Fiscal Health

The School of Social Work (even during a time of State budgetary crisis) has an overall picture of good health with a reserve of $907,388.20. In academic year 2002-2003, credit hours were down in the fall by 2.3% causing some concern for our fiscal outlook, but we have seen enrollment remain relatively steady for spring 2003 compared with spring 2002. During this particular fiscal year, we expect to break even or have a minimal deficit (which would be covered by our reserve).

Reallocation Plan

For the 2002-2003 academic year there was no reallocation of funds.
