

CENTER FOR ADULT AND LIFELONG LEARNING

As a veteran, you've undoubtedly given your service to make our lives better. The least we can do is connect you to the office on campus whose primary focus is making your life, as a student, better. For more information about how the Office of Veterans and Military Personnel can help you, click [here](#).

LEARNING NEVER ENDS...

That's our motto. To make returning to school easier, we remove barriers, and connect you to others on campus who can get you the necessary resources. In short, we'll advise, guide, and support you toward degree completion. Our mission, more formally-- the Center for Adult and Lifelong Learning (CALL) supports adults' goals of degree completion, career advancement and lifelong learning. CALL makes IUPUI's postsecondary educational opportunities more easily accessible for Indiana's citizens, ages 25 and older.

We're here to let you know that **IUPUI offers over 250 degrees in 21 schools** to fit your needs including the General Studies Degree--designed for returning adults who don't want to start all over again.
