[S. OFFICER] I've been involved with United Way since the late 90's affiliated and working for United Way agencies as well as volunteering and helping to coordinate students here on the IUPUI campus to have service and volunteer experiences at United Way agencies.

It's important to be involved with United Way because United Way often helps organizations with donations for operating expenses that they would normally not be able to get from other means so it's important that your 3 year contributions for United Way you're able to support those in our community that may be less fortunate and to support innovative programs that add to the quality of life here in Indianapolis.

Through the community and IUPUI, impact is made every day to United Way. Live United.
