BAILEY BRINGS MORE MUSIC TO CAMPUS

IUPUI does not have 76 trombones--yet. It does have a Steinway grand piano and a music man, **Darrell Bailey**--who has come from the School of Music at IUB to develop the music program on our campus. Already the IUPUI concert band is warming up, Bailey's own Madrigal Singers are ready to proceed and under his direction, the demand for credit music courses at IUPUI has more than tripled since his recent arrival. Compared to Bloomington's 1,000 or so concerts a year, its wide curriculum and many degree programs, music at IUPUI has just begun. But it is the newness and the unexpected interest that excites the seasoned professor. "We cannot offer a major in music, yet we have to turn students away. Rather than music majors, IUPUI students are music lovers," he said. Considering the fast growth already, Bailey expects the IUPUI music program to be fully ready to move into the new fine arts building planned for campus in the coming years. Bailey's program is in the basement of the Mary Cable Building and is assisted by Doug Smith who conducts the concert band and Glen Gass from the Bloomington campus, and by local music practioners Doug Babb, Jane East, Cheryl Patchen and Renee Motz. Music appreciation and history courses, and music techniques in guitar, voice and piano are offered. To join the band or choral groups, for more more information, call 4-4000.

EDUCATION AWARDS CHALLENGER TO TWO STUDENTS

The IUPUI Challenger Scholar Award, named for the seven astronauts who perished in January three years ago, has been given to two School of Education students, Joanne T. Warner, who is also last year's winner, and Greer A. Leisz. Chancellor Gerald Bepko announced the winners of the \$1,000 scholarships. This is the first time the award has been given to two students. Both women were to be honored during the commemorative 20th Anniversary luncheon Jan. 28, which notes the merger of I.U. and Purdue and honors founders of IUPUI.

THE MEDICAL AND HEALTH STORIES YOU HAVE SEEN ON CHANNEL 8 HAVE BEEN PRODUCED BY the School of Medicine Public and Media Relations Office that is directed by Pam Perry and Medical Educational Resources Program (MERP) on campus. WISH-TV anchor Debby Knox has presented the pieces on the 5:30 p.m. news. The stories include the I.U. Medical Center name and a Patient Referral and Utilization Office telephone number which has resulted in from 2-20 calls a week on such topics as nutrition, hypertension and pediatric pulmonology. Produced by Jeanne Fagan and directed by Steve Doyle, the video releases also have begun airing on Channel 11 in Evansville and Channel 7 in Terre Haute.

FINALLY...

...Stephen Dunlop, M.D., associate professor of psychiatry, will present "Clinical Research With Fluoxetine" in a psychiatric research seminar Feb. 2, noon, ground floor conference room, Institute of Psychiatric Research. All welcome.

...did you see the note about honoring commitment in the January issue of "Foundation Update?" It seems that Charles E. Kem, D.D.S., (I.U., 1929), made a \$20 commitment to IU in 1928. He could not pay the last \$5 right then, but did so with interest last year, 60 years after his original pledge. In the same publication, it was noted that Randall T. Tobias, vice chairman of At&T, has agreed to become chairman of the Foundation Board of Directors' audit committee.
