

NEWS- LETTER

IU School of Dentistry

SEPTEMBER-OCTOBER 1984

R

THE SCHOOL OF DENTISTRY TEACHING CONFERENCE, which was started on an experimental basis in 1965 at Spring Mill State Park, marked its 20th milestone in September during a highly successful meeting attended by 135 faculty members, student representatives, and other guests at McCormick's Creek State Park. The original project grew out of an idea from then Dean Maynard K. Hine and Teaching Committee Chairman Paul E. Starkey. During this year's banquet it was noted that conferences have been held at Spring Mill, Brown County, Turkey Run, and McCormick's Creek State Parks and at the Nashville Ramada Inn. Dr. Ralph E. McDonald was given a standing ovation for his encouragement and support of the Teaching Conferences throughout his tenure as Dean of the School of Dentistry.

The theme of this year's conference was "Teaching Effectiveness in the Clinic, Laboratory, and Classroom." Speakers included Dr. Keith Morran and Prof. Karen Gable, of the School of Education, Dr. Jack E. Schaaf, and Dr. Joe Wick. Teaching Committee Chairman is Dr. Chris H. Miller. Program Chairmen for the Conference were Dr. Carl Newton, Prof. Charles Palenik and Dr. Schaaf. Mrs. Drew Beck is Secretary-Treasurer of the Teaching Committee.

THE 1985 EDITION of Who's Who Among Students in American Universities and Colleges will include the names of these 14 students from Indiana University who have been selected as outstanding national leaders:

Jean L. Musselman
David A. Albright
Robert J. Relle
Chris D. Kinney
Christopher W. Schultz
Richard E. Zollinger
Park L. Firebaugh
Margaret J. Fox
James R. Oxford
Ching-Shu C. Wagner
Christopher A. Burns
Craig T. Leland
Kevin A. Deardorf
Herbert P. Pleiman

DOES NOT CIRCULATE

Campus nominating committees and editors of the annual directory have included the names of these students based on academic achievement, service to the community, leadership in extracurricular activities and potential for continued success. They join an elite group of students selected from more than 1,500 institutions of higher learning in all 50 states, the District of Columbia and several foreign nations.

MRS. VIRGINIA HOUCHIN wishes to thank her friends on the School of Dentistry faculty and staff for their kindness in sending flowers and messages of support during and following the last illness of her husband, who died in University Hospital on September 8, 1984.

THE SCHOOL OF DENTISTRY NEWSLETTER STAFF welcomes a new member, Ms. Susan Crum. Recently appointed as Coordinator of Publications for the School and assistant to Prof. Paul Barton, Susan joins Mrs. Sarah Manion, Mrs. Drew Beck, Dr. Rolando DeCastro and Prof. Barton in the production of the Newsletter.

DR. JOHN D. HENNETTE has been named recipient of a clinical fellowship in Pedodontics from the United Cerebral Palsy Research and Educational Foundation. The fellowship is one of 16 provided by the Foundation in support of professional training for physicians, dentists, therapists and other health care personnel working with disabled children and adults. A 1982 graduate of IUSD, Dr. Hennette recently completed a two-year postdoctoral program in Pedodontics and is an Assistant Professor on the part-time faculty.

A NEW BOOK ENTITLED "Oral Diagnosis, Oral Medicine, and Treatment Planning" has been received at the School of Dentistry Library. The authors are Dr. Robert P. Langlais (M.S., 1975), Dr. Steven L. Bricker (M.S., 1976), Dr. James A. Cottone (M.S., 1977), and Dr. Bill R. Baker (M.S.D., 1963). The book is dedicated "To Our Mentor, David F. Mitchell, D.D.S., Ph.D." The late Dr. Mitchell headed the Department of Oral Diagnosis/Oral Medicine from 1955 to 1975.

NEW OFFICERS OF THE INDIANA SECTION of the American Association of Dental Research for 1984-85 are: President, Dr. James C. Setcos; Vice-President, Professor Charles J. Palenik; Secretary/Treasurer, Dr. James L. McDonald, Jr. Councilor is Dr. Chris H. Miller and Alternate-Councilor is Dr. Michael A. Cochran.

DR. TIMOTHY J. O'LEARY, Chairman of the Department of Periodontics, has been elected to the American Association for the Advancement of Science. Dr. O'Leary is Editor of the Journal of Periodontology, former President of the American Academy of Periodontology, and former Chairman of the American Board of Periodontology.

