Books On Demand Fact Sheet

Talking Points

- The Library is implementing the Books On Demand program to explore new methods of providing access to print and electronic books for the campus.
- Books On Demand was piloted in Fall 2018 with the Schools of Nursing and Social and the Department of History.
- Books On Demand joins the successful Articles On Demand and Film On Demand (Kanopy) programs to comprise the Library’s new On Demand Services.
- The program could potentially help the Library spend its purchasing funds more wisely.
- The program also gives IUPUI students, faculty, and staff a larger voice in shaping the Library’s collection.

How It Works

1. The User finds a book in IUCAT
2. Selects “Get this for IUPUI”
3. Identifies format and shipping preference
4. The item will be available to the user within about 2 hours for eBooks or 1–2 weeks for print books
