The Definition of 'Sustainability'

We strive to stay simple when it comes to defining "sustainability." We follow the United Nation's definition: "'Sustainability' is meeting the needs of the present without compromising the ability of future generations to meet their own needs."

Featured Event: Sustainability and Green Fair

Start your campus year off right by learning how to live sustainably on campus and off. Every fall during Weeks of Welcome (WOW), IUPUI hosts its Sustainability and Green Fair where students, faculty, and staff learn about sustainability issues from green suppliers, organizations, and speakers and by attending workshops and other green-promoting events.
