

## Get instructor-led hands-on training online!

Our new online workshops give you the chance to learn from your home or office! Using Adobe Connect, you will be able to hear and watch an instructor presenting course content, then practice what you learned in assisted online breakout sessions. This is an ideal training opportunity for people on regional campuses and anyone who can't make our

regularly scheduled workshops. And like our regular workshops, our online workshops are free for all IU staff, faculty and students across the state!

Our summer schedule now includes online workshops on [SharePoint \[](#), [Excel \[](#), [Word \[](#), [PowerPoint \[](#), [WCMS \[](#), [InDesign \[](#) and [Photoshop \[](#). An online Page Design workshop will also be added soon.

Advance registration is required and capacity is limited, so register in advance to reserve your seat.

You can read descriptions and register for all online workshops and webinars by going to [http://ittraining.iu.edu/live \[](http://ittraining.iu.edu/live [).
