The Purdue schools, IUPUC campus and IUPUI campus unit signatures are in production to be released and implemented during the 07-08 academic year. [http://ocm.iupui.edu/integratedimage/]

5. Improve the crisis communication plan and establish improved emergency preparedness web presence.

Fiscal Health

Resource Allocation

The fiscal health for 2006-2007 is strong. We invested additional resources on behalf of the campus to generate signatures for
academic units to comply with the Indiana University visual identity standards. This cost was unanticipated but an essential investment to comply with the new integrated image standards released in fall 2006 and spring 2007.

In order to accomplish our enrollment shaping goals in the region, nationally and internationally, additional base funding will be necessary for advertising and marketing.

New initiatives referenced in 2007-2008 may not be possible to advance this academic year without additional staff to develop and execute the alumni student recruitment initiative. If adequate funding is not available to execute these initiatives in 2007-2008, the initiatives will advance to 2008-2009 for student recruitment and alumni program development.

In addition to student recruitment, IUPUI cannot reach national prominence without an investment in marketing materials to reaching and influence peer institutions beyond the current budget for 2007-2008. Phase I has been developed and deployment has begun with the Signature Center promotion.

Given the campus’ prime location in the state’s government center and largest metropolitan area, IUPUI is likely to play a more dominant role in economic development, public affairs and government relations. Additional staffing in the areas of special events and VIP tours, as well as government relations would be prudent and advisable.