DR. RALPH W. PHILLIPS, Associate Dean for Research, has been appointed to the Advanced Materials Committee of the Corporation for Science and Technology. The corporation is a private, not-for-profit entity created by the Indiana General Assembly to strengthen the state's economy by making funds available for application-oriented research and development projects. The long-range goal is to help make Indiana business more competitive in national and world markets.

Dr. Phillips has also been elected to the editorial board of DentSat, a company which produces continuing medical educational programs, and reappointed as a visiting consultant to the Navy Dental School of Bethesda, Md.

Dr. Phillips was featured in the Indianapolis Star for Sunday, Oct. 6, in the first of a series of four articles on "Who's Who Among Indiana Scholars." Dr. Phillips was cited as author of the most widely used textbook on Dental Materials and as an internationally acclaimed scientific investigator.

ON FRIDAY, JUNE 22, 1984, Indiana University hosted the first all-day meeting on orthodontic problems common to the Great Lakes Dental Schools. University of Pittsburgh, University of Michigan, Case Western Reserve University, University of Michigan, and Ohio State University were represented, with the following in attendance from IU: Drs. William Hohlt, LaForrest Garner, Donald Ferguson, and Dean Ralph E. McDonald.

PROF. MYRA MASON, Minority Affairs Officer, was elected vice president of the National Dental Association's Council of Black Dental Educators during the NDA's meeting at New Orleans. The Minority Affairs Office staged the third annual "Health Careers Opportunity Program," which attracted 50 high school students from Indianapolis, Ft. Wayne and Gary. Dr. Leonard Koerber and Prof. Mason wish to thank the following IUSD faculty/staff members who helped make the two-day program a success: Dr. LaForrest Garner, Dr. Barry LaCombe, Prof. Charles Palenik, Miss Shirley Shazer, Mrs. Ruth Blumershine, Dr. Byron Olson, and Dr. James Setcos. Thanks also go to Dr. Jack Schaaf, who made a lecture/slide presentation to 50 visiting college students from the IUB "Summer Health Careers Institute."

MRS. BEA GORDON, who operated the legendary College Inn for more than 40 years in what is now a vacant area just east of the Dental School, has a new address. All those "old-timers" who remember Bea in the period before (and after) the Inn's closing in 1974 will be interested to know that she and her husband are now living at 8112 Folkestone Road, Indianapolis, IN 46268. The move was scheduled right around the time of Bea's recent hospitalization (she's out now and doing lots better), so members of her card club pitched in on the move. An unusual feature of the real estate transaction was that a dog came with the house that Bea bought. The dog's name is Wally.

ANNETTE REED, of the Dean's Office, and Sandy Manion, of the Office of Continuing Education, spent a vacation week this summer at Flat Rock River Camp, a fitness center near Shelbyville. Both found the experience interesting, as demonstrated by this note that Sandy sent to friends at the office in mid-camp:

Hi Group,

I can't begin to describe this place. I'm not sure you would believe it. Many don't that are here.

Annette and I are in the same cabin (Apache), the only one with a toilet & sink. Pure luxury! I won't mention the showers.

The aerobic & stretch & flex instructors are great. One of them is so tiny we are planning to stuff Snicker bars down her throat on the last day.

Speaking of food -- and everyone here is -- the meals are pretty sparse but not bad tasting. I can't believe I got excited over yesterday's snack which was two strawberries and two pineapple chunks. This was served in the smallest Dixie cup known to man.

I just have two final words to say to all of you --

SEND TWINKIES!

Sandy

MRS. ELIZABETH HATCHER and Mrs. JoAnn Heasley, who in 1982 were the School's original job-sharing duo, continue to receive attention for their success in sharing one full-time position as secretary to Dr. David Avery, Chairman of Pedodontics, and taking turns with child care at home. The October 1984 issue of Guideposts, a national publication and "practical guide to successful living," mentions their experience as one alternative for young mothers who need (or wish) to remain in the work force.

The job-sharing project was discontinued last spring when JoAnn decided, after the birth of her second daughter, Kathryn, to take care of the home fires on a full-time basis. Elizabeth, who has also had another baby (a daughter named Elaine), is working part-time in the Pedodontics Department.

