## "THIS VAST TREASURE" PREMIERE FRIDAY

"This Vast Treasure," a new full sound and color motion picture about Riley Hospital, will have its premiere Friday at 2 p.m. in the Meiks Conference Room on the hospital's fifth floor.

Produced by the Riley Memorial Association, the picture differs considerably from other Association films in that it has a story line and is not a tour-through-the-hospital type of movie.

The movie was made with the full and complete co-operation of the staff and faculty at Riley. Because of this co-operation, the movie was produced in and around normal hospital activities without disrupting hospital routine or upsetting delicate medical and nursing techniques.

All Medical Center faculty, staff and students are cordially invited to attend the premiere.

## SAVINGS BONDS

IUPUI is co-operating with the U.S. Treasury Department in providing opportunity for faculty and staff members to join the Payroll Savings Plan for U.S. Savings Bonds. You recently received a message from Vice-Chancellor Buhner explaining the plan, an explanatory leaflet, and a payroll-deduction authorization card. Those interested in joining the plan are asked to send their cards to the Payroll Department in the Allied Health Building at the Medical Center. Additional cards are available at the Payroll Department.

## MORE MONEY NEWS

The Social Security tax base was increased from \$7,800 to \$9,000 on January 1. Although the 1971 rate of 5.2 per cent continues, payroll deductions will be made from wages up to the higher total through 1972. If an individual's 1972 wages are \$9,000 or more, the tax will increase \$62.40, from \$405.60 to \$468.

## CONGRATULATIONS TO US

In spite of the Freeze, IUPUI United Fund donations moved up well over last year's \$39,000, to \$45,593.79. The average donation was \$24.86.

FOR BLOOD AND MONEY -- HURRYIN' HOOSIERETTES vs TIRMENSTEIN'S TOADS

The monumental contest of our time will be played January 20 when those giants of the boards, the Hurryin' Hoosierettes, the School of Nursing's non-subsidized inter-collegiate basketball team, meets Tirmenstein's Toads, the athletic cream of the IUPUI staff.

The Hoosierettes won in a nip-and-tuck fray last year. This time the Toads are out for blood, according to David Wilson, personnel, one of the moving spirits in the Tirmenstein organization.

Besides the grudge fight aspect of the match, the game is being played for money. The money, to be garnered from the sale of tickets, will go toward paying the expenses of the Hurryin' Hoosierettes to Memphis, where they will meet their old rivals from the University of Tennessee School of Nursing. The prize will be the fabulous Little Brown Jug, over which the teams have battled for the past five years, one game a year on a home and home basis.

The Hoosierettes need \$1,000 for the trip and all donations are welcome. Sponsor of the team is Mrs. M. Jeanne Pontious, associate professor of nursing. Coach is Miss Ieva Sijats of the School of Nursing. The team has three co-captains--Marcia Taylor, Pat Fryback, and Debbie May.

The benefit game Jan. 20 will be held at 7:30 p.m. at Cathedral High School gymnasium. Admission is \$1 per person, and tickets may be obtained from any member of the Toads or the Hoosierettes.

#### HONORS & ACCOLADES

Dr. Richard J. Hamburger, assistant professor of medicine, has been admitted to membership in the American College of Physicians. The 56-year-old international medical specialty society, with a membership of 18,500, dedicates itself to upgrading medical care, teaching and research through stringent standards of membership and programs of continuing education.

Neil E. Matthew, assistant professor of fine arts and a native of Anderson, recently was awarded "best of show" and a second prize at the annual Anderson Society of Artists Exhibit at the Anderson Art Center.

Dr. J. Steven Holmes, research psychologist at the Veterans Administration Hospital and assistant professor in Psychiatry Department, has been appointed to a three-year term on the State Board of Psychology Examiners.

Dr. Harry J. Healey, chairman and professor of endodontics, has been named to life membership in the International Association for Dental Research and to Omicron Kappa Upsilon, national honor society for dentistry.

Dr. Martin Bloom, associate professor at the Graduate School of Social Service, was one of several authors of an article called "Interviewing the Ill Aged" in the Winter 1971 edition of The Gerontologist.

Dr. Lawrence C. Hartlage, assistant professor of psychology, was recently elected president-elect of both the National Rehabilitation Training Institute and the Indiana Rehabilitation Association. He also has been appointed a consultant to the U.S. Department of Health, Education and Welfare and a contributing editor to The School Psychologist.

Dr. Peter Rabideau, assistant professor of chemistry, is the author of a research paper called "The Question of Ring Inversion in 2,3,6,7-Tetramethoxy-9,10-dihydroanthracene" in a recent issue of the Journal of Organic Chemistry.

TRAVELLERS

William A. Nevill, acting dean, 38th Street Campus, was the keynote speaker for the 28th Two-Year College Chemistry Conference held at San Antonio (Texas) College last month. Dr. Nevill spoke on "Salvation of the Non-Science Major," reporting on the activities of the curriculum committee of the American Chemical Society in developing behavioral objectives in teaching chemistry to the non-major and the formation of a new national curriculum project called CAUSS -- Chemistry, an Approach to Understanding of Science in Society. He also discussed a Mobile Science Program to State Parks, to be sponsored by the Public Understanding of Science Division of the National Science Foundation. Dr. Nevill chairs the curriculum committee for the non-science major and the "Science on the Move" project. He also is on the advisory board of the CAUSS project.

Mark Hylton, co-ordinator of IUPUI Administrative Data Processing, spoke recently at the Guide International meeting in Washington, D.C., on "Personnel Preparedness in Information Systems Planning and Design." Guide International is a nonprofit organization composed of representatives of 3,000 medium and large data processing users worldwide.

Leon H. Bourke, associate professor of French, was in Chicago last week to attend the meeting of the Paul Claudel Society. The society meets at the same time as the annual meeting of the Modern Language Association.

LIGHTS OUT!

In the midst of budget planning for 1972-73, Chancellor Hine has called attention to sharply rising costs for utility services. All of us can help reduce these costs by reminding ourselves--and others--to turn off all lights in rooms not in use.
