NOBEL LAUREATE TO LECTURE

X
/y Sir Hans A. Krebs, Nobel laureate and professor of biochemistry at Oxford University, will deliver a public lecture on the "Dangers of Overmedication" this week on the Medical Center campus.

As a physician, Dr. Krebs always has been interested in the applicability of biochemistry to clinical disease in man. The lecture he will present Wednesday at 4 p.m. in the Emerson Hall auditorium will interest basic and clinical scientists, faculty, students and practicing physicians. A discussion period will follow.

Dr. Krebs, on campus for the 13th annual invitational symposium on "Enzyme Regulation in Normal Tissues and in Cancer," discovered the urea cycle and the Krebs Cycle, receiving the Nobel Prize in 1953 for working out the latter metabolic sequence. His many recent discoveries in biochemical regulation are landmarks in the researcher's understanding of the control of cell metabolism.

IT'S UNITED WAY TIME

/y Our Indianapolis Campus campaign, led by volunteers from the schools and divisions, will need your gift. It's the only such project that the university endorses and supports.

So when your pledge card and message arrive, please consider the need and the cause. Giving by monthly payroll deduction is a convenient way to take part. This year's Indianapolis Campus appeal will be an intensive, two-week effort, co-ordinated by Executive Vice-Chancellor Edward C. Moore.

The United Way supports more than 100 local, non-profit agencies that help 500,000 persons in our community each year. Faculty and staff members know, and many take part in, the service programs provided by these agencies. Inflation has hit their programs, too, so your generosity this year will be especially important.

TAKING STOCK

Current stock market trends have sharply reduced values of major foundations' assets and brought announcements of fewer, smaller grants for next year. Lilly Endowment Inc. has reported an 18 per cent loss in asset value during the first eight months of 1974; Ford Foundation reports a \$1-billion loss of asset value, setting current asset value at about \$2-billion; losses of similar magnitude are reported by W.K. Kellogg and

(continued)

the Rockefeller Foundation. Lilly has announced that no current grants will be cut, but offered no optimism to applicants for new grants. Ford announced that grant programs may be cut by as much as 50 per cent. One indication of the impact of current stock price trends: A 50-cent drop in the price of Lilly common stock cuts nearly \$7-million from the value of Lilly Endowment assets and perhaps \$300,000 from available grant funds. Lilly awarded grants worth \$51.8-million in 1973.

CALENDAR CHECK-OFF

Exhibits -- Pharmacy displays this week in University Hospital are Dow Pharmaceutical Co. on Monday, Endo Laboratories on Wednesday and Marion Laboratories Inc. on Friday. Displays in Riley Hospital are Burroughs-Wellcome Co. on Wednesday and Beecham-Massengill Pharmaceutical Co. on Friday. Hours are 8:30 a.m. to 3:30 p.m.

Monday -- "Attempts to Isolate the Digitalis Receptor," Cardiovascular Pharmacology Seminar by Dr. Arnold Schwartz, professor and chairman of cell biophysics at the Baylor College of Medicine; Medical Science Building, Room 205, noon.

Concert -- The 75-voice Engadiner Choir from Switzerland will present a concert at 8 p.m. Monday at Christ Church Cathedral on Monument Circle. The performance is sponsored by Cathedral Arts, Inc. American Fletcher National Bank will open its Downtown Gallery for viewing before the concert.

Take a Tour -- Tours of University Hospital for Medical Center employees and volunteers will be going on all day Tuesday. Starting at 9 a.m., groups will leave the main lobby every 10 minutes for a 1 1/2-hour look-see-learn session through the hospital. The last tour starts at 3 p.m.

Lecture -- Dr. Barbara Quinton, assistant professor of pediatrics and medical genetics at Howard University, will give a lecture on sickle cell anemia at 1 p.m. Tuesday in Emerson Hall. Aimed at freshmen students, the lecture is sponsored by the Indianapolis Sickle Cell Anemia Foundation.

Tuesday -- "Calcium Antagonist in Cardiac Muscle Excitation Contraction Coupling," Physiology Seminar by Dr. J. Zimmerman, Department of Pharmacology and Medicine; Medical Science Building, Room 205, 3:45 p.m.

Seminar -- "Twin Studies," Medical Genetics Faculty Seminar by Dr. Patrick M. Conneally and Dr. Walter E. Nance; Riley Research, Room 139, 4 p.m. Tuesday.

Brrrr! -- "Antarctic Exploration" will be the topic for John G. Weihaupt, professor of geology, at the School of Science Dean's Convocation Series meeting Wednesday at noon in the faculty lounge of the Krannert Building, 38th Street Campus.

