## YOU MAY BE UNCOMFORTABLE, BUT YOU MAY SAVE A LIFE

Because of the strike in the bituminous coal industry, IUPUI has not been able to receive any coal since October 8. Reserve stocks, which were at a maximum at that time, have now dwindled to less than half. Coal burning is augmented with oil, but at a cost 60 per cent greater than for coal alone. Oil-fired steam capacity is not sufficient to supply the total steam needs of IUPUI.

Consequently, cutbacks in steam service for heating and air conditioning are mandatory. Highest priority for continuity of service is naturally given to the hospitals. Life support must not be endangered. Academic and ancillary functions will have to endure less than satisfactory comfort conditions.

A program has been started which reduces heating and air conditioning in all buildings on the IUPUI Campus served by the Central Power Plant. These reductions are scheduled, as much as possible, when the buildings are at minimum occupancy, such as evenings and weekends.

Normal operations will not be assumed until about two weeks after the miners go back to work. It will require this time for shipments to be delivered and unloaded at the plant.

## URBAN GLOSSARY

The Indianapolis Downtowner magazine has reprinted some useful definitions for the language of ecology as published originally in Ecology Notebook, by Morton Leeds, director of plans program evaluation for HUD. . .

Maintenance -- The constant probing of the city's intestines through the concrete, to determine whether they are still there. The effect of this process upon the city's circulation, however, is dimly understood.

Nature -- The mother of God, as distinguished from man, the father of God.

Park -- A green, pleasant, and unsafe place to walk. Generally kept dark at night to assure its continued status.

Pollution -- The broken water closet of Spaceship Earth.

Rat -- A small, four-legged mammal, as ubiquitous, clever, useless and dirty as man; the rat, however, has a tail.

Reactor -- Part of a panel that builds up heat without exploding.

Tree -- Nature's gentle attempt to correct man's architectural mistakes.

ARE YOU RELEVANT?

The IUPUI Science-Humanities Committee is looking for people interested in doing research relevant to our society. If you have any interests in participating in the development of an IUPUI Institutional Program, please contact any member of the committee as soon as possible but preferably before Thursday (November 4).

Dr Morris Aprison - Psychiatry  
Dr. Martin Bloom - Graduate School of Social Service  
Professor Robert Eagerton - Herron School of Art  
Dr. LaForrest Garner - Dentistry  
Dr. Nelson Goud - Education  
Dr. Ernest Johnston - Mathematics, 38th Street  
Dr. Monte Juillerat - Agriculture - 38th Street  
Dr. John Liell - Metropolitan Studies  
Dr. Jack Lukemeyer - Medicine  
Dr. Joseph Mamlin - Community Health Services  
Dr. Forrest Meiere - Physics - 38th Street  
Dr. Doris H. Merritt - Sponsored Programs  
Dean William Nevill - 38th Street  
Dr. Ralph Phillips - Dentistry  
Dr. Frances Rhome - English  
Dr. Carl Rothe - Physiology  
Dr. Lauranne Sams - Nursing  
Dr. Edward Shrigley - Graduate Programs  
Professor James White - Law School

FLU SHOTS--PART II

Influenza immunization was made available to Medical Center personnel last week. A number of questions arose, and Dr. Jerry Royer, director of the Student-Employee Health Service, offers the following information:

The central issue: Is influenza immunization recommended? Yes - for certain persons. The Advisory Committee on Immunization Procedures of the U.S. Public Health Service recommends seasonal immunization for persons in the following categories:

1. Persons suffering from chronic health problems, e.g. rheumatic heart disease, chronic asthma, pulmonary tuberculosis, etc.
2. Patients residing in nursing homes, chronic disease hospitals or other such environments where spread of disease may be of greater risk due to living arrangements.
3. Older age groups, i.e. persons over 45 and particularly those over 65.

Seasonal vaccination may also be advisable, when epidemic influenza is forecast, for those groups providing essential community services, and who, through their occupations, are exposed to high-risk situations:

1. Hospital and other health service personnel
2. Public safety personnel
3. Industrial employee groups

CONT.

Accordingly, the SEHS has provided influenza immunization as a service for the Medical Center personnel.