READERS OF OUR NEWSLETTER are informed that the IUPUI Staff Council represents the non-academic staff in the communication processes and decision-making of IUPUI. Representatives are elected for two-year terms and attend meetings on the third Wednesday of each month from 1-3 p.m. The Dental School's three IUPUI Staff Council representatives are: Carolyn Brown (ext. 7204) and Mike Halloran (ext. 7281), who have one more year to serve, and Joan Justus (ext. 8434), whose term expires this year. Nominations for Staff Council were sent to all staff members recently, and election ballots will be received in October. New representatives will assume office in January, 1985. Anyone interested in participating on the Staff Council can become involved on the committees. Also, all monthly meetings are open to the staff.

The IUPUI Staff Council, in existence since only 1978, has already made several contributions to the University. When many employees were dissatisfied with the results of a 1979 reclassification of AD, DP, CN and OA positions (completed by Indiana University-Bloomington), the Staff Council intervened, which resulted in a review of the entire reclassification project. The Council was also instrumental in the reclassification of CL positions, a project recently administered by a private firm. Another accomplishment was the implementation in 1980 of fee courtesy benefits for dependents of full-time staff members. (Any dependent attending classes full-time on an IU campus receives half-tuition remission).

Two annual events sponsored by the Staff Council are Fitness Day, held in May, and the Staff Faculty Recognition Awards, which were presented for the first time this year.

ADDITIONAL NEWS ITEMS have been received from the IUSD Non-Academic Staff Council:

THE STAFF/FACULTY RELATIONS COMMITTEE has distributed a memorandum to the chairpersons and immediate supervisors at the School of Dentistry encouraging them to have regular departmental meetings. Two members of the Committee observed TEAM Clinic's departmental meetings to gain insight regarding topics that might be discussed during these meetings. Dr. Donald Tharp, TEAM's chairperson, conducts informal 15-minute sessions once a week with TEAM's faculty and staff, where together they talk over procedures, new developments, problem areas in their routine and possible solutions to these problems. The TEAM sessions have served as an excellent model for departmental meetings in that every member of the department is given an opportunity on a regular basis to have input and to remain well informed about departmental business.

THE COMMUNICATION COMMITTEE of the IUSD Non-Academic Staff Council reports that the Staff Wiener Roast will be held at Eagle Creek Park, October 28, 1984. For information, contact Leslie Gist (8173). Also, discount General Cinema movie tickets will be available for anyone to purchase in November at \$2.50 per ticket. Watch the next Newsletter for more information.

The Communication Committee is seeking additional members to help in its mission of promoting communications for the staff, conducting fund-raising activities and promoting staff relations through social functions. Anyone interested should contact Leslie Gist.

Election and installation of the following officers for Staff Council took place September 27: Don Booth, President; Jean Richmond, Vice-President; Janet Duncan, Secretary; Shirley Shazer, Treasurer; Dr. Robert L. Bogan, Faculty Advisor.

Sally Phillips, Correspondent
IUSD Staff Council

TWO FIRST YEAR DENTAL STUDENTS were recently honored as recipients of Fund For Dental Health Scholarships. Ms. Donna Rowell and Ms. Colleen Johnson were presented their checks on behalf of the fund by Dr. Bogan.

MR. RICHARD ZOLLINGER represented the student body as delegate to the I.U.S.D. Alumni Association Board of Directors meeting and the Annual Business meeting in Bloomington on September 27-29, 1984.

THE FIRST YEAR DENTAL CLASS will again host Dental Day on Saturday, November 3, 1984. This is an annual event to which dental applicants from throughout Indiana are invited to speak to and be advised by recently accepted peers. The students discuss their admission and the present curriculum and demonstrate their technique projects. Through the years, this program has earned a reputation as a very enjoyable and educational experience for the guests.

DR. MAYNARD K. HINE, IUPUI Chancellor Emeritus and Professor Emeritus of Periodontics, was presented with the Henry Spenadel Award of the First District Dental Society in New York City on October 1. The award has been given each year since 1950 to honor Dr. Spenadel, who was a dedicated dental leader in New York.

As the 1984 recipient, Dr. Hine was cited for his significant contributions to dentistry over a period of many years. Dr. Hine also delivered the principal address at the awards ceremony.

