HOW TO GET IT PUBLISHED

A new short course in preparing articles for publication in professional journals will be offered to IUPUI faculty, staff and graduate students starting Wednesday (May 24) at the 38th Street Campus.

Designed for researchers and faculty who need to review or improve writing skills, the five-session course will be taught by Johanna Bradley, editor, college writing instructor and editorial consultant for the Medical Library Association.

Participants will take their own material through the stages of market analysis, topic definition, outlining, writing and revision, and packaging. Articles can be ready for publication by June 30.

The class will meet five Wednesdays (through June 28) from 7:15 p.m. to 9:15 p.m. Cost is \$115. (Full-time IUPUI faculty and staff members may attend for \$76.) For more information, call the Division of Continuing Studies, Ext. 4501.

SCHOOL OF MEDICINE: PROGRESS REPORT

Addressing more than 800 School of Medicine alumni who gathered at their Alumni Day last Wednesday to launch the school's 75th Anniversary celebration, Dean Steven C. Beering announced the establishment of the James O. Ritchey Professorship of Medicine, in honor of "one of the most distinguished Hoosier physicians of all time." (Dr. Ritchey headed the Department of Medicine for 25 years and still heads the school's Admissions Committee.)

Commenting on the school's progress, Dean Beering noted some facts and figures: "Over the past decade. . .we have increased our class size by about 100 entering students. We have more than doubled the number of interns and residents in the state and we have seen the retention and attraction of physicians climb so that there are now more than 6,500 physicians practicing in Indiana. . . .

"Our Admissions Committee has selected a new entering class consisting of 305 individuals, 297 of whom are Hoosiers, sporting a collegiate scholastic average of 3.7 on a scale of 4.0. . . .

"Beginning in July of this year, 897 residents will be enrolled in 18 major specialty disciplines in 24 hospitals throughout the state. This figure represents a 110 percent increase since the inception of the Statewide Residency Programs in 1967. Significantly, there will be 195 physicians in Family Practice Programs, and altogether there will be 516 residents in primary care training, representing well over half of our total residency positions.

"The 1,508 members of our faculty continued this past year to display their scholarly creativity through the publication of 797 major articles and books. In addition, we have been successful in attracting 130 new grants totalling \$7,685,524 for this academic year. This figure represents a 50 percent increase over the preceding year. . ."

WHO, WHAT, WHEN, WHERE & SOMETIMES WHY

Displayables -- Pharmacy displays this week in University Hospital will be Searle Laboratories on Monday and Savage Laboratories on Friday. Hours are 8:30 a.m. to 3:30 p.m.

Nurses Look Ahead -- The final three speakers in the special "Nursing Futurology" series will be on campus this week: Jean Macvicar, director of the NLN Division of Hospital and Long-Term Care Facility Nursing Service, "Nursing Service Administration," on Monday; Dr. Norma Lang, professor of nursing at the University of Wisconsin-Milwaukee, "Quality Assurance," on Wednesday, and Dr. Marilyn Willman, dean of nursing at the University of British Columbia, "Nursing Education Administration," on Friday. All sessions will be held from 9 a.m. to noon in the School of Nursing.

Ongoing -- The School of Continuing Studies invites interested faculty and staff to a special symposium on "The Future of Continuing Education at the University" on Tuesday from 2 p.m. to 4 p.m. in Whittenburger Auditorium, Indiana Memorial Union, Bloomington. Special guest will be Dr. Robert F. Ray, dean of continuing education at the University of Iowa. Other participants will be I.U. President John W. Ryan and I.U. Vice-Presidents Robert M. O'Neil and Glenn W. Irwin, Jr.

Seminar -- "The Folding and Quaternary Structure of Trimeric KDPG Aldolase," Biochemistry Faculty Seminar by Dr. Alexander Tulinsky, professor of chemistry at Michigan State University; Medical Science Building, Room 326, 4 p.m. Tuesday.

Grand Rounds -- Dr. Suzanne B. Knoebel, Krannert professor of medicine, will moderate a panel discussion on "Afterload Reduction" during grand rounds Wednesday at 8:15 a.m. in Myers Auditorium at Wishard Memorial Hospital. Panel members will be Drs. Richard Childress, James Faris, Paul McHenry and Leon Stein.

Wednesday -- "Genetics of Autoimmune Thyroiditis," Microbiology and Immunology Seminar by Dr. Noel Rose from the Wayne State School of Medicine; Medical Science Building, Room 205, 3:30 p.m.

