## REGISTRATION FUN & GAMES

Up to 10,000 IUPUI students-to-be are expected to converge on the confines of Cavanaugh Hall as walk-in registration gets under way Friday and August 23 from 9:30 a.m. to 7:30 p.m. (Late registration is September 3.)

Walk-in registration can be tedious and confusing, what with filling out forms, re-arranging schedules, paying fees, standing in line and other concomitant flourishes that make any such project at any school a chore. However, the IUPUI administrative staff and workers have been mobilized to make it as painless as possible.

According to Gerald C. Preusz, dean of student services, an estimated 200 workers will be on hand each registration day. Among those 80 are students hired just for those days.

Barbara McQueen, assistant bursar, has instructed her workers to "give each student undivided attention." Lines will be controlled and roped off to lessen confusion.

Norman Brown, assistant director of admissions, said his department will do all it can to admit every student who is qualified on those days.

Hours for personnel involved in the registration will be long. According to Susan Lampert, assistant registrar, an entire day will be spent just to set up. Workers will arrive at 6:30 a.m. and continue until 8:30 p.m. on registration days. Other departments will work as late as 10:30 p.m.

Despite the long lines and hectic atmosphere, workers in all departments agreed that there are few irate students. "Most problems stem from students who don't realize they have to pay the \$21 an hour fee (for undergraduate in-state students) on that day. Another problem comes from students who send friends or relatives to take care of registration and something goes wrong and the friend doesn't know what to do," said Mrs. McQueen.

Space is the number one problem, according to Mrs. McQueen. "We can't increase our staff because we just don't have the room," she said.

"Registration is a marathon," Miss Lampert said. "You have to pace yourself out over the entire registration period and be prepared for anything from lost cards to fainting."

Under optimum conditions--no lines, no class conflicts, no schedule changes--usually the student can make it through in an hour if he doesn't need counseling, admissions or financial aid. If he is having problems, it could take

two to three hours.

"All departments meet continuously to try to improve the process. We go over everything, including every inch of floor plans in Cavanaugh Hall. The only thing we can do is keep on trying," said Mrs. McQueen.