DR. ROBERT H. DERRY, Professor Emeritus of Complete Denture and Director of Continuing Education, was presented with the 1984 Certificate of Appreciation from the School of Dentistry Alumni Association during the 40th Annual Fall Dental Alumni Conference in Bloomington, September 27-29. Dr. Derry was recognized for his dedicated service to the dental alumni during 43 years of faculty service, including his many contributions to the Fall Conference programs.

DR. WADE B. ANSHUTZ, Assistant Professor of Oral Diagnosis/Oral Medicine, was made an Honorary member of the IUSD Alumni Association at the fall meeting, in recognition of his contributions as a member of the part-time faculty and of the Endowment Committee for the Indiana Dental Association/Indiana University School of Dentistry Pursuit of Excellence Program.

MRS. DREW BECK of the Dental Library Staff, who also serves as Assistant Editor of the Newsletter, recently made a quick visit to the New Orleans World's Fair with her husband. (One remarkable feature of the visit is the time factor (the whole trip was completed in one day) and another is the fact that her husband was traveling (and walking for nine hours) with six fractured ribs which had been injured in an accident two weeks previously.

Drew's account of their high-speed tour follows:

Our plane left Indianapolis at 7:30 on a Tuesday morning. The flight was smooth and sunny and we arrived at the New Orleans airport in an hour and 45 minutes. Five buses were waiting on a special runway to take the passengers to the New Orleans 1984 World Exposition. Down the steps of the plane, up the steps of the bus, and we were off for a half-hour drive to the entrance of the Fair site, 82 acres on the east bank of the Mississippi River--five minutes from downtown New Orleans, and a 20-minute walk to the French Quarter.

Upon entering the Fair, we were greeted by an intricate network of lagoons, streams, and aqueduct courses. The theme of this Fair is "World of Rivers: Fresh Water as a Source of Life."

We rode a monorail over the grounds for our first glimpse of all the Pavilions, representing over 20 countries. At one point the Monorail entered one of the Exposition buildings and we were able to see the displays from above. We returned later in the day to tour this building.

We visited the exhibits of Australia, China, Canada and Japan, all quite interesting. However, mindful of the French Quarter with its superb restaurants (there were also 75 restaurants, including Pete Fountain's club and Al Hirt's, on the grounds of the World's Fair), we left the exhibit area at noon for some fantastic seafood in the Quarter. During the day we sampled quite a bit of Louisiana cuisine.

Back at the Fair, I passed up the chance for a ride on the world's largest Ferris wheel, 15 stories high, only to be coerced (after saying NO, NO, NO all day) into going for an early evening ride on an airborne gondola which took us across (and above) the Mississippi River and back again. I had been told the lights from the Fair exhibits and Midway were a beautiful sight at this height -- but all I could see was the Mississippi 2200 feet below. After my feet touched land again, I thought it had been a lovely sight to see once.

Next came the Caribbean exhibit, where we stepped along to the beat of steel drums, and the Egyptian Pavilion, which had a scale model of the Nile River; then we were off to see the art treasures of the Vatican Pavilion. This display of classic art contained 36 major works from Vatican museums by such artists as Rodin, Dali, Raphael, Roualt, and El Greco. The last room on the tour of this building

IUSD

COM DENT 10-84

contained the Raphael Tapestry, Resurrection, which covered an entire huge wall and was simply awesome to behold.

Each pavilion contained a gift shop, so I was able to do a little shopping in some of the hundreds of shops.

After walking nine hours in 92° heat, it was time to board our bus to the airport and head north. We arrived home the same day we left, at 11:30 p.m. A fantastic one-day excursion!

FROM THE LIBRARIAN'S DESK, by Marie Sparks

Microcomputers are the talk of the town. Should I buy one or not? What kind should I buy? What software is best? The questions are endless. To help answer some of your questions, the School of Dentistry has the following journals:

- Focus on Dental Computers
- Microcomputing
- Personal Computing
- Popular Computing
- PC world

We have a pamphlet file on computers which contains information on various types of microcomputers. The Library also has the following books on microcomputers:

All you need to know about microcomputers: the small-business manager's advisory. By Shirley Daniels (QA 76.5 .D2 1979)

Before you invest in a small business computer: essential information for first-time buyers. By William D. Skees (HF 5548.2 S627b 1982)

Complete handbook of personal computer communications: everything you need to go online with the world. By Alfred Glossbrenner (QA 76.5 G563c 1983)