Dinner -- Friends and colleagues of Professor Frank Welcher, who has taught chemistry for 46 years, will gather Wednesday at 7:15 p.m. for a retirement dinner in his honor in the Hoosier Room at the Union Building.

Thursday -- "Facilitation of Lipid Vesicle-Cell Fusion by Sendai Virus Membrane Glycoproteins," Joint Biochemistry and Biophysics Seminar by Dr. Francis J. Martin from the University of California at Berkeley; Medical Science Building, Room 326, 4 p.m.

Staging Area -- The Marott Building theater will be the staging area for the final three performances of Alexei Arbutov's "The Promise" by University Theater actors Friday, Saturday and Sunday at 8 p.m. Tickets are \$2 for students, \$2.50 for others. For information, call Ext. 4935.

NEWS 'N' NOTES FROM HERE 'N' THERE

Early Deadline -- Because of the Memorial Day holiday coming up, all information for the Green Sheet edition of May 28 should be in the News Bureau by 5 p.m. Tuesday (May 23). Please send all printable facts, rumors and reliable hearsay to the Administration Building, Room 139.

Getting Oriented -- New employee orientation will be held Tuesday, May 30, at 8:30 a.m. in Hurty Hall C of Fesler Hall.

Put It Back -- A 4x9-inch electronic circuit board was taken at noon last Wednesday from a cart at the northeast entrance to the Medical Science Building. It is of no re-sale value (in fact, a component is missing), but it is of great value to the research program of the rightful owner. Will whoever has it please return the module to the Medical School Library so it can be returned to the owner.

Hours -- For the Memorial Day weekend, School of Medicine Library hours will be: 8 a.m. to 5 p.m. on Saturday, noon to 6 p.m. on Sunday, closed on Monday. Normal schedule resumes May 30.

The Case for Summer -- A flower-filled, summery art exhibit is on view this month and next in the Union Building display cases. Artists represented, known collectively as the Hoosier Five, are Cecil Head, Louise Johnson, William Kaeser, Wilbur Meese and Adolph Wolter.

APB Out for Gas Cylinders -- Medical Center personnel are urgently requested to make an all-out search for any and all old, unused gas cylinders that may be stored in closets, storage areas or behind closed doors. If you find any, please call Central Stores, Ext. 7222, and arrange to have the cylinder(s) picked up.

Coming Up -- A two-day seminar on "Current Concepts in Pediatric Otolaryngology" will be presented June 10-11 in the School of Nursing auditorium. Guest faculty will be Dr. Charles D. Bluestone from the Children's Hospital of Pittsburgh and Dr. Seymour R. Cohen from the Children's Hospital of Los Angeles. Sponsor is the I.U. medical school's Department of Otorhinolaryngology. For information, call Ext. 8424.

Contributions -- The university community was saddened to read of the death of one of its citizens. Dr. Lois C. Perkins, associate professor of Anatomy and a director of the National Paraplegia Foundation, died April 8. Memorial contributions may be made to the National Paraplegia Foundation, L.W. Freeman Chapter, 630 North College Avenue, Room 335, Indianapolis 46204.

Thank-You -- Mrs. Frances Heavrin, administrative assistant in the Department of Anatomic Pathology, sincerely thanks all those who have sent cards and letters concerning the death of her husband, Don, on April 30. The many kind words of sympathy and concern have been greatly appreciated.

Course Planning -- The Department of Human Resource Development, in co-operation with the Indianapolis Public Schools, will conduct two pre-fall high school planning sessions June 7-8 from 2:30 p.m. to 4:30 p.m. in University Hospital, Room C420. The purpose is to assess course offerings for the fall semester for the High School Program. For more information, call Ext. 8119.

COMMUNITY EFFORT

Members of the Indianapolis Jewish community, in conjunction with the Pediatric Metabolism and Genetics Laboratory and staff, are planning a voluntary screening program to ascertain carriers of Tay-Sachs Disease. The screening will take place June 4, at the Jewish Community Center from 1 p.m. to 4 p.m. Anyone interested in volunteering to assist the program should call Dr. Rebecca S. Wappner, Ext. 3966. Especially needed are physicians to obtain blood specimens and technicians for initial processing.

Tay-Sachs Disease is an inherited disorder mainly seen in children of Ashkenazi Jewish heritage. Affected children have a course of progressive neurological deterioration and usually die between two and four years old. It is inherited on an autosomal recessive basis; one in 30 persons of Ashkenazi heritage is a carrier. A serum test to determine the carrier state is available, and prenatal diagnosis is also available for couples at risk for TSD children.
