### What is the CTL?

To enable you to transfer college credits, Indiana has developed the Core Transfer Library (CTL) – a list of courses that will transfer among all Indiana public college and university campuses, assuming adequate grades.

All Core Transfer Library courses will meet the general education or free elective requirements of undergraduate degree programs, and a significant majority of CTL courses will also count as one-on-one equivalents to courses taught at your new campus.

### Independent Colleges

Work is underway with the Independent Colleges of Indiana (ICI) and the Statewide Transfer and Articulation Committee (STAC) to determine course equivalency between independent and public institutions of higher education. The following independent (private, regionally-accredited) colleges were engaged in the process of determining course equivalency that meet Core 40 with Academic Honors dual credit requirements. The list of courses below meet the dual credit requirements necessary for Core 40 with Academic Honors for the high school. If students choose a dual credit course NOT on the CTL or on the courses listed by ICI, they should directly contact the college they plan to attend to see how that course can be used at that institution. Indiana colleges and universities provide many opportunities for students to earn college credit while still attending high school.