Because other persons have expressed desire for such immunization, the SEHS will offer influenza immunization again the following times. For non-Medical Center personnel, there will be a charge of \$2 for the immunization.

Tuesday (November 2)	2 - 4 p.m. Long Admitting Area
Thursday (November 4)	2 - 4 p.m. Long Admitting Area

Persons having known sensitivity or allergy to eggs, chicken, chicken feathers, or chicken dander should not receive such immunization.

#### MARK YOUR CALENDARS!

Regenstrief Lecturer -- Dr. W. Lester Henry, prominent black physician and medical educator, will present the November 9 Regenstrief Lecture on Health Care on the subject, "The Howard University Rural Health Project." Dr. Henry is professor and chairman of the Department of Medicine at Howard. He will speak at 4 p.m. in the Lilly Auditorium of Marion County General Hospital.

Reminder -- "New Developments in the Battle to Conquer Cancer" will be the featured discussion November 9 at the 10th Annual Joint Scientific and Engineering Societies Meeting at the Athenaeum. The dinner meeting program begins at 6 p.m. If interested, call Ken Turpin (631-2652), executive director of the Indianapolis Scientific and Engineering Foundation.

Attention All Women -- "Women in the City" is the theme of the program planned by the IUPUI Women's Club for Saturday, November 13. The meeting will open with a 12:30 p.m. luncheon at the Shrine Club, followed by a 2 p.m. tour of the Scottish Rite Cathedral and a 3 p.m. viewing of Professor Harry Davis' exhibit at the Herron School of Art. All IUPUI women faculty and staff are invited. For reservations, please call Mrs. Shirley Newhouse (Westside Campus) at Ext. 7617, or Mrs. Alice Taylor (38th Street) at Ext. 332. The price is \$4 for lunch; everything else is free. Reservations deadline is Thursday, November 11.

Y'all Come -- There will be a General Faculty Meeting on Thursday, November 18, at 4 p.m. in Lecture Hall Room 101 (Downtown Campus).

Faculty Conclave -- A special meeting of the IUPUI Faculty Council will be held Tuesday, November 30, at 3:30 p.m. in Lecture Hall Room 101 (Downtown Campus). The purpose of the meeting is to discuss a report by the IUPUI Faculty Council Academic Affairs Committee on the "Structure of Undergraduate Schools of IUPUI."

#### HONORS & ACCOLADES

Dr. Allan A. Katzberg, associate professor, Department of Anatomy, School of Medicine, received a Gold Plaque Award for his scientific presentation called "Epidermal Dynamics" at the recent 122nd annual meeting of the Indiana State Medical Association.

CONT.

An article by John M. Riteris, lecturer in philosophy, has appeared in translation as "La Etica en las Decisiones Comerciales" ("Ethics and Business Decisions") in the Spanish journal Alta Direccion. Last month he delivered the lead paper to the Indiana Philosophical Association at Marion College on "Problems and Considerations on Teaching Philosophy to Undergraduates." Also, Riteris has had several book reviews published in recent editions of The Journal of Thought.

Amanda Block, Herron School of Art faculty, has received the Goldstein Foundation Award for a photo-serigraph at the 51st Exhibition of the Society of American Graphic Artists in New York. It has been acquired for the permanent collection of the New York Public Library. Mrs. Block also has a print in a show circulated by the Virginia State Museum.

J.R. O'Loughlin, engineering, recently had an article published in the Journal of Spacecraft and Rockets. Its title: "Pressure Change Accompanying Mixing of Two Ideal Gases."

### TRAVELLERS

Genoa, Italy, was the destination last week for Dr. Ralph W. Phillips, assistant dean for research and research professor of dental materials. He was principal speaker at an international dental congress. Also, he has been appointed consultant for the basic sciences to the Council on Dental Education of the American Dental Association.

Vice-Chancellors John C. Buhner and Jack M. Ryder will attend the Indiana Conference of Higher Education in Nashville (Ind.) Thursday and Friday. On Sunday and Monday, Dr. Buhner will represent IUPUI at the annual meeting of the Association of Urban Universities in Chicago.

Dr. K.V. Vasavada, associate professor of physics, will give a colloquium talk at the University of Cincinnati on November 11. The topic will be "Simple Phenomenology with Regge Cuts."
