

From the Desk of the Chancellor

The beginning of the new year is exciting and challenging.

For example, many drivers are making their first trips to campus, which means they are "learning" the ropes of driving and parking.

To help all of us, we provide additional directions ("follow the blue line to parking") and options (temporary parking on designated lawn areas).

We know from experience that things will settle down in a couple of weeks. Students will be more accustomed to allowing enough time before class starts to find a spot and will learn options that allow them to get to class on time.

Other options include free on- and off-campus shuttles, IndyGo bus passes (free for students with an S pass), and many other commuter alternatives, including ride sharing. These are detailed at the [IUPUI Parking and Transportation Services Web site](#).

Or, try the free parking lot with shuttle service at 1200 Indiana Ave.

Ride your bikes or motorcycle (for parking locations, go to the [downloadable maps page](#) - where you'll also find the Campus Accessibility Maps.)

When you get to campus early, check out [Spotz Grille](#) at the Campus Center, now open for breakfast at 7:30 am.

Please share these options with others.

Best wishes for the start of the new academic year.

Chancellor Charles R. Bantz
