HART TO DIRECT FINANCIAL AID

Natala K. Hart officially began her duties as director of Scholarships and Financial Aid at IUPUI on July 1. As former executive director for the State Student Assistance Commission of Indiana, she brings to campus years of experience in the area of student financial aid. Gov. Evan Bayh commended Hart's work at SSACI and wished her well at IUPUI. Chancellor Gerald L. Bepko welcomed Hart and noted that she has a national reputation in her field. "We welcome Tally's invaluable experience and new ideas in this complex field," he said. She holds a bachelor's degree in government and a master's degree in student personnel from Ohio University. She relieves Barbara Thompson, assistant director, who has served as acting director. The office serves more than 12,000 students annually and offers assistance in institutional, state and federal financial aid funds in excess of $40 million. —M. Smith

NATION'S TOP ATHLETES HERE FOR B-BALL CAMP

For the first time, IUPUI is playing host to more than 100 of America's top high school players attending the annual NIKE/ABCD basketball camp, July 5-9. Also attending are some of the nation's top college basketball coaches, including IU's Bobby Knight and Purdue's Gene Keady. The most prestigious summer camp of its kind in the nation, the camp attracted Indiana's four top candidates for the coveted Mr. Basketball award, Brian Gilpin of Mount Vernon High School, Fortville; Charles Macon of Elston High School, Michigan City; Scott Shepherd of Carmel High School, and Walter McCarthy of Harrison High School, Evansville. IUPUI athletic director and men's basketball coach Bob Lovell, is local coordinator. He offered a free basketball clinic for Hoosier youths ages 12-18 and high school coaches during the national camp. The camp's finale is the Logo 7/March Supermarkets "Basketball Jamboree" at Market Square Arena July 9, 6-9 p.m. Tickets are $10 for adults; $5 for children 12 and under, are available at the MSA box office.

NEWS FROM 35 NATIONS NEW TO IUPUI

While students, faculty and staff gain international knowledge and enhance their foreign language skills, their foreign counterparts can get news from home on TV newcasts from 35 nations that began on campus July 1. Through SCOLA, Satellite Communication for Learning, the broadcasts will be satellite downlinked to various campus sites. The service is expected to go on local cable networks for home viewing. Some of the countries in the 24-hour-a-day native tongue broadcasts include Malaysia, France, Turkey, Mexico and Greece. Garland Elmore, director of the Office of Learning Technologies, has been largely responsible for the two-year negotiation involved in setting up fees and technical service. He notes that by viewing the same national events presented in many languages, students can be expected to become more curious and more aware of international affairs, political science and geography. He also notes that seeing the non-verbal and cultural aspects in the broadcasts will add an important dimension to communication and cross-cultural learning. Several departments—foreign languages in Liberal Arts, International Affairs and Special Media Projects—will share responsibility for using the new service and for paying the $5,000 annual fee, half of the originally quoted cost. For information on viewing sites, call Joetta Burrous, 4-4532. —M. Smith
COZMANOFF SAYS NO CHANGE IN FEE SYSTEM AT IUPUI

IUPUI Bursar Mike Cozmanoff said recently that because IUPUI has a unique body of students, the Indianapolis campus will continue paying for education on a per-credit-hour basis. Bloomington recently went on a flat-fee system. He said that IUPUI is staying with the traditional fee system because "we have a unique blend of full-time and part-time students, many of whom work and cannot be expected to complete their undergraduate education in an allotted time frame, which is required for an effective flat-fee system." He also noted that there will be an approximate 7-8 percent across the board fee increase per hour for graduate and undergraduate students. In-state fees will be $74.55 per credit hour for undergraduates and $99.85 for graduate courses. Activity fees also are going up.—R. Burrous
