Programs

The Multicultural Success Center is involved with many different programs on campus, however the programs below are the signature programs managed by our center. For more information on our program please feel free to contact our Associate Director, Ketwana Schoos.

This monthly series is intended to be a safe space for Latin@ students from all ethnic backgrounds to explore contemporary issues of the culture and community through open dialogue.

Cultural Cafés are events that consist of specific cultures' traditional music and entrées. Each event will have a different culture that is themed after, and the atmosphere will reflect that particular culture. Both on and off campus musicians, caterers and restaurants will be utilized in the production of this programming. Cultural Cafés will be held throughout the semester in the commons area located on the main floor of Joseph A. Taylor Hall during the lunch hour.

These excursions are designed to fully immerse students in the cultural environment of sub communities that they typically may not have the opportunity to experience. Past educational trips included exploration of the LGBTQIA community in Indianapolis and the Latino community in Chicago.

This monthly leadership opportunity is designed to provide students with information and support that they can use to improve their organizations, as well as their personal development.

This week of activities is devoted to celebrating the strength and diversity of today's man, as well as exploring critical issues that specifically impact men across campus and in the community.

The selected films focus on historical and social perspectives of various cultures. The films correlate with the various cultural heritage months that are celebrated on campus.

This end of the year event celebrates the accomplishments of our multicultural student organizations' leaders and graduates.

This series of monthly programs is designed to promote holistic student success. Workshops focus on topics that will help students succeed inside and outside of the classroom. Past topics include: financial literacy, test taking strategies, résumé writing, stress management and more!

Each semester we feature a prominent lecturer to engage students, faculty and staff in discussions that are culturally relevant.

The IUPUI Multicultural Success Center seeks to engage students and the IUPUI community in proactive dialogue around issues of diversity and multiculturalism, including the community voice through service and outreach, articulate and address the needs of students, faculty and staff across lines of color, gender, ethnicity, ability and orientation.
