STRATEGIC PLANNING FOR INFORMATION TECHNOLOGY

Continuing the Journey

*. . . .Accelerating the Journey*

Established an information technology (IT) foundation for Indiana University that has supported the work of the university for 10 years.

The IT Strategic Plan - 1998

10 General Recommendations

Example:

Recommendation 1 –The University should build a solid foundation of IT infrastructure that will help and enable IU to achieve a position of leadership, and to assure that sound fiscal planning permits the maintenance of this infrastructure at state-of-the-art levels.

68 Actions

Example:

Action 51 - Implementation should begin for a university-wide wireless network, initially through a trial with a School.

The IT Strategic Plan - 1998

First IU Information Technology Strategic Plan, 1998

Actions

Security, policy, privacy

High performance computing

High capacity storage

Interoperability, convergence

Information systems

Classroom technology
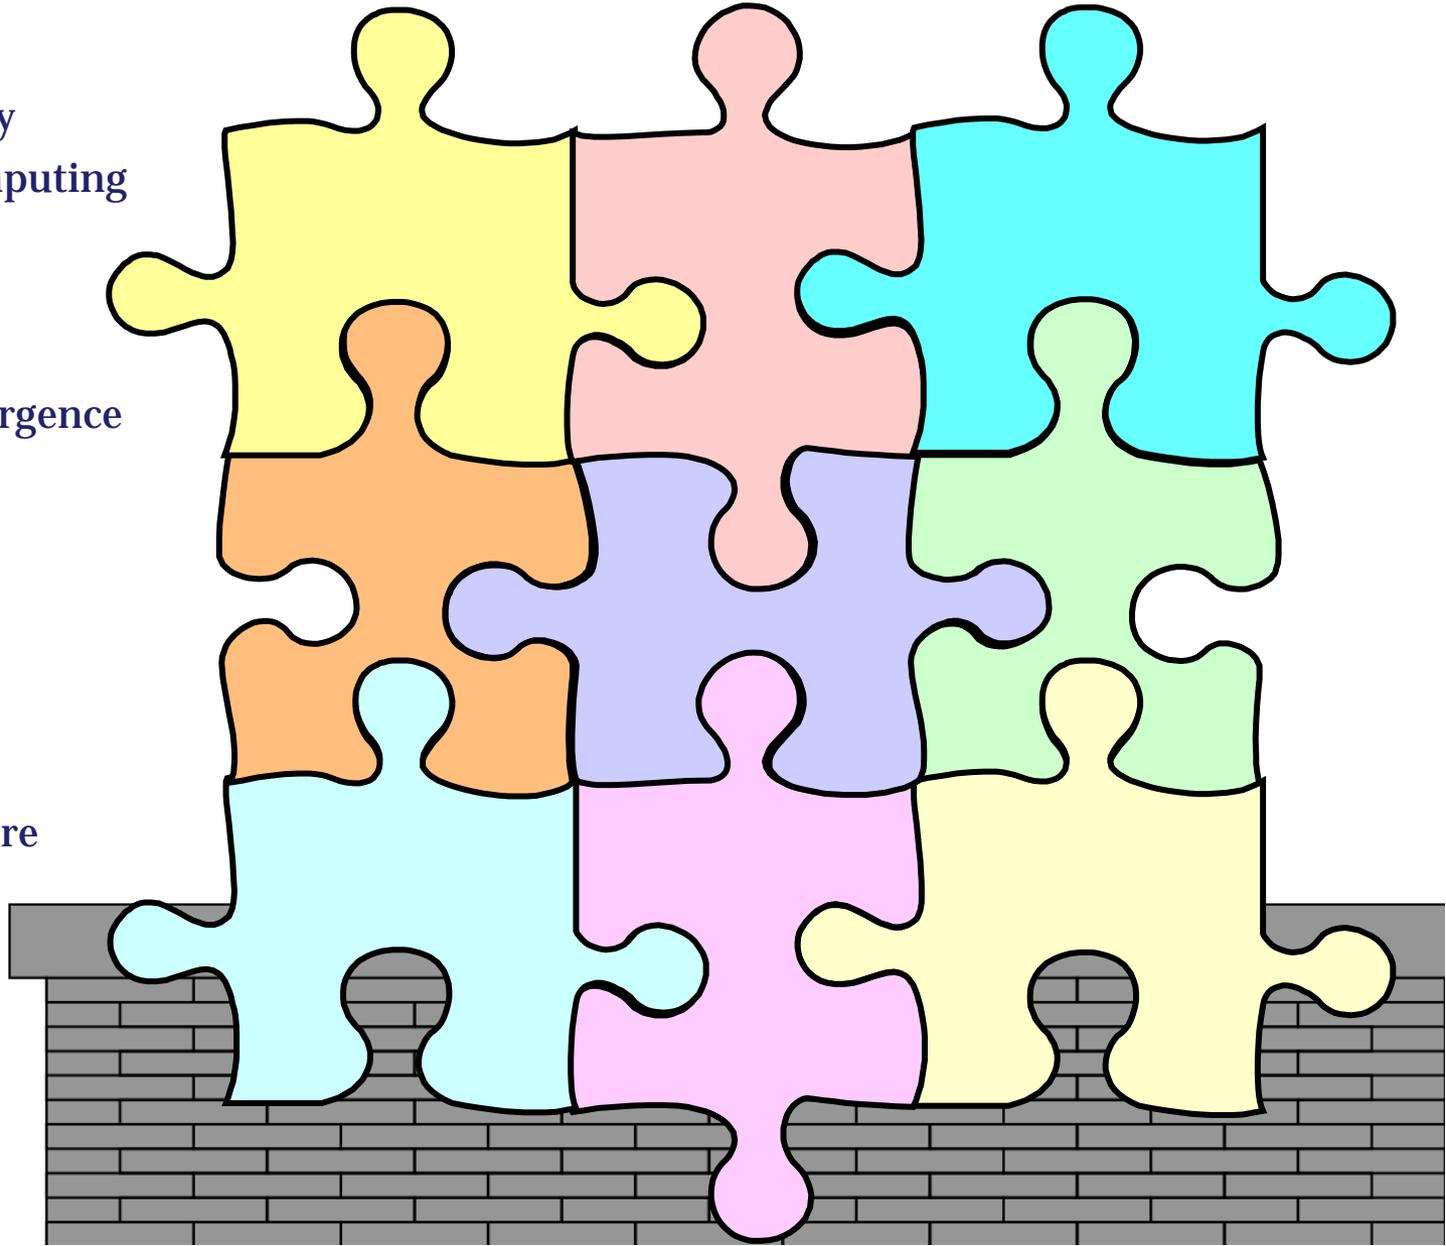

Real time support

IT consulting

Enterprise infrastructure

Software

Connectivity

Lifecycle replacement

Modernization

Recent Information Technology Trends at Indiana University

Information Technology Strategic Plan, 1997 - Present

Networks

Ownership

Modernization and Lifecycle replacement

Technology Classrooms

CMS

Students and faculty reported an increase from 18 to 29 hours/week in using technology over ~3 years

Wireless

(Y-axis: 0.0% – 100.0% in 10% increments; X-axis: 1992 – 2007)

Ownership
Personal ownership increased 53% in 14 years, to 96% of users reporting computers in their residence by 2006

Classrooms
All of IU's 640 Registrar-scheduled classrooms will be enhanced with technology by 2007

CMS
Course management system adoption increased with 88% of students and 80% of faculty using Oncourse by 2005

Networks
Classrooms and residence halls' network connections increased to 100% by 2003

Wireless
Wireless coverage of academic and informal learning areas increased from 1% to 95% in 3 years

Usage
Reported computer usage increased by 10.6 hours per week in 3 years

Microcomputer   Internet and Web   Web 2.0

Celebration Event - May 20, 2008

It is Time to Plan Again
