GESTALT THERAPIST TO KEYNOTE NEW SOCIAL WORK COURSE

"Everything is awareness," according to Dr. Frederick S. Perls, founder of Gestalt therapy. Taking the cue, awareness will be preached and practiced at the I.U. School of Social Work in an all-day workshop Monday (January 23).

Dr. Leonard Hirsch, nationally recognized social worker in the discipline of Gestalt therapy, will be the first of a series of lecturers brought to campus as a result of the school's response to student requests for more knowledge of therapeutic disciplines developed within and outside the social work profession.

Hirsch will present the seven-hour seminar at Cavanaugh Hall to graduate students of the School of Social Work as keynoter of a new course called "Clients' Use of Differential Approaches to Treatment."

"The students made us aware of their desire to learn more about a variety of ways of helping people," explains Dr. Mary P. Carroll, associate professor, who developed the unusual course. "So we asked them to select which disciplines they wished to study. We computed the survey results and the number one interest was in Gestalt therapy," she says.

(Gestalt therapy, which calls for the personal participation of the therapist, emphasizes immediate behavior. The client is viewed as a whole--Gestalt means "whole" -- and if parts of his personality are in sharp disparity, the therapy tries to bring them into harmony.)

Hirsch is a faculty member of the Cleveland Institute of Gestalt Therapy and consultant with the Congressional Management Foundation, Washington, D.C. As consultant, he works with members of both houses of Congress, using Gestalt techniques to effect legislative social action.

Other disciplines to be explored during the course include: Reality therapy, experiential psychotherapy, behavior therapy, client-centered therapy, transactional analysis, rational emotive therapy, encounter, analytical psychotherapy, Alderian psychotherapy, psychoanalysis.

MOVING DAY AT RILEY

Activity will be more bustling than usual at Riley Hospital Monday (January 23) when a new patient unit opens up and when Clinic C moves into its remodeled quarters.

The Parent Education and Preparation (PEP) unit, which used to be the Motor Laboratory on Riley's fifth floor, is a 13-bed unit for new and older infants with long-term medical, surgical, environmental, or family problems. The telephone number for the PEP unit is Ext. 2687.

The second move entails relocating Clinic C in the old Ward K at Riley on the first floor, southwest wing. Clinic C will be a 20-treatment-room facility which will house 22 different pediatric clinics scheduled there each week. The telephone number is Ext. 2801.

Both projects are part of a \$2.3-million project of the Riley Memorial Association.

TOP-NOTCH TEACHING: TIPS ON GETTING THERE

More than 130 faculty members already have signed up to attend the first IUPUI Teaching Seminar, scheduled for Friday, February 10, in the auditorium at the School of Nursing.

The four-hour, informal seminar called "Getting the Message on Teaching" starts at 1 p.m. The program will feature the knowledgeable advice of I.U. President John W. Ryan on "Good Teaching at Indiana University," Professor Ivor K. Davies on "Building a Good Lecture" and Professor James E. Weigand on "Establishing Positive Classroom Conditions for Learning."

A 3:30 p.m. coffee hour will give faculty and other participants a chance to discuss these topics and to meet IUPUI faculty who have tried new tacks in the classroom.

Davies, a professor of education who got his teaching experience in geography and psychology, is in national demand as a lecturer on lecturing. A respected textbook author, he also has served as a consultant to many international companies and organizations. Davies also is assistant executive director of the Audio-Visual Center at IUB.

Weigand, professor of science education and administrative assistant to President Ryan, has received three outstanding teacher awards at IUB: The Distinguished Teaching Award, the Brown Derby Award and the Outstanding Teacher Award.

Advance registration is required for the symposium, which is being sponsored by the IUPUI Learning Resources Committee. For more information, contact that office in the Administration Building, Room 124, Ext. 7442.

WHO, WHAT, WHEN, WHERE & SOMETIMES WHY

Displays -- Pharmacy displays this week in University Hospital will be Dorsey Laboratories on Wednesday and Roerig Laboratories on Friday. Hours are 8:30 a.m. to 3:30 p.m.

Monday -- "Insulin Degradation by Disulfide Bond Cleavage," Biochemistry Faculty Seminar by Dr. Jack Dixon, assistant professor of biochemistry at Purdue University; Medical Science Building, Room 326, 4 p.m.

Tuesday -- "Simulation and Misclassification in Linkage Analysis," Medical Genetics Seminar by Alexander F. Wilson, graduate student; Riley Research, Conference Room 139, 4 p.m.