Computer applications to private office practice. By Byron Oberst (W 26.5 C738 1984)

Computer basics: for non-computer managers and professionals. By Bob Taetzsch 1982. (QA 75 T123c)

Computer dictionary and handbook. By Charles J. Sippl (REF QA 76.15 :S512 1980)

Computer dictionary for everyone. By Donald Spencer (QA 76.15 .S64 1979)

Computer literacy: the basic concepts and language. By John V. Lombardi (QA 76.9 .C64 L842c 1983)

Computers in dental practice. By American Dental Association Council on Dental Practice (WU 26.5 C855c 1981)

- Computers in practice (audiocassette). By I. Hrabowsky
(MEDIA WU 77 C738 1982)
- The doctor's computer handbook. By Peter J. Fell (W 26.5 F317d 1984)
- Evaluation of radiation emission from video display terminals.
DHHS. PHS, FDA. Bureau of Radiological Health (WN 620 E92 1981)
- Getting started with the IBM PC and XT. By David Arnold (Q 76.8 .I2594
A753g 1984)
- Guidebook to small computers. By William Barden (QA 76.5 B27 1980)
- How to buy a personal computer (without anxiety). By Jonathan D. Liefv
(QA 76.5 .L514 1982)
- Howard W. Sams crash course in microcomputers. By Louis E. Frenzel
(QA 76.5 F746 1980)
- An introduction to microcomputers. By Adam Osborne. 3rd ed.
(TK 7888.3 O811 1982)
- Librarian's guide to microcomputer technology and applications. By
Lawrence A. Woods (Z 678.9 W895L 1983)
- Lotus 1-2-3 for the IBM personal computer and XT. By Edouard J. Desautels
(HF 5548.4 .L67 D442L 1984)
- Mastering micros. By Hannah I. Blank (QA 76.5 B642m 1983)
- Microcomputer primer. By Mitchell Waite (TK 7888.3 .W2 1980)
- Microcomputers and libraries: a guide to technology, products and
applications. By Mark E. Rorvig (Z 678.9 R787m 1981)
- Microcomputers for business applications. By William Barden (TK 7888.3
.B2 1979)
- Microcomputers for medical professionals. By Christina J. McClung
(W 26.5 M478p 1984)
- Microcomputers in health care management. By William Christensen
(W 26.5 C554m 1984)
- Micros and modems: telecommunicating with personal computers. By Jack
M. Nilles (TK 5105.5 N712m 1983)
- Nailing jelly to a tree. By Jerry Willis (QA 76.6 W734n 1981)
- Optimizing the VDT workstation: controlling glare and postural problems.
By Louis Tijerina (TK 7887.8 .T4 T568o 1983)
- Osborne/McGraw Hill guide to IBM PC communications. By David Kruglinski
(QA 76.8 .I2594 K94o 1984)

Personalized guide to computers and your dental practice. By Thomas L. Snyder (WU 77 S675pb 1984)

Physicians guide to desktop computers. By Mark Harrison Spohr (W 26.5 S762p 1983)

Physician's primer on computers: private practice. By Jon F. Brandejs (W 26.5 B817p 1979)

Reference encyclopedia for the IBM Personal Computer. By Gary & Karen Phillips (REF QA 76.8 .I2594 P561r 1983 2 vols.)

Role of computers in dental practice management. By Ann Ehrlich (WU 26.5 E33r 1981)

The software catalog - microcomputers 1984- (QA 76.6 .S6169 on reserve)

Understanding & using dBase II. By Rob Krumm (QA 76.9 .D3b K94u 1984)

Using the IBM Personal Computer: Wordstar. By C. J. Puotinen (HF 5548.115 P984u 1983)

Wordstar for the IBM PC: a self-guided tutorial. By Edwin W. Meyer (Z 52.5 .W67 M612w 1984)

Your own computer. By Mitchell Waite (QA 76.5 .W22 1981)

THE FOLLOWING APPEARED in the October 5, 1984, issue of The IU Newspaper under the heading "50 Years Ago":

"...Juniors and seniors spend 32 hours a week in the clinics; all students attend either classes or laboratories 48 hours a week. Despite the long hours, students find that the practicality and intensity of the work maintain interest," reported the 1935 Arbutus, in reference to the IU School of Dentistry.
