

**The Academic Affairs Committee (AAC) of the IFC Response to  
"Indiana University Common Calendar" dated February 28, 2014  
March 2014**

The AAC evaluated "Indiana University Common Calendar" dated February 28, 2014. Apart from one minor issue, the AAC is pleased to endorse the common calendar proposed in this document. Our one concern regards the start of weekend classes in spring semesters. We respectfully request that IUPUI be allowed to adjust weekend classes to commence on the weekend prior to the official Term Begin date when necessitated by that term's Commencement date. Since IUPUI's commencement occurs on Mother's Day, we have needed to make this adjustment with some regularity to assure the appropriate number of class meetings prior to the term officially ending (please see <http://registrar.iupui.edu/longterm.html> with dates designated with an "S" in the Classes Begin dates in the Spring Terms).
