging in activities that enabled them to explore their respective professional roles and responsibilities. They worked together as a team to prioritize health-related concerns in the case of an individual with complex healthcare needs. In the first session 308 learners and 17 facilitators participated. IUSD faculty facilitators for this session included Drs. Odette Aguirre, Suzanne Benedict, Rick Jackson, Liz Ramos, Priya Thomas, and Tawana Ware.

Through the Fundamentals of Dental Hygiene (DHYG-H218) course, the first year class of dental hygiene students participated in the third session of the day with students from the IU Schools of Nursing, Occupational Therapy, Physical Therapy, and Public Health. In all, ninety learners and six facilitators

were involved in this session. IUSD faculty facilitators included Professors Lisa Maxwell and Pamela Rettig. Professor Maxwell was pleased to find that in some of the teams her students were leading the discussion, despite being only four weeks into their program.

The TEACH! curriculum was adopted by participating Schools and its implementation across the IU system is organized by the IU Center for Interprofessional Practice and Education. IUSD faculty are encouraged to become involved in the TEACH! program and lend their expertise in dentistry and dental hygiene to development and implementation of instruction. For more information on interprofessional practice and education or the TEACH! curriculum, please visit <https://ipe.iu.edu>.

From the Desk of the EAD - cont'd

We hope that she will be invited officially to the central event and be recognized by President McRobbie/Dean Williams in some way, understanding that there will be strict protocol in the presence of HRH Princess Sirindorn.

Our colleagues in the specialty of prosthodontics are already planning a meeting of the "Future Leaders in Prosthodontics (FLIP)", an international group being organized by

Dr. Kamolpob Phasuk. We hope to enlist the participation of some of their renowned speakers for our general IUSD session. We already have serious expressions of interest from alumni in other countries of the region who may join our educational and social activities that will occur around March 4-6. Once finalized, we will publish the program.

This week we will come together as a faculty for our annual Teaching Conference, to

be held at McCormick's Creek State Park. An opportunity to learn, contribute, and most importantly, communicate with one another. The IUSD Staff will hold their own annual conference here in town, at the Indianapolis Zoo.

Hopefully we will all return from our respective meetings enlightened, informed, and enthusiastic as we continue to roll through the year.