Wednesday -- "Coenzyme M and the Microbial Formation of Methane," Microbiology Seminar by Dr. R.S. Wolfe from the University of Illinois; Medical Science Building, Room B14, 4 p.m. (tea at 3:30).

Pomp and Pageantry -- The Welsh Guards and the Argyll and Sutherland Highlanders, two of Great Britain's most colorful regiments, will perform at Clowes Memorial Hall at 8 p.m. Thursday.

CCIP Meeting -- The Chancellor's Committee on International Programs will meet at noon Thursday in the Roof Lounge of the Union Building. Plans for International Week 1975 are on the agenda.

Thursday -- "Cognitive Development in the First Two Years," Child Development Seminar by Dr. Gary L. Groom, assistant professor of clinical psychology; Riley Hospital, Room A534, 2:30 p.m. to 4 p.m.

Go in' Home -- Big Red will try again Saturday -- this time against Minnesota for the I.U. Homecoming clash in Bloomington.

MILESTONES

A version of James Whitcomb Riley's poem "Little Orphan Annie" by the Heiken puppets will be a highlight of a party celebrating the 125th anniversary of the poet's birth and the 50th anniversary of the opening of Riley Hospital to be held for Riley patients at 2 p.m. Monday in the fifth-floor multi-purpose room.

Gov. Otis R. Bowen will preside at the party, which is being sponsored by the Riley Memorial Association.

The day will open at 10 a.m. in Crown Hill Cemetery, when a delegation headed by Perry Lesh, association president, and Dr. James W. Ryan, president of Indiana University, will place wreathes on Riley's tomb and on the nearby grave of William Lowe Bryan, president of I.U. when the university joined with the association to build Riley Hospital.

At a special noon luncheon in the Krannert Pavilion of the University Hospital the Indiana District of Kiwanis Foundation will present the association with "\$50,000 for the 50th."

Special guests at the afternoon party will be Mark Noble of Decatur, the first patient when the hospital opened in 1924, and the first patient admitted Monday. The Cheer Guild, which also is celebrating its 50th anniversary, will supply a cake decorated with the entrance to the hospital.

As a part of the celebration, leaders in business, industry and labor have been invited to have breakfast at the hospital at 8 a.m. Wednesday, followed by a tour of the facilities.

NEWS 'N' NOTES FROM HERE 'N' THERE

Action in Bloomington -- The Bloomington Faculty Council last week endorsed the I.U. reorganization plans and will take its action before a general meeting of the Bloomington faculty Tuesday. The endorsement of the plan to join Indianapolis and Bloomington campuses more closely contains many reservations, noting that many issues of reorganization are yet to be spelled out and need to be resolved in consultation with faculty and students.

Deadline -- The deadline for receiving applications to the Riley Memorial Association is Friday, November 15. Notice of awards will be made in early March for work to begin next July 1.

*A News Bureau Publication
Indiana University - Purdue University at Indianapolis
1100 West Michigan Street
Indianapolis, Indiana 46202

Applications will follow last year's format. If you would like an application, call the Office of Sponsored Programs, Ext. 8285, or the Dean's Office of the School of Medicine, Ext. 4404. Work supported by the association must be conducted in Riley Hospital.

4 Display -- The photographs of Russell L. Reichard, psychiatric social services director for the Indiana Department of Mental Health, are this month's attraction in the Union Building display cases.

Named -- Daniel K. Moriarity, president of Cook Brothers Inc. mechanical contractors, has joined IUPUI as assistant to the director of the physical plant, John V. Gebuhr. A graduate of Arsenal Technical High School, Moriarity directed electrical contracting work during the construction of most of the major building and addition projects at the Medical Center and IUPUI campus. A past president of the Mechanical Contractors Association of Indianapolis, he also is an active member of the Indianapolis Downtown Kiwanis Club.

Moved -- The Office of Veteran's Affairs is now in Real Estate House, 946 West Vermont, just west of Cavanaugh Hall. The veterans' certification section of the Registrar's Office has merged with the OVA. Any questions may be directed to the OVA at Ext. 7425 or Ext. 2567.

NEW ONCOLOGY LAB

Establishment of a Laboratory of Experimental Oncology at the School of Medicine to be headed by Dr. George Weber, professor of pharmacology, was approved by the I.U. board of trustees at their September meeting.

Dr. Weber becomes director of the laborator and will hold the additional title of professor of experimental oncology. Establishment of the laboratory as an extra-departmental entity was endorsed by Dr. James Ashmore, chairman of the Department of Pharmacology.

The laboratory for the study of tumors and cancer formalizes administratively a research group that has grown up in the Department of Pharmacology. In the past 15 years the group, which now numbers 30 scientists and technicians, has received grants totaling \$5-million for research on the metabolism of cancer cells.