Rehab -- Administrators and others responsible for rehabilitation programs in six states will participate in a training workshop this week presented by the graduate program of the Department of Psychology of the Purdue School of Science at IUPUI. About 55 persons from Minnesota, Wisconsin, Michigan, Ohio, Illinois and Indiana will participate in the day-long workshops at the Union Building Tuesday through Friday. Dr. Robert M. Davis is co-ordinator of the program which is supported by a grant from the U.S. Department of Health, Education and Welfare. (Seventy-five students are working toward a master of science degree in the graduate program in rehabilitation psychology at IUPUI, the only one in the state.)

Rescheduled -- The IUPUI Division of Continuing Studies has rescheduled its Information Night for Tuesday from 3 p.m. to 8 p.m. at the 38th Street Administration Building. (The Great God of Flakes canceled last week's meeting.) Information Night provides an opportunity for interested persons to find out about the 150 spring courses on professional development, personal enrichment or general interest -- and to enroll in the course(s) of their choice. Call Ext. 4501 for more information and a class schedule.

Grand Rounds -- "Medical Management of Primary Hypertension" will be the topic for Department of Medicine grand rounds Wednesday at 8:15 a.m. in Myers Auditorium of Wishard Memorial Hospital. Guest speaker will be Dr. Nemat O. Borhani, professor and chairman of community health, School of Medicine, University of California at Davis. Medicine grand rounds has been accredited for Category I AMA credit hours.

One No Trump -- "Goren, Goren, Gone!" is the subject of this week's School of Science Dean's Convocation Series. Peter C. Loh and Charles Swart from the Department of Mathematical Sciences will lead the discussion Wednesday at noon in the faculty lounge of the Krannert Science Building.

Wednesday -- "Temperature Regulation and Adaptation in Higher Primates," Physiology Seminar by Dr. Raynaldo Elizondo, associate professor at IUB; Medical Science Building, Room 326, 3:45 p.m.

Seminar -- "The Regulation and Purification of Protease(s) in Trichophyton Rubrum and Other Dermatophytes," Microbiology and Immunology Seminar by Vithaya Meevootisom; Medical Science Building, Room 205, 4 p.m. Wednesday (refreshments at 3:30 p.m.)

Medical Faculty -- A general meeting of the faculty of the School of Medicine will be held Wednesday at 4 p.m. in the Emerson Hall auditorium.

Free Flick -- The film "Boy and His Dog" will be shown three times this week: Thursday at noon in the Krannert Science Building at 38th Street, Thursday at 8:15 p.m. at the Union Building, and Friday at 8:15 p.m. in the Lecture Hall.

On Stage -- The Canadian Opera Company will be on stage at Clowes Hall this week for a single performance of Verdi's "La Traviata." The company will present the popular opera Thursday at 8 p.m. Ticket prices range from \$4.50 to \$7.50.

More Opera -- The I.U. Opera Theater's production of "Carmen" opens Saturday at 8 p.m. at the Musical Arts Center in Bloomington. Additional public performances are the next three Saturdays: February 4, 11 and 18. (A special performance will be given Friday, February 3, for all Indiana high school and college students at special student prices.) For more information, call the box office, 812-337-7433.

EDITORIAL MEETING

Does your department put out a newsletter -- or is it planning to? Do you need brochures, posters, programs? Do you do any advertising or use public service announcements?

If you answer "yes" to any of the above, then you should be interested in a one-day seminar which has been arranged by the Office of University Relations.

The program, set for Monday, February 6, in the Roof Lounge of the Union Building, has been developed to help editors of I.U. publications improve the quality of their publications, to become familiar with several new services from University Relations units, and to promote better communication among the various publishing units.

Topics to be covered include: Defining objectives of a publication and defining target audiences; how to improve writing, layout, design and use of photographs; resources of the campus News Bureau and Publications Office, advertising and public service announcements; distribution plans and methods, and bidding procedures. The all-day session starts at 9 a.m. and includes lunch. There is no charge.

Interested persons should make reservations with Barbara Lentz 627-8814 no later than February 1. (If you are already booked on February 6, the same topics will be covered in a seminar Wednesday, January 25, in Bloomington at the Central Foods Building, 600 North Rogers Street. Call 627-8814 if you plan to attend.)

PRAISEWORTHY

The IUPUI "Gold Star of the Week" goes to the hale and hearty heroes of the snow plows and tractors at the Physical Plant. They manned their vehicles for an assault on the snow Tuesday that stretched till midnight--eight hours after their usual quitting time. (Monday night's wind undid much of their Monday efforts.)

By Wednesday, when motorists fortunate enough to reach the Medical Center did arrive, the campus streets were clear. And by Thursday morning, parking lots were clear. Fred Lennertz, superintendent of grounds and transportation, credits the 16-man crew for the clearance.
